

CURRICULUM VITAE

Part I: General Information

Date Prepared: 6 January 2025

Name: Ralph Müller, Ph.D.

Laboratory Address: ETH Zürich
Institute for Biomechanics, Laboratory for Bone Biomechanics
Department of Health Sciences and Technology
Gloriastrasse 39, 8092 Zürich, Switzerland

E-Mail: ram@ethz.ch
<http://www.bone.ethz.ch/>

Education:

1984	Matura Type C	Kantonsschule Reussbühl, Lucerne, Switzerland - STEM
1990	Dipl. Ing. ETH	ETH Zürich - Electrical Engineering (08.03.1990)
1994	Dr. sc. ETH	ETH Zürich - Electrical Engineering (15.11.1994)

Postdoctoral Training:

1995	Institute for Biomedical Engineering, University and ETH Zürich, Zürich, Switzerland
1996	Orthopedic Biomechanics Laboratory, Harvard Medical School, Boston, USA

Academic Appointments:

1997 - 1999	Instructor in Orthopedic Surgery, Harvard Medical School, Boston, USA
1999 - 2002	Assistant Professor of Orthopedic Surgery (tenure-track), Harvard Medical School, Boston, USA
2000 - 2006	SNF Professor of Bioengineering, Department of Information Technology and Electrical Engineering, ETH Zürich, Zürich, Switzerland
2001 - 2003	Adjunct Assistant Professor by courtesy, Department of Mechanical and Process Engineering, ETH Zürich, Switzerland
2004 - 2006	Assistant Professor by courtesy, Department of Mechanical and Process Engineering, ETH Zürich, Switzerland
2006 - 2010	Associate Professor of Biomechanics, Department of Mechanical and Process Engineering, ETH Zürich, Switzerland
2011	Professor of Biomechanics, Department of Mechanical and Process Engineering, ETH Zürich, Switzerland
2012 -	Professor of Biomechanics, Department of Health Sciences and Technology, ETH Zürich, Switzerland
2012 -	Professor by courtesy, Department of Mechanical and Process Engineering and Department of Information Technology and Electrical Engineering, ETH Zürich, Switzerland
2016 - 2017	Russell Severance Springer Visiting Professor, Department of Mechanical Engineering, UC Berkeley, USA
2017 - 2019	Visiting Professor, Department of Bioengineering, Imperial College London, UK
2019	NUSS Visiting Professor, Yong Loo Lin School of Medicine, National University of Singapore Society (NUSS), Singapore
2025 - 2026	Visiting Professor, Department of Mechanical and Manufacturing Engineering, Universidad de Sevilla, Spain

Institutional Appointments:

1988	Research Student, Image Science Group (Prof. O. Kübler), Communication Technology Laboratory, ETH Zürich, Switzerland
------	---

1989	Research Student, Institute for Biomedical Engineering (Prof. M. Anliker, Prof. P. Rügsegger), University and ETH Zürich, Switzerland
1990 - 1994	Graduate Research and Teaching Assistant, Institute for Biomedical Engineering (Prof. M. Anliker, Prof. P. Rügsegger), University and ETH Zürich, Switzerland
1994 - 1995	Senior Research Assistant, Institute for Biomedical Engineering (Prof. P. F. Niederer), University and ETH Zürich, Switzerland
1995	Micro-Tomography Project Manager for the European Union project BIOMED1, Computed Tomography Research Group (Prof. P. Rügsegger), ETH Zürich, Switzerland
1996 - 1998	Senior Research Associate, Department of Orthopedic Surgery (Prof. W. C. Hayes), Beth Israel Deaconess Medical Center and Harvard Medical School, Boston, USA
1997 - 2000	Research Fellow, Center for Engineering in Medicine (Prof. M. L. Yarmush), Harvard Medical School, Boston, USA
1999 - 2000	Associate Director, Orthopedic Biomechanics Laboratory, Department of Orthopedic Surgery (Prof. S. J. Lipson), Beth Israel Deaconess Medical Center and Harvard Medical School, Boston, USA
2000 - 2006	Head, Bioelectronics Group, Department of Information Technology and Electrical Engineering, ETH Zürich, Switzerland
2001 -	Co-organizer and Track Advisor Biomechanics, Graduate Program in Biomedical Engineering, ETH Zürich, Switzerland
2004 - 2005	Coordinator, Biomedical Engineering, ITET Pavillon, 150 Years ETH Celebration, Department of Information Technology and Electrical Engineering, ETH Zürich, Switzerland
2005 - 2008	Coordinator, ETH Bioengineering Cluster (BEC), Initiative on Bioengineering, Biosystems, Biotechnology (BEST)
2005 - 2008	Director, Center for Bioengineering Research and Education, ETH Zürich, Switzerland
2005 - 2013	Member, Center for Imaging Science and Technology (CIMST), ETH Zürich, Switzerland
2006 - 2013	Member, Materials Research Center (MRC), ETH Zürich, Switzerland
2006 - 2008	Associate Director, Institute for Biomechanics, ETH Zürich, Switzerland
2008 - 2012	Delegate of the President, Initiative on "Medical Engineering and Health", ETH Zürich, Switzerland
2008 - 2013	Director, Specialization in Biomechanics, Program in Human Movement Sciences, ETH Zürich, Switzerland
2008 - 2013	Member, National Competence Center in Biomedical Imaging (NCCBI), Switzerland
2008 - 2013	Director, Institute for Biomechanics, ETH Zürich, Switzerland
2010 - 2011	Co-organizer, Bachelor Program in Health Sciences and Technology, ETH Zürich, Switzerland
2011 -	Member, Center for Applied Biotechnology and Molecular Medicine (CABMM), University of Zürich, Switzerland
2012 - 2014	Deputy Head, Department of Health Sciences and Technology, ETH Zürich, Switzerland
2013 -	Head, Laboratory for Bone Biomechanics, ETH Zürich, Switzerland
2013 -	Member, Competence Center for Materials and Processes (MaP), ETH Zürich, Switzerland
2014 -	Member, Center of Experimental and Clinical Imaging Technologies (EXCITE), ETH Zürich, Switzerland
2014 - 2016	Head, Department of Health Sciences and Technology, ETH Zürich, Switzerland
2020 -	Member, Rehabilitation Engineering and Science Competence Center (RESC), ETH Zürich, Switzerland
2021 - 2023	Director, Institute for Biomechanics, ETH Zürich, Switzerland
2021 -	Member, Executive Board, Initiative on Advanced Engineering with Living Materials (ALIVE), ETH Domain Strategic Focus Area on Advanced Manufacturing (SFA-AM), ETH Zürich, Switzerland
2023 -	Member, Steering Board, Scientific Center for Optical and Electron Microscopy (ScopeM), ETH Zürich, Switzerland

Major Committee Assignments:

1999 - 2000	Member, Academic Computing Executive Oversight Committee, Beth Israel Deaconess Medical Center, Boston, USA
2002, 2005	Member, Selection Committee, ETH Medal for Excellent Doctorate Theses, Department of Information Technology and Electrical Engineering, ETH Zürich, Switzerland
2003 - 2004	Member, Search Committee, Full Professor "Medical Engineering", Department of Electrical Engineering and Information Technology, Technical University of Graz, Austria
2004 - 2011	Member, Scientific and Medical Advisory Board, Kuros Biosurgery AG, Zürich, Switzerland
2004 - 2008	Chair, Awards Selection Committee, European Society of Biomechanics
2004 - 2007	Member and Chair, Medical Review Committee, European Synchrotron Radiation Facility (ESRF), Grenoble, France

2005 - 2006	Member, Imaging Strategy Committee, Vice President of Planning and Logistics, ETH Zürich, Switzerland
2007 - 2008	Member, Selection Committee, ETH Medal for Excellent Doctorate Theses, Department of Mechanical and Process Engineering, ETH Zürich, Switzerland
2007 - 2008	Member, Search Committee, Assistant Professor "X-ray Microscopy", Department of Information Technology and Electrical Engineering, ETH Zürich, Switzerland
2007 - 2011	Member, Room Commission, Department of Mechanical and Process Engineering, ETH Zürich, Switzerland
2008 - 2011	Member, Admissions Committee, Department of Mechanical and Process Engineering, ETH Zürich, Switzerland
2008 - 2013	Member, Swiss Committee on Space Research, Swiss Academy of Sciences (SAS), Switzerland
2008 - 2013	Member, Board of Directors, Co-Founder, b-cube AG, Zürich, Switzerland
2008 - 2013	Member, Board of Directors, Co-Founder, Pearltec AG, Zürich, Switzerland
2009 - 2012	Member, International Advisory Committee, Centre for Multi-disciplinary Computer Assisted Tomography at Southampton (CeM-CATS), The University of Southampton, UK
2009 - 2016	Chair, Strategy Committee "Medical Engineering and Health", ETH Zürich, Switzerland
2010 - 2014	Member, International Advisory Board, Center of Excellence for Osteoporosis Research, King Abdulaziz University, Jeddah, Saudi Arabia
2010	Spokesperson, Search Committee, Professor "Orthopaedic Technologies in Aging", Department of Mechanical and Process Engineering, ETH Zürich, Switzerland
2010 - 2016	Member, Executive Committee, Department of Health Sciences and Technology, ETH Zürich, Switzerland
2010 - 2011	Member, Evaluation Jury, Architectural Competition for MEDTEC Building (GLC), ETH Zürich, Switzerland
2010 - 2014	Member, Steering Committee, ETH Phenomics Center, ETH Zürich, Switzerland
2011	Member, Search Committee, Professor "Muscle Plasticity", Faculty of Medicine, University of Zürich, Switzerland
2011	Member, Search Committee, Assistant Professor "Cartilage Engineering and Regeneration", Department of Health Sciences and Technology, ETH Zürich, Switzerland
2011	Member, Search Committee, Professor "Exercise Physiology", Department of Health Sciences and Technology, ETH Zürich, Switzerland
2011	Member, Search Committee, Professor "Neural Control of Movement", Department of Health Sciences and Technology, ETH Zürich, Switzerland
2011	Spokesperson, Search Committee, Professor "Movement Biomechanics", Department of Health Sciences and Technology, ETH Zürich, Switzerland
2011 -	Member, European Institute of Excellence on Tissue Engineering and Regenerative Medicine
2011 - 2016	Member, Oversight and Use Committee, Construction of MEDTEC Building (GLC), ETH Zürich, Switzerland
2012 - 2014	Member, Huiskes Medal Award Committee, European Society of Biomechanics
2012	Member, Search Committee, Professor "Quantitative Imaging", Department of Biology, ETH Zürich, Switzerland
2012	Member, Search Committee, Head and Chair, Department of Bioengineering, Imperial College, London, UK
2013	Member, Strategy Committee "Sustainable development of an aging society", ETH Zürich, Switzerland
2013 - 2017	Member, Scientific Advisory Board, Centre Suisse d'Electronique et de Microtechnique (CSEM), Neuchâtel, Switzerland
2013 - 2014	Member, Search Committee, Professor "Neurogenetics", Department of Health Sciences and Technology, ETH Zürich, Switzerland
2013 - 2015	Member, Search Committee, Professor "Systems Neuroscience", Department of Health Sciences and Technology, ETH Zürich, Switzerland
2014	Member, Search Committee, Professor "Rehabilitation Engineering", Department of Health Sciences and Technology, ETH Zürich, Switzerland
2014 - 2015	Member, Search Committee, Professor "Physical Activity and Health", Department of Health Sciences and Technology, ETH Zürich, Switzerland
2014 - 2016	Chair, Executive Committee, Department of Health Sciences and Technology, ETH Zürich, Switzerland
2015	Member, Search Committee, Assistant Professor "Sustainable Food Processing", Department of Health Sciences and Technology, ETH Zürich, Switzerland
2015	Member, Search Committee, Assistant Professor "Biomedical Image Computing", Department of Information Technology and Electrical Engineering, ETH Zürich, Switzerland
2015 - 2016	Member, Search Committee, Professor and Assistant Professor "Systems Neuroscience", Department of Health Sciences and Technology, ETH Zürich, Switzerland

2015 -	Member, Advisory Board, Department of BioMedical Engineering, Eindhoven University of Technology, The Netherlands
2017 -	Member, Board of Directors, müco AG, Hitzkirch, Switzerland
2018	Member, Search Committee, Assistant Professor "Biomaterials Immunoengineering", Department of Health Sciences and Technology, ETH Zürich, Switzerland
2018 -	Member, Academic Advisory Board, Department of Bioengineering, Imperial College London, UK
2022 - 2023	Member, Search Committee, Head, Department "Materials meet Life", EMPA, St. Gallen, Switzerland
2022 - 2025	Member, External Expert Advisory Board, Marie Skłodowska-Curie Doctoral Network "Cellular homeostasis and aging in connective tissue disorders (CHANGE)"
2023 - 2027	Member, External Expert Advisory Board, Marie Skłodowska-Curie Doctoral Network "Image-guided computational and experimental analysis of fractured patients (GAP)"
2023 -	Technology Advisor, Co-Founder, compagOs AG, Hünenberg, Switzerland
2024	Member, Search Committee, Assistant Professor "Musculoskeletal Bioengineering", Department of Health Sciences and Technology, ETH Zürich, Switzerland

Awards and Honors:

1993	Alice L. Jee Memorial Award, Twenty-Fourth International Sun Valley Workshop on Hard Tissue Biology, Sun Valley, USA
1994	SSBE Research Award for the thesis "3D Assessment and Analysis of Trabecular Bone Architecture", Swiss Society for Biomedical Engineering (SSBE)
1995	Full-Time Fellowship, Alberta Heritage Foundation (declined)
1995	Advanced Researcher Award, Swiss National Science Foundation
1996	Scanning Microscopy International Presidential Award, Scanning Microscopy Meeting, Bethesda, USA
1997	Full-Time Fellowship, Biomedical Engineering Discovery Fund, Center for Engineering in Medicine, Harvard Medical School / The Whitaker Foundation
1998	Biomedical Engineering Research Grant, The Whitaker Foundation
1999	Inaugural John Haddad Young Investigator Award, American Society for Bone and Mineral Research (ASBMR) and Advances in Mineral Metabolism (AIMM)
1999	Promising Young Scientist Award, International Society of Biomechanics (ISB)
2000	Inaugural Recipient SNF Professorship, Swiss National Science Foundation
2002	Finalist, Mario Boni Award, European Orthopaedic Research Society (EORS)
2003	Plenary Lecturer, 49th Annual Meeting Orthopedic Research Society, New Orleans, USA
2004	Young Leader 2004, The American-Swiss Foundation
2005	Plenary Lecturer, 27th Annual Meeting of the American Society of Bone and Mineral Research (ASBMR), Nashville, USA
2006	Publication Group Award, German Academy of Osteological and Rheumatological Sciences (DAdorW)
2007	Most Outstanding Clinical Abstract Award, Australian and New Zealand Bone and Mineral Society
2009	Speaker, World Economic Forum (WEF), Davos, Switzerland
2012	ESB Clinical Biomechanics Award, European Society of Biomechanics (ESB)
2014	Plenary Lecturer, TERMIS-EU 2014 Annual Meeting, Genoa, Italy
2015	Elected Member, Swiss Academy of Engineering Sciences (SATW)
2015	Elected Fellow, European Alliance for Medical and Biological Engineering and Science (EAMBES)
2016	Russell Severance Springer Visiting Professor, Department of Mechanical Engineering, University of California, Berkeley
2016	Finalist, ESB Clinical Biomechanics Award, European Society of Biomechanics (ESB)
2016	Golden Femur Award, ASBMR/ECTS Clinical Debate, 2016 Annual Meeting of the American Society of Bone and Mineral Research (ASBMR), Atlanta, USA
2017	Viktor Kaplan Lecture, Austrian Academy of Sciences (öAW)
2017	ERC Advanced Grant, European Research Council (ERC)
2018	Mike Horton Award, European Calcified Tissue Society (ECTS)
2019	Huiskes Medal for Biomechanics, European Society of Biomechanics (ESB)
2019	Muybridge Award, International Society of Biomechanics (ISB)
2019	NUSS Visiting Professor, The National University of Singapore Society (NUSS)
2021	Dandelion Entrepreneurship Award, ETH Entrepreneur Club and ETH AI Center
2022	Elected Fellow, World Council of Biomechanics
2022	Elected Fellow, American Society of Bone and Mineral Research (ASBMR)

2024 Golden Pipette Award, Debater Against the Motion, ECTS Basic Science Debate, 51st Annual Congress European Calcified Tissue Society, Marseille, France

Student and Fellow Awards, Faculty Appointments:

2002 Steve Boyd, Initial Appointment, Assistant Professor, The University of Calgary, Canada, currently Professor, Faculty of Medicine, The University of Calgary, Canada

2006 Jess K. Snedeker, Initial Appointment, Assistant Professor, University of Zürich, Switzerland, currently Professor, ETH and University of Zürich, Switzerland

2007 Harry van Lenthe, Initial Appointment, Professor, Katholieke Universiteit Leuven, Belgium

2007 Philipp Thurner, Initial Appointment, Lecturer, University of Southampton, UK, currently Professor, TU Wien, Austria

2012 Ara Nazarian, Initial Appointment, Adjunct Assistant Professor, Boston University, USA, currently Associate Professor, Harvard Medical School, Boston, USA

2013 Sandra Hofmann, Initial Appointment, Assistant Professor, Eindhoven University of Technology, Netherlands, currently Associate Professor, Eindhoven University of Technology, Netherlands

2013 Davide Ruffoni, Initial Appointment, Assistant Professor, Université de Liège, Belgium

2013 Philipp Schneider, Initial Appointment, Reader, University of Southampton, UK, currently Associate Professor, University of Southampton, UK

2016 Kathryn S. Stok, Initial Appointment, Senior Lecturer, University of Melbourne, Australia, currently Professor, University of Melbourne, Australia

2019 Dana Akilbekova, Initial Appointment, Assistant Professor, Nazarbayev University, Kazakhstan

2022 Caitlyn Collins, Initial Appointment, Assistant Professor, Virginia Tech, USA

2023 Danielle Whittier, Initial Appointment, Assistant Professor, The University of Calgary, Canada

2024 Xiao-Hua Qin, Initial Appointment, Assistant Professor, ETH Zürich, Switzerland

2025 Jianhua Zhang, Initial Appointment, ZJU-100 Professor, Zhejiang University, China

2001 Steve Boyd, NSERC Postdoctoral Fellowship Award, Canada

2001 Steve Boyd, Young Investigator Award, International Society of Biomechanics (ISB)

2001 Martin Stauber, Finalist, Young Investigator Award, International Society of Biomechanics (ISB)

2001 Yankel Gabet, Exchange Scholarship Award, European Calcified Tissue Society (ECTS)

2002 Yankel Gabet, Student Travel Award, Boehringer Ingelheim Fonds

2002 Martin Stauber, Best Commented Poster Award, European Society of Biomechanics (ESB)

2002 Ara Nazarian, Fullbright Fellowship, Recipient "Bundesstipendiat"

2002 Ara Nazarian, ESB Student Runner-up Award, European Society of Biomechanics (ESB)

2002 Eva Maria Lochmüller, Young Investigator Award, International Osteoporosis Foundation

2004 Harry van Lenthe, Young Investigator Award, International Bone Densitometry Workshop

2004 Tom L. Mueller, SSBE Student Award, Swiss Society for Biomedical Engineering (SSBE)

2005 Harry van Lenthe, ECTS Travel Award, European Calcified Tissue Society (ECTS)

2005 Yankel Gabet, Outstanding Research Student Award, Professor Yael Michaeli Foundation

2005 Thomas Krähenbühl, SSBE Student Award, Swiss Society for Biomedical Engineering (SSBE)

2005 Philipp Schneider, SLS Best Poster Award, 6th Swiss Light Source Users Meeting, PSI Villigen

2005 Stefan Heinzer, Max Anliker Memorial Poster Award, Swiss Society for Biomedical Engineering (SSBE)

2006 Philipp Schneider, Winner, New Investigator Recognition Award (NIRA), Orthopaedic Research Society (ORS)

2006 Ara Nazarian, Finalist, New Investigator Recognition Award (NIRA), Orthopaedic Research Society (ORS)

2006 Martin Stauber, Young Investigator Scholarship, Deutsche Akademie der osteologischen und rheumatologischen Wissenschaften

2006 Martin Stauber, SSBE Research Award, Swiss Society for Biomedical Engineering (SSBE)

2006 Henri Hagenmüller, Max Anliker Memorial Poster Award, Swiss Society for Biomedical Engineering (SSBE)

2006 Philipp Schneider, Best Student Presentation Award, Triennial Meeting of the Austrian, German and Swiss Society for Biomedical Engineering

2006 Philipp Schneider, ASBMR Young Investigator Award, International Society of Bone Morphometry (ISBM)

2006 Martin Stauber, IBMS Young Investigator Award, International Society of Bone Morphometry (ISBM)

2006 Ara Nazarian, IBMS Young Investigator Award, International Society of Bone Morphometry (ISBM)

2006 Philipp Schneider, Young Investigator Award, International Bone Densitometry Workshop

2006 Harry van Lenthe, Travel Award, International Bone Densitometry Workshop

2006 Tom L. Mueller, Travel Award, International Bone Densitometry Workshop
 2007 Peter Vogel, Excellence Scholarship Award, ETH Zürich
 2008 Kathryn S. Stok, Finalist, New Investigator Recognition Award (NIRA), Orthopaedic Research Society (ORS)
 2008 Philipp Schneider, Publication Award, German Academy of Osteological and Rheumatological Sciences (DAdorW)
 2008 Alina Levchuk, Whitaker International Fellowship, The Whitaker Foundation
 2008 Kathleen Koch, Whitaker International Fellowship, The Whitaker Foundation
 2008 Philipp Schneider, ESB Student Award, European Society of Biomechanics (ESB)
 2008 Philipp Schneider, Finalist, Young Investigator Award, International Bone Densitometry Workshop
 2008 Marion Senési, Excellence Scholarship Award, ETH Zürich
 2008 Romain Voide, JBMR Raisz-Drezner First Paper Award, American Society for Bone and Mineral Research (ASBMR)
 2009 Patrizia Fischer, Tom L. Mueller, Mario Schmuziger, Pearltec AG, Stage 1, 2 and 3 Awards (130,000 CHF), Venture Kick
 2009 Floor Lambers, ECTS Travel Award, European Calcified Tissue Society (ECTS)
 2009 Friederike Schulte, ECTS Travel Award, European Calcified Tissue Society (ECTS)
 2009 Philipp Schneider, Young Investigator Award, International Society of Bone Morphometry (ISBM)
 2009 Duncan Webster, Finalist, Young Investigator Award, International Society of Biomechanics (ISB)
 2009 Samuel Basler, Christoph Schröter, SSBE Student Award, Swiss Society for Biomedical Engineering (SSBE)
 2010 Friederike Schulte, ECTS New Investigator Award, European Calcified Tissue Society (ECTS)
 2010 Davide Ruffoni, IOF SERVIER Young Investigator Research Award, International Osteoporosis Foundation (IOF)
 2010 Floor Lambers, ECTS Travel Award, European Calcified Tissue Society (ECTS)
 2010 Davide Ruffoni, ECTS Postdoctoral Fellowship Award, European Calcified Tissue Society (ECTS)
 2010 Andreas Wirth, SSB Best Student Oral Presentation Award, Swiss Society for Biomaterials (SSB)
 2010 Andreas Wirth, ESB Student Runner-up Award, European Society of Biomechanics (ESB)
 2010 Friederike Schulte, ESB Student Award, European Society of Biomechanics (ESB)
 2010 Silke Wüst, BMT 2010 Student Award, German, Austrian and Swiss Society for Biomedical Engineering (DGBMT/öGBMT/SSBE)
 2010 Rachel Sondergaard, Merit Award, Best Intern in Mechanical Engineering, The University of Calgary
 2011 Zihui Li, CSC Doctoral Fellowship, Chinese Scholarship Council (CSC)
 2011 Marie Godla, Whitaker International Fellowship, The Whitaker Foundation
 2011 Benjamin Thimm, European Doctoral Award, European Society of Biomaterials (ESB)
 2011 Laura Nebuloni, Best Presentation Award, 2nd TOPEA Meeting
 2011 Luc Nimeskern, Scholarship, Summer School on Biomaterials and Regenerative Medicine, European Institute of Excellence on Tissue Engineering and Regenerative Medicine and TERMIS-EU
 2011 Friederike Schulte, ETH Medal for Outstanding Doctoral Thesis, ETH Zürich
 2012 Samantha Paulsen, Whitaker International Fellowship, The Whitaker Foundation
 2012 Robin Wilson, Whitaker International Fellowship, The Whitaker Foundation
 2012 Thomas Steiner, Max Anliker Memorial Poster Award, Swiss Society for Biomedical Engineering (SSBE)
 2012 Marcella von Salis-Soglio, Scholarship, IDEA League Doctoral School on Ageing
 2012 Friederike Schulte, ASBMR Annual Meeting President's Poster Competition Award, American Society for Bone and Mineral Research (ASBMR)
 2012 Marina Rubert, Marie-Curie Action, Intra-European Fellowship, European Union
 2013 Hanna Artsi, Excellence Scholarship, Exchange Program of The Hebrew University and ETH Zürich
 2013 Ben Larkin, OARSI Scholarship Award, Osteoarthritis Research Society International (OARSI)
 2013 Steve Ho, Whitaker International Fellowship, The Whitaker Foundation
 2013 Sandra Hofmann, ERC Starter Grant, European Union
 2013 Sandra Hofmann, Marie Curie Career Integration Grant, European Union
 2013 Michele Casanova, ESB Mobility Award for Young Researchers, European Society of Biomechanics (ESB)
 2013 Floor Lambers, ASBMR Annual Meeting President's Poster Competition Award, American Society for Bone and Mineral Research (ASBMR)
 2013 David Christen, ETH Medal for Outstanding Doctoral Thesis, ETH Zürich
 2014 Robin Wilson, NSF Graduate Research Fellowship, National Science Foundation
 2014 Alina Levchuk, Finalist, DGfB Award, German Society of Biomechanics (DGfB), World Congress of Biomechanics (WCB)

2014	Andreas Trüssel, Second Place, WCB Student Paper Competition, World Congress of Biomechanics (WCB)
2014	Elliott Goff, Whitaker International Fellowship, The Whitaker Foundation
2014	Ramin Oftadeh, Whitaker International Summer Award, The Whitaker Foundation
2014	André Butscher, Acta Student Award
2014	Alexander Zwahlen, JSB2014 Travel Award, 4th Japan-Switzerland Workshop on Biomechanics (JSB2014)
2014	Patrik Christen, Young Investigator Travel Award, 20th International Bone Densitometry Workshop (IBDW 2014)
2015	Patrik Christen, ASBMR John Haddad Young Investigator Award, American Society for Bone and Mineral Research (ASBMR) and Advances in Mineral Metabolism (AIMM)
2015	Jing Zhou, CSC Postdoctoral Fellowship, Chinese Scholarship Council (CSC)
2015	Andreas Trüssel, ISBM Young Investigator Award, International Society of Bone Morphometry (ISBM)
2015	Esther Wehrle, ETH Fellowship, ETH Zürich, European Union
2015	Jianhua Zhan, CSC Doctoral Fellowship, Chinese Scholarship Council (CSC)
2015	Jing Zhou, SSSTC Exchange Grant, Sino Swiss Science and Technology Cooperation (SSSTC)
2015	Esther Wehrle, ESB Travel Award, European Society of Biomechanics (ESB)
2015	Marios Georgiadis, ESB Travel Award, European Society of Biomechanics (ESB)
2015	Marios Georgiadis, Second Place, ESB Student Award, European Society of Biomechanics (ESB)
2015	Patrik Christen, CMBBE Travel Award, 13th International Symposium on Computer Methods in Biomechanics and Biomedical Engineering (CMBBE 2015)
2015	Duncan Betts, SSBM Travel Award, Swiss Bone and Mineral Society (SBMS)
2015	Patrik Christen, Holcim Fellowship, Holcim Stiftung for the Advancement of Scientific Research
2016	Marios Georgiadis, Early Postdoc.Mobility Fellowship, Swiss National Science Foundation
2016	Anna Woloszyk, Early Postdoc.Mobility Fellowship, Swiss National Science Foundation
2016	Esther Wehrle, SSBM Travel Award, Swiss Bone and Mineral Society (SBMS)
2016	Angad Malhotra, Marie-Curie-COFUND, WHRI-ACADEMY Fellowship, European Union
2017	Felicitas Flohr, Basic 'Ask your Peers' Poster Award, European Calcified Tissue Society (ECTS)
2017	Gianna Marano, ETH Medal for Outstanding Master Thesis, ETH Zürich
2017	Ariane Scheuren, ESB Travel Award, European Society of Biomechanics (ESB)
2017	Esther Wehrle, SGV Travel Grant, Swiss Laboratory Animal Science Association (SGV)
2017	Gianna Marano, Finalist, SSBE Student Award, Swiss Society for Biomedical Engineering (SSBE)
2018	Ariane Scheuren, Short Term Scientific Mission (STSM) Grant, COST Action BM1402
2018	Duncan Betts, ESB Student Award, European Society of Biomechanics (ESB)
2018	Graeme Paul, ESB Student Runner-up Award, European Society of Biomechanics (ESB)
2018	Dana Akilbekova, Postdoctoral Fellowship, Swiss Government Excellence Scholarship
2018	Denis Cener, Young Researchers' Exchange Fellowship, Bilateral Japanese-Swiss Science and Technology Program, Japan Society for the Promotion of Science (JSPS)
2019	Nicholas Ohs, Young Investigator Award, International Workshop on Quantitative Musculoskeletal Imaging (QMSKI)
2019	Felicitas Flohr, Young Investigator Award, International Workshop on Quantitative Musculoskeletal Imaging (QMSKI)
2019	Penny Atkins, ETH Fellowship, ETH Zürich, Marie Skłodowska-Curie Actions COFUND
2019	Xiao-Hua Qin, ETH Career Seed Grant, ETH Zürich
2019	Caitlyn Collins, Marie Skłodowska-Curie Actions, Individual Fellowship, European Union
2019	Nina Derron, ETH Medal for Outstanding Master Thesis, ETH Zürich
2019	Graeme Paul, ESB Student Runner-up Award, European Society of Biomechanics (ESB)
2019	Ariane Scheuren, Travel Grant, International Federation of Musculoskeletal Research Societies (IFMRS)
2019	Elliott Goff, Travel Grant, International Federation of Musculoskeletal Research Societies (IFMRS)
2019	Xiao-Hua Qin, Travel Grant, International Society of Bone Morphometry (ISBM)
2019	Kensuke Kataoka, Young Researchers' Exchange Fellowship, Bilateral Japanese-Swiss Science and Technology Program, Japan Society for the Promotion of Science (JSPS)
2020	Caitlyn Collins, Finalist, New Investigator Recognition Award (NIRA), Orthopaedic Research Society (ORS)
2020	Matthias Grass, ETH Medal for Outstanding Master Thesis, ETH Zürich
2020	Hui Liu, CSC Doctoral Fellowship, Chinese Scholarship Council (CSC)
2020	Wanwan Qiu, CSC Doctoral Fellowship, Chinese Scholarship Council (CSC)
2020	Daniel Greenfeld, ETH Medal for Outstanding Master Thesis, ETH Zürich
2021	Dilara Yilmaz, ECTS Travel Award, European Calcified Tissue Society (ECTS)
2021	Jianhua Zhang, Acta Student Award

2021	Caitlyn Collins, FIRST (First Independent Research Support & Transition) Award, American Society for Bone and Mineral Research (ASBMR)
2021	Neashan Mathavan, Young Investigator Award, American Society for Bone and Mineral Research (ASBMR)
2021	Jenny Gehlen, 2021 Global Undergraduate Award in the Life Sciences
2021	Danielle Whittier, NSERC Postdoctoral Fellowship Award, Canada
2022	Neashan Mathavan, Marie Skłodowska-Curie Actions, Individual Fellowship, European Union
2022	Julia Griesbach, ESB Travel Award, European Society of Biomechanics (ESB)
2022	Gian Schädli, Personalized Health and Related Technologies, iPostdoc Fellowship, ETH Domain
2022	Gian Schädli, compagOs, Stage 1 and 2 Award (10,000/40,000 CHF), Venture Kick
2022	Gian Schädli, Winner, Start-Up Pitch Session @ BMT 2022, Joint Annual Conference of the Austrian, German and Swiss Societies for Biomedical Engineering
2023	Bregje de Wildt, NWO Rubicon Postdoctoral Fellowship Award, The Netherlands
2023	Gian Schädli, compagOs, Stage 3 Award (100,000 CHF), Venture Kick
2023	Francisco Correia Marques, ESB Student Award, European Society of Biomechanics (ESB)
2023	Julia Griesbach, Young Investigator Travel Grant, American Society for Bone and Mineral Research (ASBMR)
2023	Dilara Yilmaz, Young Investigator Travel Grant, American Society for Bone and Mineral Research (ASBMR)
2023	Wanwan Qiu, Poster Award, Journal of Materials Science: Materials in Medicine, European Society of Biomaterials (ESB)
2023	Bregje de Wildt, NBTE Best Thesis Award, Dutch Society for Tissue Engineering and Biomaterials (NBTE)
2024	Francisco Correia Marques, ESB Travel Award, European Society of Biomechanics (ESB)
2024	Francisco Correia Marques, ISBM Top Abstract Award, International Society of Bone Morphometry (ISBM)
2024	Matthias Walle, ETH Medal for Outstanding Doctoral Thesis, ETH Zürich

Research Visits/Sabbaticals:

1991 - 1994	Visiting Scientist, Center for Biomechanics, Department of Bone Pathology UKE (Prof. Delling), University of Hamburg, Germany (periodically)
1996	Visiting Scientist, Biomechanics Section, Institute of Orthopedics (Prof. Huiskes), University of Nijmegen, The Netherlands
1996	Visiting Scientist, Human Performance Laboratory (Prof. Nigg), The University of Calgary, Canada
2001	Visiting Scientist, The Jackson Laboratory (Drs. Donahue and Beamer), Bar Harbor, USA
2016 - 2017	Russell Severance Springer Visiting Professor, Department of Mechanical Engineering, University of California, Berkeley, USA
2017 - 2019	Visiting Professor, Department of Bioengineering, Imperial College, London, UK
2019	NUSS Visiting Professor, Yong Loo Lin School of Medicine, National University of Singapore (NUS), Singapore
2025 - 2026	Visiting Professor, Department of Mechanical and Manufacturing Engineering, Universidad de Sevilla, Spain

Visiting Professors:

2008	Itai Bab, The Hebrew University, Jerusalem, Israel
2013	Charles S. Sfeir, University of Pittsburgh, Pittsburgh, USA
2017	Yoshitaka Kameo, Kyoto University, Kyoto, Japan
2019	Elise F. Morgan, Boston University, Boston, USA
2021	Karen L. Troy, Worcester Polytechnic Institute, Worcester, USA
2021	Pedro Paulo Chaves de Souza, Federal University of Goiás, Brazil
2022	Pankaj Pankaj, The University of Edinburgh, UK

Professional Societies:

2015	Elected Member	Swiss Academy of Engineering Sciences (SATW)
2015	Elected Fellow	European Alliance for Medical and Biological Engineering and Science (EAMBES)
2022	Elected Fellow	World Council of Biomechanics (WCB)
2022	Elected Fellow	American Society for Bone and Mineral Research (ASBMR)

2021 - 2024	Secretary	International Federation of Musculoskeletal Research Societies (IFMRS)
2018 - 2024	Board of Directors	International Federation of Musculoskeletal Research Societies (IFMRS)
2015 - 2024	Board of Directors	International Society of Bone Morphometry (ISBM)
2020 -	Chair	Scholarship Fund, Swiss-American Society (SAS), Zürich, Switzerland
2014 - 2015	President	Swiss-American Society (SAS), Zürich, Switzerland
2013 - 2014	Vice President	Swiss-American Society (SAS), Zürich, Switzerland
2012 -	Executive Board	Swiss-American Society (SAS), Zürich, Switzerland
2013 - 2016	Board of Directors	International Bone and Mineral Society (IBMS)
2008 - 2010	President	European Society of Biomechanics (ESB)
2004 - 2008	Vice President	European Society of Biomechanics (ESB)
2002 - 2010	Council	European Society of Biomechanics (ESB)
2008 - 2010	Past President	Swiss Society for Biomedical Engineering (SSBE)
2003 - 2008	President	Swiss Society for Biomedical Engineering (SSBE)
2001 - 2010	Executive Board	Swiss Society for Biomedical Engineering (SSBE)
2006 - 2008	Chair	Imaging and Diagnostics Committee, Orthopedic Research Society (ORS)
1995 -	Member	European Society of Biomechanics (ESB)
1997 -	Member	American Society of Biomechanics (ASB)
1997 -	Member	American Society for Bone and Mineral Research (ASBMR)
1999 -	Member	International Society of Biomechanics (ISB)
2000 - 2016	Member	International Bone and Mineral Society (IBMS)
2001 -	Member	Swiss Society for Biomedical Engineering (SSBE)
2002 -	Member	Orthopedic Research Society (ORS)
2008 -	Member	Tissue Engineering and Regenerative Medicine International Society (TERMIS)
2015 -	Member	International Society of Bone Morphometry (ISBM)
2016 -	Member	European Calcified Tissue Society (ECTS)
2017 -	Member	Swiss Society for Aging Research (SSFAR)
2023 -	Member	International Society for Stem Cell Research (ISSCR)

Professional Leadership Roles:

1996	First International Symposium on "Bone Architecture and the Competence of Bone", Leuven, Belgium, Organizing Co-Chair
1997	Second Int. Symposium on "Bone Architecture and the Competence of Bone", Crieff, Scotland, Organizing Committee, Scientific Co-Chair
1998	Third Int. Symposium on "Bone Architecture and the Competence of Bone", Kartause Ittingen, Switzerland, Organizing Committee, Scientific Co-Chair
2000	Fourth Int. Symposium on "Bone Architecture and the Competence of Bone", Big Sur, USA, Organizing Committee, Scientific Co-Chair
2002	Fifth Int. Symposium on "Bone Architecture and the Competence of Bone", Monterey, USA, Organizer and Chair
2005	Sixth Int. Symposium on "Bone Architecture and the Competence of Bone", Salzburg, Austria, Organizing Committee, Scientific Co-Chair, Session Chair "Bone Changes in Osteoarthritis"
1998	20th Annual Meeting of the American Society of Bone and Mineral Research (ASBMR), San Francisco, USA, Consulting Committee, Working Group, "Non-Invasive Assessment of Bone Architecture"
1999	21st Annual Meeting ASBMR, St. Louis, USA, Organizing Committee, Working Group, "Non-Invasive Assessment of Bone Architecture"
2000	22nd Annual Meeting ASBMR, Toronto, Canada, Organizer and Chair, Working Group, "Non-Invasive Assessment of Bone Architecture"
2001	23rd Annual Meeting ASBMR, Phoenix, USA, Organizer and Chair, Working Group, "Non-Invasive Assessment of Bone Architecture"
2002	24th Annual Meeting ASBMR, San Antonio, USA, Organizer and Chair, Working Group, "Non-Invasive Assessment of Bone Architecture"
2003	25th Annual Meeting ASBMR, Minneapolis, USA, Organizer and Chair, Working Group, "Non-Invasive Assessment of Bone Architecture"
2004	26th Annual Meeting ASBMR, Seattle, USA, Organizer and Chair, Working Group, "Non-Invasive Assessment of Bone Architecture"
2005	27th Annual Meeting ASBMR, Nashville, USA, Organizer and Chair, Working Group, "Non-Invasive Assessment of Bone Architecture"

2006	28th Annual Meeting ASBMR, Philadelphia, USA, Organizer and Chair, Working Group, "Non-Invasive Assessment of Bone Architecture"
2007	29th Annual Meeting ASBMR, Honolulu, USA, Co-Organizer and Co-Chair, Working Group, "Non-Invasive Assessment of Bone Architecture"
1998	11th Meeting of the European Society of Biomechanics, Toulouse, France, Session Chair "Bone Research (2)"
2000	14th International Workshop on Bone Densitometry, Warnemünde, Germany, Session Chair "Biomechanics".
2001	XVIIIth Congress of the International Society of Biomechanics, Zürich, Switzerland, Session Chair "Cellular Aspects of Bone Remodelling", "Biomaterials 1", "Biomaterials 2"
2002	IVth World Congress of Biomechanics, Calgary, Canada, Session Chair "Bone Biomechanics I: Healing and Adaptation"
2002	12th Annual Meeting European Orthopedic Research Society, Lausanne, Switzerland, Member International Scientific Committee and Plenary Lecturer
2003	49th Annual Meeting Orthopedic Research Society, New Orleans, USA, Plenary Lecturer in Instructional Workshop on "New Advances in Musculoskeletal Imaging"
2003	Gemeinsame Jahrestagung der österreichischen, Deutschen und Schweizerischen Gesellschaft für Biomedizinische Technik, Salzburg, Austria, Session Chair "Biomedical Imaging III"
2003	NIH/NIAMS Invited Meeting on "Bone Quality", Bethesda, USA, Introductory Lecturer
2004	6th International Symposium on Computer Methods in Biomechanics and Biomedical Engineering, Madrid, Spain, Member Advisory Panel and Plenary Lecturer
2004	16th International Bone Densitometry Workshop, Annecy, France, Member International Scientific Committee, Invited Speaker, Session Chair "Biomechanics"
2004	IUTAM Symposium on "Mechanics of Biological Tissue", Graz, Austria, Invited Lecturer and Session Chair "Soft Tissue Biomechanics"
2004	14th Congress of the European Society of Biomechanics, 's-Hertogenbosch, The Netherlands, Member International Scientific Committee, Keynote Lecturer and Session Chair "Bone Imaging"
2004	14th Conference of the European Orthopaedic Research Society (EORS), The Royal Tropical Institute, Amsterdam, The Netherlands, Member International Scientific Committee
2004	2004 Annual Meeting of the Swiss Society for Biomedical Engineering (SSBE), Zürich, Switzerland, Organizer and Chair
2005	NIH/NIAMS-ASBMR Scientific Meeting on "Bone Quality: What Is It and Can We Measure It?", The Hyatt Regency Bethesda, Bethesda, USA, Plenary Lecturer
2005	2nd Joint Meeting European Calcified Tissue Society (ECTS) and International Bone and Mineral Society (IBMS), Geneva, Switzerland, Plenary Lecturer
2005	2005 Annual Meeting of the Swiss Society for Biomedical Engineering (SSBE), Zürich, Switzerland, Plenary Lecturer
2005	27th Annual Meeting of the American Society of Bone and Mineral Research (ASBMR), Nashville, USA, Plenary Lecturer
2006	52nd Annual Meeting of the Orthopaedic Research Society (ORS), Chicago, USA, Program Reviewer, Session Moderator "Imaging"
2006	7th International Symposium on Computer Methods in Biomechanics and Biomedical Engineering, Antibes, France, Member Advisory Panel and Plenary Lecturer
2006	5th World Congress of Biomechanics, Munich, Germany, Member International Scientific Committee, Organizer and Chair "Imaging Thread", Organizer and Chair "Bone Tissue Mechanics", Speaker "Imaging in Tissue Engineering"
2006	Gemeinsame Jahrestagung der Deutschen, österreichischen und Schweizerischen Gesellschaft für Biomedizinische Technik, Zürich, Switzerland, Member Organizing Committee, Awards Chair
2006	Xth Congress of the International Society of Bone Morphometry (ISBM), Philadelphia, USA, Member International Scientific Committee, Plenary Lecturer
2006	17th International Bone Densitometry Workshop, Kyoto, Japan, Member International Scientific Committee, Plenary Lecturer and Session Chair "CT (animal)"
2007	53rd Annual Meeting of the Orthopaedic Research Society (ORS), San Diego, USA, Topic Chair "Imaging & Diagnostics", Session Moderator "Imaging"
2007	34th European Symposium on Calcified Tissues, European Calcified Tissue Society (ECTS), Copenhagen, Denmark, Training Course on Bone Quality, Invited Lecturer
2007	17th Scientific Meeting of the International Bone and Mineral Society (IBMS), Montreal, Canada, Symposium Chair "Bone Imaging", Plenary Lecturer
2007	29th Annual Meeting of the American Society of Bone and Mineral Research (ASBMR), Honolulu, USA, Member Scientific Program Committee, Co-Chair "Plenary Symposium I: Emerging Technologies in Functional Bone Imaging"

- 2008 SPIE International Symposium on Medical Imaging: Physiology, Function, and Structure from Medical Images, San Diego, USA, Member Program Committee
- 2008 54th Annual Meeting of the Orthopaedic Research Society (ORS), San Francisco, USA, Topic Chair "Imaging & Diagnostics", Session Moderator "Tissue Imaging"
- 2008 18th International Bone Densitometry Workshop, Pugnochiuso, Italy, Plenary Lecturer and Session Chair "Bone Structure and Function"
- 2008 TERMIS-EU 2008 Annual Meeting, Porto, Portugal, Member International Scientific Advisory Board, Symposium Chair "Advanced Imaging for Functional Tissue Engineering and Regenerative Medicine", Invited Symposium Speaker "Advances on Multidisciplinary Research for the Tissue Engineering of Bone and Cartilage"
- 2008 16th Meeting Congress of the European Society of Biomechanics, Lucerne, Switzerland, Member Scientific Advisory Board, Co-Chair "Hard Tissue", Session Chair "Trabecular Bone"
- 2008 30th Annual Meeting of the American Society of Bone and Mineral Research (ASBMR), Montréal, Canada, Member Scientific Program Committee, Category Chair "Bone Biomechanics and Quality"
- 2009 ESB 2009 Workshop "Movement Biomechanics and Sport", European Society of Biomechanics, Zürich, Switzerland, Organizer and Co-Chair
- 2009 3rd Switzerland-Japan Workshop on Biomechanics, Engelberg, Switzerland, Organizer and Chair
- 2009 22nd European Conference on Biomaterials, European Society of Biomaterials, Lausanne, Switzerland, Member National Scientific Committee, Invited Speaker, Session Chair "Biomechanics"
- 2009 ICCB 2009, IV International Congress on Computational Bioengineering, Bertinoro, Italy, Member International Scientific Committee, Session Chair "Musculoskeletal system - cell"
- 2010 37th European Symposium on Calcified Tissues, European Calcified Tissue Society (ECTS), Glasgow, UK, Member Scientific Programme Committee
- 2010 17th Congress of the European Society of Biomechanics, Edinburgh, UK, Member International Scientific Committee, Session Chair "Plenary Speaker 1"
- 2010 Biomechanics 2010, International Conference of the Polish Society of Biomechanics, Warsaw, Poland, Member Honour Committee
- 2010 6th World Congress of Biomechanics, Singapore, Member International Scientific Committee, Track Chair "Bone", Invited Speaker, Session Chair "Osteoporosis and Bone Strength II"
- 2011 XXIIIrd Congress of the International Society of Biomechanics, Brussels, Belgium, Member International Scientific Committee, Session Chair "ISB/ESB Keynote Speaker", Session Chair "Bone - Computational Mechanics", Session Chair "Bone - from Cells to Tissue"
- 2011 EMBEC 2011, 5th European Conference of the International Federation for Medical and Biological Engineering, Budapest, Hungary, Member International Advisory Committee
- 2011 3rd Joint Meeting European Calcified Tissue Society (ECTS) and International Bone and Mineral Society (IBMS), Athens, Greece, Programme Reviewer
- 2012 10th International Symposium on Computer Methods in Biomechanics and Biomedical Engineering, Berlin, Germany, Member Advisory Panel and Plenary Lecturer
- 2012 Osteologie 2012, Basel, Switzerland, Member Programme Committee, Session Chair "Bioimaging and Biomechanics", Invited Lecturer
- 2012 22nd Interdisciplinary Research Conference on Biomaterials, GRIBOI 2012, Uppsala, Sweden, Session Chair "Biomechanics", Invited Lecturer
- 2012 39th European Symposium on Calcified Tissues, European Calcified Tissue Society (ECTS), Stockholm, Sweden, Member Scientific Programme Committee
- 2012 First Annual Research Day, Department of Health Sciences and Technology, ETH Zürich, Zürich, Switzerland, Organizer and Chair, Head Scientific Programme Committee, Session Chair "Medical Engineering 1", Moderator Panel Discussion
- 2012 18th Congress of the European Society of Biomechanics (ESB), Lisbon, Portugal, Member Scientific Committee, Session Chair "Multiscale Modelling in Biomechanics I"
- 2012 3rd TERMIS World Congress, Vienna, Austria, Member International Advisory Committee, Co-Chair, Symposium on "Micro- and nano-tomographic imaging in tissue engineering and regenerative medicine", Keynote Lecturer
- 2012 6th European Congress on Computational Methods in Applied Sciences and Engineering (ECCOMAS 2012), Vienna, Austria, Co-Chair, Mini-Symposium on "Multiscale and multiphysics modelling in bone mechanobiology (3MBM)", Invited Lecturer
- 2012 18th International Biomedical Science & Technology Symposium (BIOMED 2012), Tokat, Turkey, Member International Advisory Board
- 2012 First Stepping Stone Symposium in Medical Technologies, Sino Swiss Science and Technology Cooperation (SSSTC) Initiative, Zürich, Switzerland, Co-Organizer and Co-Chair, Moderator Panel

- 2013 11th International Symposium on Computer Methods in Biomechanics and Biomedical Engineering, Salt Lake City, USA, Member Advisory Panel and Invited Speaker, Session Chair "Bone Mechanics II"
- 2013 40th European Symposium on Calcified Tissues, European Calcified Tissue Society (ECTS), Lisbon, Portugal, Scientific Advisor, Programme Reviewer
- 2013 TERMIS-EU 2013 Annual Meeting, Istanbul, Turkey, Member International Advisory Board
- 2013 Second Annual Research Day, Department of Health Sciences and Technology, ETH Zürich, Zürich, Switzerland, Organizer and Chair, Head Scientific Programme Committee, Moderator Panel Discussion
- 2013 19th Congress of the European Society of Biomechanics (ESB), Patras, Greece, Member Scientific Committee, Session Chair "Imaging"
- 2013 ICCB 2013, V International Congress on Computational Bioengineering, Leuven, Belgium, Member International Scientific Committee, Keynote Speaker
- 2013 Second Stepping Stone Symposium in Medical Technologies, Sino Swiss Science and Technology Cooperation (SSSTC) Initiative, Zhejiang, China, Co-Organizer
- 2013 ICBME 2013, 15th International Conference on Biomedical Engineering, Singapore, Member International Advisory Committee
- 2014 41st European Symposium on Calcified Tissues, European Calcified Tissue Society (ECTS), Prague, Czech Republic, Scientific Advisor
- 2014 TERMIS-EU 2014 Annual Meeting, Genoa, Italy, Member International Advisory Board, Plenary Speaker
- 2014 7th World Congress of Biomechanics, Boston, USA, Member International Scientific Committee, Invited Speaker, Symposium Chair "High resolution imaging in mechanobiology", Symposium Co-chair "Multiscale techniques in biomechanics and mechanobiology"
- 2014 4th Japan-Switzerland Workshop on Biomechanics (JSB2014), Shima, Japan, Member Advisory Board, Member Scientific Committee, Invited Speaker
- 2014 12th International Symposium on Computer Methods in Biomechanics and Biomedical Engineering, Amsterdam, The Netherlands, Member Technical Board
- 2015 4th Joint Meeting of European Calcified Tissue Society (ECTS) and the International Bone and Mineral Society (IBMS), Rotterdam, The Netherlands, Scientific Advisor
- 2015 21st Congress of the European Society of Biomechanics (ESB), Prague, Czech Republic, Perspective Talk, Session Chair "Tissue Engineering - Scaffold"
- 2015 13th International Symposium on Computer Methods in Biomechanics and Biomedical Engineering, Montreal, Canada, Member Technical Committee
- 2015 ICCB 2015, VI International Congress on Computational Bioengineering, Barcelona, Spain, Member International Scientific Committee
- 2015 MouseAGE Workshop on Modelling and Simulation in the Aging Mouse, Lisbon, Portugal, Co-Organizer, Invited Speaker
- 2016 43rd Annual European Calcified Tissue Society Congress (ECTS 2016), Rome, Italy, Scientific Advisor, Programme Reviewer, Invited Speaker
- 2016 TERMIS-EU 2016 Annual Meeting, Uppsala, Sweden, Member Scientific Advisory Board
- 2016 22nd Congress of the European Society of Biomechanics (ESB), Lyon, France, Member Scientific Committee, Session Chair "Imaging"
- 2016 10th Australasian Biomechanics Conference (ABC10), Melbourne, Australia, Session Co-Chair "Mechanobiology", Keynote Speaker
- 2017 44th Annual European Calcified Tissue Society Congress (ECTS 2017), Salzburg, Austria, Scientific Advisor, Programme Reviewer, Invited Speaker/Moderator "New Investigator Mentoring Session"
- 2017 21st International Bone Densitometry Workshop (IBDW) and the 7th European Symposium on Ultrasonic Characterization of Bone (ESUCB), Banz, Germany, Member Scientific Advisory Board
- 2017 European Medical and Biological Engineering Conference (EMBEC) and Nordic-Baltic Conference on Biomedical Engineering and Medical Physics (NBC), Tampere, Finland, Member Scientific Committee
- 2017 23rd Congress of the European Society of Biomechanics (ESB), Seville, Spain, Member Scientific Committee, Co-Chair "Cowin Tribute Session" & "Mechanobiology Session VI"
- 2017 ICCB 2017, VII International Congress on Computational Bioengineering, Compiègne, France, Member International Scientific Committee, Plenary Speaker
- 2017 5th Japan-Switzerland Workshop on Biomechanics (JSB2017), Zermatt, Switzerland, Member Advisory Board, Member Swiss National Scientific Committee, Invited Speaker
- 2018 45th Annual European Calcified Tissue Society Congress (ECTS 2018), Valencia, Spain, Scientific Advisor, Programme Reviewer, Invited Speaker, Workshop on Bone Bioengineering, Regeneration and Implants, Invited Speaker, UCB Lunch-Time Symposium

2018	1st International Conference on Materials, Mimicking, Manufacturing from and for Bio Application (BioM&M 2018), Milan, Italy, Member Scientific Committee, Plenary Speaker
2018	8th World Congress of Biomechanics, Dublin, Ireland, Keynote Speaker, Symposium Chair "Advanced Bioimaging"
2019	22nd International Workshop on Quantitative Musculoskeletal Imaging (QMSKI), Lake Louise, Canada, Member Scientific Advisory Board
2019	46th Annual European Calcified Tissue Society Congress (ECTS 2019), Budapest, Hungary, Member External Reviewers Panel
2019	TERMIS-EU 2018 Annual Meeting, Rhodes, Greece, Symposium Co-Chair "Musculoskeletal organoids for disease modelling and personalized therapies", Invited Speaker
2019	6th International Conference on Computational and Mathematical Biomedical Engineering (CMBE), Sendai City, Japan, Member International Advisory Committee
2019	25th Congress of the European Society of Biomechanics (ESB), Vienna, Austria, Member International Scientific Committee, Track Chair "Multi-scale Modelling in Biomechanics", Huiskes Medal Lecture
2019	XXVII Congress of the International Society of Biomechanics (ISB 2019), Calgary, Canada, Member International Advisory Board, Muybridge Award Lecture
2019	XIVth Congress of the International Society of Bone Morphometry (ISBM), Orlando, USA, Member International Scientific Committee, Session Organizer and Chair "Intra-Vital Imaging of Bone"
2020	47th Annual European Calcified Tissue Society Congress (ECTS 2020), Marseille, France, Member External Reviewers Panel, Chair ECTS/IFMRS Joint Session on Knowledge Portal
2021	48th Annual European Calcified Tissue Society Congress (ECTS 2021), Digital Congress, Member External Reviewers Panel, Chair ECTS/ISBM Joint Session on Frontiers in Bone Morphometry
2021	26th Congress of the European Society of Biomechanics (ESB), Milano, Italy, Member International Scientific Committee
2021	ASBMR 2021 Annual Meeting, American Society of Bone and Mineral Research (ASBMR), San Diego, USA, Member Program Advisory Committee, Invited Speaker
2022	ICCB 2022, IX International Congress on Computational Bioengineering, Lisbon, Portugal, Member International Scientific Committee, Chair Plenary Session
2022	49th Annual European Calcified Tissue Society Congress (ECTS 2022), Helsinki, Finland, Member External Reviewers Panel, Invited Speaker
2022	23rd International Workshop on Quantitative Musculoskeletal Imaging (QMSKI), Noordwijk, The Netherlands, Member Scientific Advisory Board
2022	27th Congress of the European Society of Biomechanics (ESB), Porto, Portugal, Session Co-chair "Mechanobiology Session II" & "Mechanobiology Session III"
2022	International Symposium on Biomechanics: Challenges of the Next Decade, Graz, Austria, Member International Scientific Committee, Keynote Speaker
2022	XVth Congress of the International Society of Bone Morphometry (ISBM), Odense, Denmark, Member International Scientific Committee, Member Program Organizing Committee, Session Organizer "Spatial Genomics", Invited Speaker
2022	ASBMR 2022 Annual Meeting, American Society of Bone and Mineral Research (ASBMR), San Diego, USA, Abstract Reviewer, Invited Speaker
2022	TERMIS-AP 2022, Jeju, Korea, Member International Advisory Board
2023	50th Annual European Calcified Tissue Society Congress (ECTS 2023), Liverpool, UK, Member External Reviewers Panel
2023	MaP Graduate Symposium 2023, MaP Doctoral School and Competence Center for Materials and Processes (MaP), ETH Zurich, Zurich, Switzerland, Session Chair
2023	28th Congress of the European Society of Biomechanics (ESB), Maastricht, The Netherlands, Member International Scientific Committee, Track Co-chair "Biomedical Imaging"
2023	50th International Musculoskeletal Biology Workshop, Orthopaedic Research Society (ORS), Zermatt, USA, Session Chair "Imaging Mechanobiology at Work", Invited Speaker
2023	6th Japan-Switzerland Workshop on Biomechanics (JSB2023), Hokkaido, Japan, Member Advisory Board, Member Swiss National Scientific Committee, Invited Speaker
2023	ICCB 2023, X International Congress on Computational Bioengineering, Vienna, Austria, Member International Scientific Committee, Plenary Speaker
2023	ASBMR 2023 Annual Meeting, American Society of Bone and Mineral Research (ASBMR), Vancouver, Canada, Invited Speaker
2024	ORS 2024 Annual Meeting, Orthopaedic Research Society (ORS), Long Beach, USA, Abstract Reviewer
2024	51st Annual European Calcified Tissue Society Congress (ECTS 2024), Marseille, France, Member External Reviewers Panel, Invited Speaker

2024	29th Congress of the European Society of Biomechanics (ESB), Edinburgh, UK, Member International Scientific Committee, Track Chair "Education"
2024	24th International Workshop on Quantitative Musculoskeletal Imaging (QMSKI), Barossa Valley, Australia, Member Scientific Advisory Committee
2025	52nd Annual European Calcified Tissue Society Congress (ECTS 2025), Innsbruck, Austria, Member External Reviewers Panel
2025	30th Congress of the European Society of Biomechanics (ESB), Zürich, Switzerland, Congress Co-Chair and Co-Organizer, Member International Scientific Committee, Track Chair "Skeletal adaptation"

External Examiner for Dissertations, Tenure, and Promotions:

Boston University, USA
 Charité, Berlin, Germany
 Cleveland Clinic, USA
 Columbia University, New York, USA
 Cornell University, Ithaca, USA
 Cranfield University, UK
 Eindhoven University of Technology, The Netherlands
 Hebrew University of Jerusalem, Israel
 Harvard University, Boston, USA

Granting and Funding Agencies:

Consultant	The Whitaker Foundation, USA
Reviewer	AO Research Commission, Switzerland
Reviewer	Veterans Affairs Cooperative Studies Evaluation Committee, USA
Reviewer	Deutsche Forschungsgemeinschaft, Germany
Evaluator	European Union, Sixth Framework Program
Member/Chair	Medical Review Commission, European Synchrotron Radiation Facility (ESRF), Chair 2005-2007
Reviewer	Swiss National Science Foundation, Switzerland
Reviewer	Research Grants Council, Hong Kong
Reviewer	Research Council, Katholieke Universiteit Leuven, Belgium
Reviewer	Bundesministeriums für Bildung und Forschung (BMBF), Germany
Reviewer	Science Foundation Ireland, Ireland
Reviewer	ERC Starting, Consolidator and Advanced Grants, European Research Council (ERC)

Reviewer	National Centre for the Replacement, Refinement and Reduction of Animals in Research (NC3Rs), UK
Assessor	Australian Research Council (ARC), Australia
Reviewer	MRC, Research Councils UK (RCUK), UK
Reviewer	Agence Nationale de la Recherche (ANR), France
Reviewer	Fund for Scientific Research (FNRS), Belgium
Reviewer	Swiss Data Science Center (SDSC), Switzerland
Reviewer	Collegium Helveticum, The Joint Institute for Advanced Studies (IAS), Switzerland
Reviewer	Austrian Science Fund (FWF), Austria
Reviewer	Snow Medical, Australia

Editorial Boards:

2021 -	Associate Editor	Frontiers in Bioengineering and Biotechnology - TERM
2015 -	Editorial Board	Biomechanics and Modeling in Mechanobiology
2015 -	Editorial Board	Digital Medicine
2020 -	Editorial Board	Biomaterials and Biosystems
since 1997	Ad Hoc Reviewer	Bone
since 1999	Ad Hoc Reviewer	Journal of Bone and Mineral Research
since 2009	Ad Hoc Reviewer	Biomechanics and Modeling in Mechanobiology
since 2015	Ad Hoc Reviewer	Science Translational Medicine
since 2018	Ad Hoc Reviewer	Nature
since 2019	Ad Hoc Reviewer	Nature Materials
since 2020	Ad Hoc Reviewer	Nature Communications
since 2020	Ad Hoc Reviewer	PNAS
since 2020	Ad Hoc Reviewer	Science Advances
since 2023	Ad Hoc Reviewer	Scientific Reports
Previous positions:		
2007 - 2009	Associate Editor	Biomedizinische Technik / Biomedical Engineering
2002 - 2015	Editorial Board	Computer Methods in Biomechanics and Biomedical Engineering
2004 - 2010	Editorial Board	Journal of Biomechanics
2005 - 2006	Editorial Board	Critical Reviews in Biomedical Engineering
2007 - 2009	Editorial Board	Engineering in Medicine & Biology Series
2007 - 2015	Editorial Board	Molecular & Cellular Biomechanics
2007 - 2016	Editorial Board	Bone
2007 - 2021	Editorial Board	Journal of Tissue Engineering and Regenerative Medicine
2008 - 2010	Faculty Member	Faculty of 1000 Medicine
2010 - 2016	Editorial Board	BoneKEy, Nature Publishing Group
2014 - 2023	Editorial Board	Journal of the Royal Society Interface
since 1998	Ad Hoc Reviewer	Computer Methods in Biomechanics and Biomedical Engineering
since 1999	Ad Hoc Reviewer	Annals of Biomedical Engineering
since 1999	Ad Hoc Reviewer	Journal of Biomechanical Engineering
since 1999	Ad Hoc Reviewer	Medical Physics
since 1999	Ad Hoc Reviewer	IEEE Transactions on Medical Imaging
since 1999	Ad Hoc Reviewer	Osteoporosis International
since 2000	Ad Hoc Reviewer	Electronics Letters
since 2000	Ad Hoc Reviewer	Calcified Tissue International
since 2002	Ad Hoc Reviewer	International Journal of Oral and Maxillofacial Surgery
since 2004	Ad Hoc Reviewer	Journal of Biomechanics
since 2005	Ad Hoc Reviewer	Biotechnology and Bioengineering
since 2005	Ad Hoc Reviewer	Medical Engineering & Physics
since 2005	Ad Hoc Reviewer	Journal of Biotechnology
since 2006	Ad Hoc Reviewer	Biomedizinische Technik / Biomedical Engineering
since 2006	Ad Hoc Reviewer	Nature Physics

Part II: Research and Teaching Contributions

A. Narrative Report

Dr. Müller is a Professor of Biomechanics at the Department of Health Sciences and Technology at ETH Zürich in Switzerland. He studied electrical engineering at ETH Zürich, where he also received his doctoral degree in 1994. Subsequently, he served as a project manager for the micro-computed tomography project of the EU Concerted Action BIOMED1 "Assessment of Bone Quality in Osteoporosis". At that time, Dr. Müller was involved in the development of a compact desktop micro-tomographic imaging system that since has been commercialized and is now marketed worldwide. In 1996, he moved to Boston where he served as a tenure-track Assistant Professor of Orthopedic Surgery at Harvard Medical School and the Associate Director of the Orthopedic Biomechanics Laboratory. Between 2000 and 2011, he was first an SNF Professor of Bioengineering at the Department of Information Technology and Electrical Engineering and then Associate and Full Professor of Biomechanics at the Department of Mechanical and Process Engineering at ETH Zürich. In 2012, he was one of the founding members of the Department of Health Sciences and Technology, which he headed from 2014 to 2016. The research he has completed and is currently pursuing employs state-of-the-art biomechanical testing and simulation techniques as well as novel bioimaging and visualization strategies for musculoskeletal tissues. Today, these techniques are successfully employed for the quantitative assessment and monitoring of structure function relationships in tissue regeneration, growth and adaptation. His approaches are now often used for precise phenotypic characterization of tissue response in mammalian genetics, mechanobiology as well as tissue engineering and regenerative medicine. Dr. Müller is a prolific author of more than 1,300 scientific articles and abstracts. His work has been cited over 49,000 times on Google Scholar with an h-index of 116. He has received numerous awards, including more recently the Mike Horton Award from the European Calcified Tissue Society (ECTS), the Hiskes Medal for Biomechanics from the European Society of Biomechanics (ESB) and the Muybridge Award from International Society of Biomechanics (ISB). He is an elected member of the Swiss Academy of Engineering Sciences (SATW) and a Fellow of the European Alliance for Medical and Biological Engineering and Science (EAMBES), the World Council of Biomechanics (WCB), and the American Society for Bone and Mineral Research (ASBMR). In 2017, the European Research Council (ERC) awarded him with a prestigious ERC Advanced Grant. He is also active as an organizer of international symposia and workshops as well as an editorial board member and reviewer for scientific journals and funding agencies. He is a former President of the European Society of Biomechanics (ESB) and the Swiss Society for Biomedical Engineering (SSBE) and currently serves as the Secretary on the International Federation of Musculoskeletal Research Societies (IFMRS) and on the Board of Directors of the International Society of Bone Morphometry (ISBM). He has held scientific and management positions on more than 80 research grants and currently receives funding from Swiss National Science Foundation, European Union, Australian Research Council, and various ETH intramural funds. Dr. Müller is a founder and co-organizer of the ETH graduate program in Biomedical Engineering. He is teaching courses on "Imaging and Computing in Medicine", "Orthopaedic Biomechanics" and "Multiscale Bone Biomechanics" at ETH Zürich. He co-founded three spin-off companies, Pearl Technology AG, developing and marketing novel patient positioning systems for medical imaging procedures using patented technology from ETH Zürich, b-cube AG, now a subsidiary of Scanco Medical, and most recently compagOs, a diagnostics biotechnology company engineering personalized cancer in bone organoids.

B. Funding Information

1990 - 1994	Swiss National Science Foundation (Grant No. 31-29971.90), Doctoral Fellow
1995	Merck Research Laboratories, "3D-pQCT measurements on forearm BMD, cortical thickness and trabecular structure in normal healthy volunteers and osteoporotic patients", Co-Investigator
1996 - 1997	Alberta Heritage Foundation Full-Time Fellowship (declined), "Microstructural bone in the progress of adaptive bone remodeling", Principal Investigator
1996	Swiss National Science Foundation, Advanced Researcher Award (Grant No. 823A-043040), "Biomechanical competence of microstructural bone in the progress of adaptive bone remodeling", Principal Investigator
1996 - 1998	Scanco Medical AG, Instrumentation Development Grant, Principal Investigator
1996 - 1998	Boehringer Mannheim, "The effect of preventative treatment with ibandronate on the mechanical, densitometric and architectural properties of metastatic bone", Co-Investigator
1997 - 1999	Roche Diagnostics, "A study to determine the effects of ibandronate on bone mass, strength and architecture after 16 months of treatment in the ovariectomized cynomolgus monkey", Co-Principal Investigator
1997	Biomedical Engineering Discovery Fund, Center for Engineering in Medicine, Harvard Medical School / Whitaker Foundation, "3-D micro-tomographic imaging for the nondestructive characterization of trabecular bone", Principal Investigator
1997	Genetics Institute, Bone Biology and Applications, "Ability of intraosseous injection of rhBMP-2 to restore and maintain tibial bone mass in ovariectomized osteopenic rats", Principal Investigator

- 1997 IGEA s.r.l., Biomedical Physics Laboratory, "Micro-tomographic imaging in the human proximal phalange", Principal Investigator
- 1998 - 2001 Forsyth Dental Center, Harvard School of Dental Medicine, "Micro-tomographic imaging in the analysis of infection-stimulated infraosseous bone resorption", Principal Investigator
- 1998 Advanced Tissue Sciences, "Reproducibility and accuracy of micro-tomography in porous biomaterials", Principal Investigator
- 1999 - 2001 Biomedical Engineering Research Grant, The Whitaker Foundation, "Image-guided assessment of bone failure", Principal Investigator
- 1999 State University of New York, Stony Brook, Center for Biotechnology, "Quantitative assessment of femoral bone architecture in a sheep vibration model using micro-tomographic imaging", Principal Investigator
- 1999 - 2000 Rhode Island Hospital and Brown University, "The effect of limb lengthening on the vasculature in rat femora as assessed by micro-computed imaging", Principal Investigator
- 1999 - 2002 Columbia University, New York, "The effect of in vivo mechanical loading and anabolic treatment on rat caudal vertebrae as assessed by micro-computed tomography", Principal Investigator
- 1999 - 2000 Georgia Institute of Technology, "Micro-tomographic imaging and quantitative bone morphometry of tibial bone and cartilage grafts in an in vivo rabbit model", Principal Investigator

C. Report of Current Research Activities

European Union/Marie Skłodowska-Curie Actions, Innovative Training Network: "Training network for research into bone fragility in diabetes in Europe - towards a personalised medicine approach" (Principal Investigator on Consortium Contract, Work Package Leader, Member Executive Board) Diabetes mellitus has emerged as a novel risk factor for fragility fractures. While in type 1 diabetes the 3-fold overall relative risk for fractures may mostly derive from low bone mineral density (BMD), in type 2 diabetes, the fracture risk is increased about 2-fold, despite a normal or even higher BMD. This suggests that bone fragility in each form of diabetes develops by distinct mechanisms that to date remain largely unknown and may require an individualized approach for effective treatment. As the diabetes epidemic is increasing worldwide with aging, and the fractures that are associated with diabetes cause an increase in morbidity, mortality, and healthcare costs, diabetes-induced osteoporosis imposes a significant burden on our society and our healthcare system. FIDELIO offers a comprehensive, multidisciplinary training program for Early Stage Researchers (ESRs) in this emerging field, unravelling i) the biological mechanisms that contribute to altered bone quality parameters with subsequent bone fragility in diabetes, ii) identify predictive markers for patient stratification and individualized interventions, and iii) develop novel imaging techniques to determine bone quality aspects. The research will employ well-defined patient cohorts, preclinical models of diabetic bone disease, in vitro studies, genetic databases, artificial intelligence, and cutting-edge imaging technologies in a highly collaborative and interdisciplinary environment.

European Union/Marie Skłodowska-Curie Actions, Individual Fellowship: "Bone healing mechanomics in a mouse model of accelerated aging" (Coordinator) Delayed bone healing or failed non-unions account for 5 – 10% of all bone fractures and present a challenging problem in regenerative medicine. Bone healing is a mechano-sensitive process; thus, mechanical stimuli can either enhance or impair fracture healing. The molecular mechanisms underlying this phenomenon are complex and poorly understood. Consequently, clinical applications which harness this mechano-sensitivity to enhance healing are limited. It has also contributed to a lack of consensus on whether bone exhibits age-associated declines in mechano-sensitivity. With this in mind, this project aims at the development of a multi-scale, multi-disciplinary approach to develop a molecular-based understanding of bone healing mechanobiology and to investigate how this mechano-sensitivity is compromised with age. Using an established femur defect model in young and aged mice, the proposed approach will apply state-of-the-art techniques to spatially map: (i) the local mechanical environment, (ii) the molecular profiles of single cells, and (iii) the local tissue nanostructure within the fracture callus. Identification of the molecular mechanisms of mechanically-driven bone formation will drive the development of safe, targeted and individualized mechanical intervention therapies. Furthermore, insights into age-associated declines in mechano-sensitivity will better equip surgeons to optimize outcomes in compromised healing environments.

ETH Domain, Strategic Focus Area - Advanced Manufacturing (SFA-AM): "ALIVE - Advanced Engineering with Living Materials" (Principal Investigator) The ALIVE Initiative aims at elucidating and applying the design principles of living systems as a basis for sustainable, intelligent, and resilient materials and technologies of the future. The approach encompasses the study of natural systems and the development of bio-hybrid or bio-mimetic synthetic systems bridging across scales, from the nano to the macro and structural scale. The primary foci are to develop a) hierarchical systems- where living aspects are integrated across length scales, and b) circular technologies- where the lifetimes of devices and their materials are synchronized. Shifting from a currently passive inanimate to a self-aware living environment requires a radical paradigm change. To impact society beyond the scientific forefronts, a collaborative team effort provides the breeding ground. The initiative brings together over 20 professorships from material science, engineering, biosystems science and possible impact areas such as architecture and health.

Swiss National Science Foundation/NRP 79: "Human organoid-on-chip: a novel experimental tool to replace animal models of rare bone disease" (Co-Investigator) In this project funded by the National Research Programme on "Advancing 3R – Research, Animals and Society", we propose to develop a human osteogenesis imperfecta OI-on-chip model by interfacing patient-derived bone organoids with microfluidic perfusion culture. By embedding patient-derived bone cells within a macroporous hydrogel, personalized bone organoids are formed through in vitro osteocytic differentiation under microfluidic stimulation. Our preliminary data has demonstrated the feasibility of on-chip generation of human bone organoids in a macroporous polyethylene glycol (PEG) hydrogel. The architecture and full biodegradability of this matrix allows cells to form a 3D network with ease and reconstructs an osteoid-like environment containing mineralized collagen. We hypothesize that microfluidic generation of patient-derived bone organoids in a synthetic environment offers a powerful tool to dissect the mechanisms of developmental dysregulation in OI in vitro for replacing animal models. This hypothesis will be tested in four specific aims that will: 1) establish OI

organoids comprising a 3D bone-cell-network from patient-derived osteoblasts in PEG hydrogels; 2) study the structural and physical changes in the extracellular matrix in OI organoids and age-matched controls by second-harmonic imaging and mechanical testing; 3) examine flow-induced mechanotransduction in OI and healthy organoids using Ca²⁺ imaging and biochemical assays; 4) validate this in vitro organoid-on-chip model through verification of cellular and transcriptional responses to the treatment with clinically relevant drugs.

Swiss National Science Foundation/Sinergia: "Sustained local ionic homeostatic imbalance to trigger ectopic bone formation and boost orthotopic bone formation" (Applicant) Being able to trigger bone formation in a spatially controlled manner in an ectopic (soft tissue) site is considered to be a prerequisite to heal large bone defects. This property called "osteinduction" can be achieved by various surgical and pharmaceutical means. Certain materials have been shown to induce bone formation within their pores after implantation in soft tissues, which is the demonstration of an osteoinductive potential. Unfortunately, this osteoinductive potency is limited and the underlying mechanism is still debated. As these materials were shown to mineralize prior to ossification, it was recently proposed that the local consumption of calcium and phosphate levels during calcification may provoke a local decrease of extracellular calcium concentration, and that this local decrease modulates inflammation following the bone graft substitutes (BGS) implantation to trigger an osteoinductive response. It was also proposed that this mechanism is involved in heterotopic ossification (HO), a very common and sometimes highly debilitating pathology characterized by the formation of mature bone in soft tissues. The first goal of the project is to demonstrate experimentally that a local decrease of the extracellular calcium concentration is critical to the formation of bone in soft tissues. The second goal is to exploit this knowledge to boost the bone forming ability of cell-free, drug-free calcium phosphate BGS. We want to achieve this by controlling the mineralization rate / the uptake of ions by BGS.

Australian Research Council/Discovery Projects: "Replicating the cartilage micromechanical environment" (Co-Investigator) Through a novel, image-guided mechanical evaluation of cell- and tissue-level remodelling, this project aims to unlock new insights into the complex mechanical microenvironment of cartilage and directly influence new strategies in tissue engineering. The research will reveal contributions of cells and extracellular matrix components to mechanical integrity over time. It will build a world-first strain map of the cartilage microenvironment and quantification of dynamic structural remodelling that occurs, providing key targets to improve tissue engineering strategies. The project will also drive innovation in micromechanical testing technology, deliver functional solutions in mechanobiology and advance materials for biological integration.

D. Report of Teaching

a. Lectures and Courses

1990 - 1995	Teaching Assistant, "Biomedical Engineering I&II" (35-388), Department of Electrical Engineering, ETH Zürich, Switzerland, 40 graduate students, 20 hours of teaching every year
1995 - 2011	Lecturer, "Computers in Medicine" (402-0962-00), Department of Physics, ETH Zürich, Switzerland, 20 post-graduate students, 80 hours of teaching every two years
1998 - 1999	Co-Moderator, "Imaging Seminar" (HST-590), Harvard/M.I.T. Division of Health Sciences and Technology (HST), Boston, 20 graduate students, 20 hours of teaching yearly
1998 - 2000	Speaker, "Tutorial in Medical Engineering and Medical Physics" (HST-595), Harvard/M.I.T. Division of Health Sciences and Technology (HST), Boston, 20 graduate students, 2 hours of teaching yearly
2000 - 2004	Lecturer, "Introduction to the Major in Biomedical Engineering" (151-0991-00), Department of Mechanical and Process Engineering, ETH Zürich, Switzerland, 30 undergraduate students, 10 hours of teaching yearly
2000 - 2006	Visiting Lecturer, "Special Topics in Biomedical Engineering: Orthopedic Biomechanics (219r)", Division of Engineering and Applied Sciences, Harvard University, Boston, USA, 10 graduate students, 4 hours yearly
2001 - 2008	Co-Organizer, "Current Research in Biomedical Engineering" (227-0970-00), Colloquium, Department of Information Technology and Electrical Engineering, ETH Zürich, Switzerland, 40 participants, 2 hours weekly
2001 - 2015	Supervisor, "Medical Physics" (402-0340-00), Thesis Program, Department of Physics, ETH Zürich, Switzerland
2001 - 2017	Lecturer, "Introduction to Biomedical Engineering I" (376-0021-00), Departments of Health Sciences and Technology, Mechanical and Process Engineering, and Information Technology and Electrical Engineering, ETH Zürich, Switzerland, 250 undergraduate students, 20 hours of teaching yearly
2005 - 2006	Lecturer, "Quantitative Methods in Biomedicine" (151-0978-00), Department of Mechanical and Process Engineering, ETH Zürich, Switzerland, 15 undergraduate students, 20 hours of teaching yearly
2006 - 2010	Lecturer, "Biomedical Engineering B" (227-0386-00), Department of Information Technology and Electrical Engineering, ETH Zürich, Switzerland, 50 graduate students, 3 hours of teaching yearly

- 2007 - 2008 Lecturer, "Micro and Nano-Tomography of Biological Tissues" (227-0965-00), Department of Information Technology and Electrical Engineering, ETH Zürich, Switzerland, 15 students, 20 hours of teaching yearly
- 2007 - 2017 Lecturer, "Introduction to Biomedical Engineering II" (376-0022-00), Departments of Health Sciences and Technology, Mechanical and Process Engineering, and Information Technology and Electrical Engineering, ETH Zürich, Switzerland, 200 undergraduate students, 20 hours of teaching yearly
- 2010 - 2018 Lecturer, "Zurich Summer School on Biomedical Imaging" (227-0396-00), Departments of Biology, Physics, and Information Technology and Electrical Engineering, ETH Zürich and University of Zürich, Switzerland, 50 graduate students, 1 hour of teaching yearly
- 2011 Lecturer, "Introduction to Health Sciences and Technology I" (376-0003-00), Department of Health Sciences and Technology, ETH Zürich, Switzerland, 160 undergraduate students, 4 hours of teaching
- 2016 Visiting Lecturer, "Orthopedic Biomechanics" (MECENG C176), Department of Mechanical Engineering, UC Berkeley, USA, 75 undergraduate and graduate students, 2 hours
- 2016 Visiting Lecturer, "Biomechanics: Analysis and Design" (BIOENG 102), Department of Bioengineering, UC Berkeley, USA, 70 undergraduate and graduate students, 2 hours
- 2001 - Lecturer, "Orthopaedic Biomechanics" (376-1397-00), Departments of Health Sciences and Technology, Mechanical and Process Engineering, and Information Technology and Electrical Engineering, ETH Zürich, Switzerland, 50 graduate students, 20 hours of teaching yearly
- 2012 - Co-Organizer, "Colloquium in Biomechanics" (376-1974-00), Departments of Health Sciences and Technology, Mechanical and Process Engineering, and Information Technology and Electrical Engineering, ETH Zürich, Switzerland, 80 participants, 2 hours weekly
- 2013 - Lecturer, Advanced School "Bone Cell and Tissue Mechanics", CISM, International Centre for Mechanical Sciences, Udine, Italy, 30 graduate students and postdocs, 10 hours of teaching in one week every two years
- 2017 - Lecturer, "Multiscale Bone Biomechanics" (376-0021-00), Departments of Health Sciences and Technology, Mechanical and Process Engineering, and Information Technology and Electrical Engineering, ETH Zürich, Switzerland, 25 graduate students, 50 hours of teaching yearly
- 2018 - Lecturer, "Imaging and Computing in Medicine" (376-0021-00), Departments of Health Sciences and Technology, Mechanical and Process Engineering, and Information Technology and Electrical Engineering, ETH Zürich, Switzerland, 200 undergraduate students, 20 hours of teaching yearly

b. Advisory and Supervisory Responsibility

Lecturers

- 2004 - 2007 Harry van Lenthe, Ph.D., "Orthopaedic Bioengineering"
- 2005 - 2008 Alfredo Franco-Obregón, Ph.D., "Molecular and Cell Biology for Engineers"
- 2005 - 2014 Jörg Goldhahn, M.D., "Bone Biology and Consequences for Human Health"
- 2007 - 2010 Martin Stauber, Ph.D., "Computers in Medicine"
- 2007 - 2008 Marco Stampanoni, Ph.D., "Micro- and Nano-Tomography of Biological Tissues"
- 2008 - 2013 Philipp Schneider, Ph.D., "Micro- and Nano-Tomography of Biological Tissues"
- 2008 - 2016 Kathryn S. Stok, Ph.D., "Orthopaedic Biomechanics"
- 2009 - 2013 Davide Ruffoni, Ph.D., "Biomechanics I"
- 2009 - Gisela Kuhn, V.M.D., "Bone Biology and Consequences for Human Health"
- 2011 - 2016 Sandra Hofmann, Ph.D., "Bionics and Medical Implants"
- 2015 - 2020 Patrik Christen, Ph.D., "Introduction to Biomedical Engineering", "Orthopaedic Biomechanics"
- 2017 - 2020 Marina Rubert, Ph.D., "Development Strategies for Medical Implants"
- 2019 - 2020 Duncan Toulle, Ph.D., "Multiscale Bone Biomechanics"
- 2019 - 2023 Esther Wehrle, V.M.D., Ph.D., "Bone Biology and Consequences for Human Health"
- 2020 - 2023 Xiao-Hua Qin, Ph.D., "Multiscale Bone Biomechanics"
- 2020 - 2022 Caitlyn Collins, Ph.D., "Imaging and Computing in Medicine"
- 2021 - Neashan Mathavan, Ph.D., "Development Strategies for Medical Implants"

Fellows

- 1997 - 1998 David C. Carrington, M.D., "3D micro-CT of infection-stimulated infraosseous bone resorption"
- 1999 - 2000 Toru Uchiyama, M.D., Ph.D., "Quantitative endpoints in murine models of bone architecture"
- 2000 - 2002 Dietrich von Stechow, M.D., "Anabolic and catabolic bone action in murine model of osteoporosis"
- 2001 - 2002 Steven K. Boyd, Ph.D., "Image-guided assessment of micro-structural failure mechanisms"
- 2002 - 2004 G. Harry van Lenthe, Ph.D., "Designed scaffold architecture affects bone regeneration"
- 2003 - 2007 Marco Stampanoni, Ph.D., "Micro- and nano-tomography at the Swiss Light Source"
- 2004 - 2006 Jess Snedeker, Ph.D., "Adult mesenchymal stem cell engineering for tendon repair"
- 2005 - 2006 Martin Stauber, Ph.D., "Computational modeling of nanoscale imaging"

2007 - 2008 Philipp Schneider, Ph.D., "Genetic control of bone structure function"
 2007 - 2010 Thomas Kohler, Ph.D., "Characterization and quality control for bone scaffold engineering"
 2007 - 2009 Gisela Kuhn, V.M.D., "Vascular imaging in animal models of human disease"
 2007 - 2010 Sandra Hofmann, Ph.D., "Bone tissue engineering using porous scaffolds"
 2008 - 2009 Davide Ruffoni, Ph.D., "Computational mechanics of bone-implant failure"
 2008 - 2013 Duncan J. Webster, Ph.D., "Tissue and cell level modeling in osteoporosis"
 2009 - 2010 Ming K. Chang, Ph.D., "Roles of macrophages in load-induced bone adaptation"
 2010 - 2012 Thomas L. Mueller, Ph.D., "Visualization and simulation of implant failure in osteoporotic bone"
 2011 - 2013 Friederike Schulte, Ph.D., "Monitoring dynamic morphometry in fracture healing in vivo"
 2014 - 2016 Carly Taylor, Ph.D., "3D protein expression of osteocytes in aged mice"
 2014 - 2016 Marina Rubert, Ph.D., "3D tissue-engineered model of bone adaptation and regeneration"
 2014 - 2016 Patrik Christen, Ph.D., "In vivo mechanoregulation of fracture healing in human bone"
 2014 - 2019 Esther Wehrle, V.M.D., Ph.D., "Mechanomolecular regulation of in vivo fracture healing"
 2015 - 2016 Zihui Li, Ph.D., "Effects of loading, disease and treatment on osteocyte number and shape"
 2016 - 2017 Jing Zhou, Ph.D., "Evaluation of hydrogels for osteocyte lacuna-canalicular network formation"
 2017 - 2018 Angad Malhotra, Ph.D., "Enhanced bone revascularization"
 2018 - 2020 Penny Atkins, Ph.D., "Shape-based trabecular morphometrics in localized fracture healing"
 2018 - 2019 Xiao-Hua Qin, Ph.D., "Biomimetic 3D laser microprinting of functional bone models"
 2018 - 2019 Dana Akilbekova, Ph.D., "3D bioprinting of human organotypic bone fracture model"
 2018 - 2020 Caitlyn Collins, Ph.D., "In silico model of in vivo human bone fracture healing"
 2019 - 2020 Kensuke Kataoka, Ph.D., "In vivo single-cell bone mechanomics in the aging mouse"
 2020 - 2021 Neashan Mathavan, Ph.D., "Spatial genomics of musculoskeletal regeneration in aging"
 2021 - 2023 Danielle Whittier, Ph.D., "Disease-specific computational modeling in type 1 diabetes"
 2021 - 2023 Yogesh D. Bansod, Ph.D., "Agent-based modeling of bone adaptation and regeneration"
 2021 - Gian Nutal Schädli, Ph.D., "Personalized bone organoid diagnostic framework in rare bone diseases"
 2021 - Chris Steffi, Ph.D., "Volumetric bioprinting of a 3D heterocellular human bone organoid"
 2022 - Amit Singh, Ph.D., "Spatial mechanomics of bone adaptation and regeneration"
 2022 - Friederike Schulte, Ph.D., "Bone mechanoregulation in health, disease and treatment"
 2023 - Stefanie Wissmann, Ph.D., "Multiphoton intravital imaging of heterotopic ossification"

Research Staff/Intern Trainees

2003 - 2004 Rhiannon Evison, B.S., The University of Calgary, Engineering Internship Program, 12 month trainee
 2004 - 2005 Josh Klinck, B.S., The University of Calgary, Engineering Internship Program, 12 month trainee
 2005 - 2006 Jacqueline Lim, B.S., The University of Calgary, Engineering Internship Program, 12 month trainee
 2005 - 2006 Philip Morley, B.S., The University of Vancouver, IAESTE Student Exchange Program, 12 month trainee
 2006 - 2007 Sean Gifford, B.S., The University of Calgary, Engineering Internship Program, 12 month trainee
 2007 - 2008 Kristen Jorgenson, B.S., The University of Calgary, Engineering Internship Program, 12 month trainee
 2008 - 2009 Maureen Saunders, B.S., The University of Calgary, Engineering Internship Program, 12 month trainee
 2008 - 2010 Alina Levchuk, B.S., The City College of New York, Whitaker International Fellowship, 18 month trainee
 2009 - 2010 Kathleen Koch, B.S., Yale University, Whitaker International Fellowship, 12 month trainee
 2009 - 2010 Olivia Norton, B.S., The University of Calgary, Engineering Internship Program, 12 month trainee
 2009 - 2010 Rachel Sondergaard, B.S., The University of Calgary, Engineering Internship Program, 12 month trainee
 2009 - 2010 Izoldi Maria Kammenou, M.S., National Technical University of Athens, Research Assistant
 2009 - 2012 Ilaria Chiapparini, M.S., Politecnico di Milano, Research Assistant
 2010 - 2011 Colin Firminger, B.S., The University of Calgary, Engineering Internship Program, 12 month trainee
 2011 - 2012 Thomas Steiner, M.S., The University of Bern, Research Assistant
 2011 - 2012 Ryan Choo, B.S., The University of Calgary, Engineering Internship Program, 12 month trainee
 2011 - 2012 Marie Godla, B.S., Harvey Mudd College, Whitaker International Fellowship, 12 month trainee
 2011 - 2011 Stephanie Ting, M.S., University of Tokyo, Doctoral Exchange Program, 3 month trainee
 2011 - 2012 Sophie Borleffs, B.S., Delft University of Technology, University Traineeship Program, 4 month trainee
 2011 - 2012 Pauline Roels, B.S., Delft University of Technology, University Traineeship Program, 4 month trainee
 2011 - 2014 Marcella von Salis-Soglio, Dr. med. vet., University of Zürich, Staff Research Assistant
 2012 - 2013 Ana Villarreal, B.S., The University of Calgary, Engineering Internship Program, 12 month trainee
 2012 - 2013 Samantha Paulsen, B.S., University of Wisconsin, Madison, Whitaker International Fellowship, 12 month trainee
 2012 - 2013 Robin Wilson, B.S., Case Western Reserve University, Whitaker International Fellowship, 12 month trainee
 2013 - 2014 Duncan Pawson, B.S., The University of Calgary, Engineering Internship Program, 12 month trainee
 2013 - 2014 Scott Stanger, B.S., The University of Calgary, Engineering Internship Program, 12 month trainee
 2013 - 2014 Steve Ho, Ph.D. student, University of California, Davis, B.S., University of Michigan, Ann Arbor, Whitaker International Fellowship, 11 month trainee

2013 - 2014 Maria Skoura, M.S., Aristotle University of Thessaloniki, Student Internship, 4 month trainee
 2013 - 2014 Rowen Softley, B.S., The University of Surrey, Student Internship, 4 month trainee
 2013 - 2014 Bryce Besler, B.S., The University of Calgary, Engineering Internship Program, 12 month trainee
 2014 - 2014 Ramin Oftadeh, Ph.D. student, Northeastern University, Whitaker International Fellowship, 2 month trainee
 2014 - 2015 Elliott Goff, B.S., University of Missouri-Kansas City, Whitaker International Fellowship, 18 month trainee
 2014 - 2016 Iina Lehtoviita, M.S., Tampere University of Technology, Staff Research Assistant
 2014 - 2015 Lukas Storz, B.S., ETH Zürich, Student Internship, 8 month trainee
 2015 - 2016 Erica Floreani, B.S., The University of Calgary, Engineering Internship Program, 12 month trainee
 2015 - 2016 Mariya Shtil, B.S., The University of Calgary, Engineering Internship Program, 12 month trainee
 2016 - 2018 Jolanda Baumgartner, Ph.D., M.S., ETH Zürich, Staff Research Associate
 2016 - 2017 Ryan Plett, B.S., The University of Calgary, Engineering Internship Program, 12 month trainee
 2016 - 2017 Felix Cranz, B.S., Delft University of Technology, University Traineeship Program, 6 month trainee
 2016 - 2017 Aksel Gudde, B.S., Delft University of Technology, University Traineeship Program, 6 month trainee
 2016 - 2017 Vittoria Storni, M.S., ETH Zürich, Staff Research Assistant
 2017 - 2018 Gianna Marano, M.S., ETH Zürich, Staff Research Assistant
 2017 - 2018 Stephanie Sebastian, B.S., The University of Calgary, Engineering Internship Program, 12 month trainee
 2018 - 2019 Carmen Eskesen, B.S., The University of Calgary, Engineering Internship Program, 12 month trainee
 2018 - 2019 Christopher O'Neil, B.S., The University of Calgary, Engineering Internship Program, 12 month trainee
 2018 Suzanne Wermink, B.S., Delft University of Technology, University Traineeship Program, 3 month trainee
 2018 Freek van der Heijden, B.S., Eindhoven University of Technology, University Traineeship Program, 3 month trainee
 2019 Charlotte Roth, B.S. Biosciences, ETH Zürich, Staff Research Assistant
 2019 - 2020 Bryant Schroeder, B.S., The University of Calgary, Engineering Internship Program, 12 month trainee
 2019 Arthur van Kootwijk, B.S., Delft University of Technology, University Traineeship Program, 4 month trainee
 2020 Sebastien Callens, Ph.D. student, Delft University of Technology, IDEA League Fellowship, 3 month trainee
 2020 - 2021 Hui Liu, M.S. Biomedical Engineering, Guangxi Medical University, Staff Research Assistant
 2021 Frederik Trommer, M.S., The University of Sheffield, INSIGNEO Travel Award, 4 month trainee
 2021 Sebastian Zanner, Ph.D. student, University of Southern Denmark, ITN Secondment, 3 month trainee
 2021 - 2022 Cael McLennan, B.S., The University of Calgary, Engineering Internship Program, 12 month trainee
 2022 Abhay Khosla, B.S., The University of Calgary, Engineering Internship Program, 8 month trainee
 2022 Lejla Emini, Ph.D. student, Dresden University of Technology, ITN Secondment, 2 month trainee
 2022 Gülşade Cakmak, B.S., Istanbul Medipol University, Amgen Scholarship Program, 2 month trainee
 2022 Christopher Li, B.S., Imperial College London, Amgen Scholarship Program, 2 month trainee
 2023 - 2024 Yna Arpon, B.S., The University of Calgary, Engineering Internship Program, 12 month trainee
 2023 Jacobo Romero-Diaz, B.S., Universitat de Barcelona, Amgen Scholarship Program, 2 month trainee
 2024 Nuria Balbás, B.S. Universidad Francisco de Vitoria Madrid, Amgen Scholarship Program, 2 month trainee

Doctorate Theses (Examiner)

1. Martin Stauber, Dr. sc., 2005, ETH Zürich, "Volumetric spatial decomposition of porous microstructures - a framework for element based analysis of trabecular bone", Examiner (Referent)
2. Thomas Kohler, Dr. sc., 2007, ETH Zürich, "A service-oriented platform for visualization and high-throughput structural characterization in bone phenomics", Examiner (Referent)
3. Stefan Heinzer, Dr. sc., 2007, ETH Zürich, "Hierarchical 3D imaging and quantification of brain microvasculature in a mouse model for Alzheimer's disease", Examiner (Referent)
4. Kathryn Stok, Dr. sc., 2007, ETH Zürich, "Biological quantification of murine osteoarticular joints following treatment using stem cell-based gene therapy", Examiner (Referent)
5. Philipp Schneider, Dr. sc., 2007, ETH Zürich, "Ultrastructural phenotyping of murine bone using synchrotron micro- and nano-computed tomography", Examiner (Referent)
6. Romain Voide, Dr. sc., 2007, ETH Zürich, "Functional phenotyping of bone: a hierarchical assessment of bone failure characteristics", Examiner (Referent)
7. Ara Nazarian, Dr. sc., 2008, ETH Zürich, "Relative interaction of material and structure in normal and pathologic bone", Examiner (Referent)
8. Duncan Webster, Dr. sc., 2008, ETH Zürich, "A combined experimental and computational model for genetic control of micro structural bone adaptation", Examiner (Referent)

9. Henri Hagenmüller, Dr. sc., 2008, ETH Zürich, "Combining micro-computed tomography monitoring and mechanical loading in bone tissue engineering", Examiner (Referent)
10. Tom L. Mueller, Dr. sc., 2009, ETH Zürich, "Bioimaging and biomechanics of bone competence and implant stability", Examiner (Referent)
11. Elad Wasserman, Dr. sc., 2010, ETH Zürich, "Differentially load-regulated gene expression in mouse trabecular osteocytes", Examiner (Referent)
12. Benjamin Thimm, Dr. sc., 2010, ETH Zürich, "The importance of multi-modality imaging for the assessment of combined bone and vascular tissue engineering", Examiner (Referent)
13. Andreas Wirth, Dr. sc., 2011, ETH Zürich, "Assessment of implant stability in low quality bone by micro-structural finite element analysis", Examiner (Referent)
14. Friederike Schulte, Dr. sc., 2011, ETH Zürich, "In silico bone biology in a murine model of bone adaptation", Examiner (Referent)
15. Floor Lambers, Dr. sc., 2011, ETH Zürich, "Functional bone imaging in an in vivo mouse model of bone adaptation, aging and disease", Examiner (Referent)
16. Josep Solà i Carós, Dr. sc., 2011, ETH Zürich, "Continuous non-invasive blood pressure estimation", Examiner (Referent)
17. Umberto Emanuele, Dr. sc., 2012, ETH Zürich, "A comprehensive mechano-physiological cycling model", Examiner (Referent)
18. Samuel Basler, Dr. sc., 2012, ETH Zürich, "Towards a biomechanical understanding of implant stability using functional bioimaging and computational modeling", Examiner (Referent)
19. David Christen, Dr. sc., 2012, ETH Zürich, "Nonlinear failure prediction in human bone - a clinical approach based on high resolution imaging", Examiner (Referent)
20. Laura Nebuloni, Dr. sc., 2013, ETH Zürich, "Monitoring of angiogenesis in applications of tissue engineering through time-lapsed imaging of the microvascular network", Examiner (Referent)
21. André Butscher, Dr. sc., 2013, ETH Zürich, "Powder based three-dimensional printing of calcium phosphate structures for scaffold engineering", Examiner (Referent)
22. Silke Wüst, Dr. sc., 2013, ETH Zürich, "3D bioprinting of multicellular skeletal tissues", Examiner (Referent)
23. Tatiana Benavides Damm, Dr. sc., 2014, ETH Zürich, "Ground-based study of gravitational forces acting on muscle cells", Examiner (Referent)
24. Roberto Carretta, Dr. sc., 2014, ETH Zürich, "Post-yield mechanics of single trabeculae - a combined experimental and computational approach", Examiner (Referent)
25. Luc Nimeskern, Dr. sc., 2014, ETH Zürich, "Functional characterization of auricular cartilage in tissue engineering and regenerative medicine", Examiner (Referent)
26. Andreas Trüssel, Dr. sc., 2015, ETH Zürich, "Spatial mapping and high throughput microfluidic gene expression analysis of osteocytes in mechanically controlled bone remodeling", Examiner (Referent)
27. Alexander Zwahlen, Dr. sc., 2015, ETH Zürich, "Combined experimental and computational multiscale failure assessment in human trabecular bone", Examiner (Referent)
28. Alina Levchuk, Dr. sc., 2015, ETH Zürich, "In silico investigation of bone adaptation in health and disease", Examiner (Referent)
29. Sandro Badilatti, Dr. sc., 2015, ETH Zürich, "Large-scale simulations of load-adaptive bone remodeling in human vertebrae from native osteoporotic to augmented bone", Examiner (Referent)
30. Jolanda Vetsch, Dr. sc., 2015, ETH Zürich, "Perfusion bioreactors for bone tissue engineering - a combined experimental and computational approach", Examiner (Referent)
31. Marios Georgiadis, Dr. sc., 2015, ETH Zürich, "Imaging framework to assess bone ultrastructure organization", Examiner (Referent)
32. Zihui Li, Dr. sc., 2015, ETH Zürich, "Time-lapsed in vivo bone response to implantation in a mouse model of disease and treatment", Examiner (Referent)
33. Michele Casanova, Dr. sc., 2016, ETH Zürich, "Quantitative phenotyping of bone fracture repair", Examiner (Referent)
34. Duncan Betts, Dr. sc., 2019, ETH Zürich, "A micro-scale multi-physics framework for fracture healing and bone remodelling", Examiner (Referent)
35. Ariane Scheuren, Dr. sc., 2020, ETH Zürich, "Longitudinal assessment of frailty and osteosarcopenia in an in vivo model of premature aging", Examiner (Referent)
36. Jianhua Zhan, Dr. sc., 2020, ETH Zürich, "3D bioprinting of functional human bone tissues", Examiner (Referent)
37. Felicitas Flohr, Dr. sc., 2020, ETH Zürich, "A biomimetic 3D in vitro osteocyte model using micro 3D printed lacuno-canalicular networks (μ LCNs)", Examiner (Referent)
38. Graeme Paul, Dr. sc., 2020, ETH Zürich, "Individualised multiscale mechanoregulation of fracture healing in mice", Examiner (Referent)
39. Nicholas Ohs, Dr. sc., 2020, ETH Zürich, "A computational framework for the longitudinal assessment of mechanoregulation of fracture healing", Examiner (Referent)
40. Gian Schädli, Dr. sc., 2021, ETH Zürich, "A framework for time-lapsed micro-CT imaging of nanocomposite scaffolds in dynamic compression bioreactors", Examiner (Referent)

41. Elliott Goff, Dr. sc., 2022, ETH Zürich, "Osteocyte lacunar biomarkers in human rare bone diseases", Examiner (Referent)
42. Daniele Boaretti, Dr. sc., 2023, ETH Zürich, "A micro-multiphysics in silico model for single-cell mechanomics of bone in the aging mouse, Examiner (Referent)
43. Matthias Walle, Dr. sc., 2023, ETH Zürich, "Mechanoregulation of bone remodelling in diabetes mellitus using HR-pQCT patient data in vivo", Examiner (Referent)
44. Dilara Yilmaz, Dr. sc., 2024, ETH Zürich, "Unraveling the mechano-molecular mechanism of aging: insights from CRISPR/Cas9 cell reporter & prematurely aging PolgA mice on bone mechanoregulation", Examiner (Referent)
45. Julia Griesbach, Dr. sc., 2024, ETH Zürich, "Mechanobiology and mineralization dynamics in bone health and disease: insights from computational modeling, organotypic models, and in vivo studies", Examiner (Referent)
46. Anke de Leeuw, Dr. sc., 2024, ETH Zürich, "3D organotypic bone models for personalized treatment of osteogenesis imperfecta", Examiner (Referent)
47. Christian Gehre, Dr. sc., 2025, ETH Zürich, "Fabrication of 3D bone cell networks in hydrogels via two-photon microchannel patterning", Examiner (Referent)
48. Francisco Correia Marques, Dr. sc., 2025, ETH Zürich, "A computational pipeline to investigate spatial mechanomics during in vivo bone adaptation and regeneration", Examiner (Referent)
49. Wanwan Qiu, Dr. sc., 2025, ETH Zürich, "Advanced phototunable hydrogels for high-speed biofabrication in bone tissue engineering", Examiner (Referent)
50. Charles Ledoux, Dr. sc., 2025, ETH Zürich, "A personalized micro-multiphysics agent-based model to predict bone treatment effects in high fracture risk patients", Examiner (Referent)
51. Jack Kendall, Dr. sc., 2025, ETH Zürich, "In silico micro-multiphysics agent-based modelling of bone regeneration and mechanotherapy in the prematurely ageing mouse", Examiner (Referent)
52. Doris Zauchner, Dr. sc., 2025, ETH Zürich, "Osteogenesis-imperfecta-on-a-chip: an experimental tool to study matrix defects in brittle bone disease", Examiner (Referent)
53. Margherita Bernero, Dr. sc., 2026, ETH Zürich, "Engineering viscoelastic hydrogels for dynamic bone tissue culture towards an actuated joint-on-chip model", Examiner (Referent)
54. Marion Horrer, Dr. sc., 2026, ETH Zürich, "Molecular and cellular responses to mechanical and molecular interventions in healthy and osteogenesis imperfecta bone-on-a-chip models", Examiner (Referent)
55. Farida Elharouni, Dr. sc., 2027, ETH Zürich, "Engineering calcium phosphate scaffolds to induce an osteoinductive response through sustained local ionic homeostatic imbalance", Examiner (Referent)
56. Nico Giger, Dr. sc., 2027, ETH Zürich, "Multi-omics characterization of calcium phosphate scaffold-induced immunomodulation through sustained local ionic homeostatic imbalance", Examiner (Referent)
57. Sara Lindenmann, Dr. sc., 2027, ETH Zürich, "A multimodal correlative imaging approach to assess material-induced osteoinduction through sustained local ionic homeostatic imbalance", Examiner (Referent)

Doctorate Theses (Co-examiner, External Examiner)

1. Dieter Ulrich, Dr. sc. techn., 1999, ETH Zürich, "Evaluation of the mechanical properties of bone with consideration of its microarchitecture", Co-examiner (Korreferent)
2. Steven K. Boyd, Ph.D., 2001, The University of Calgary, "Bone microstructure in knee OA", External Examiner
3. Christian Stöcklin, Dr. sc. techn., 2001, ETH Zürich, "Morphometric characterization of biological structures", Co-examiner (Korreferent)
4. Philipp Thurner, Dr. sc. nat., 2004, ETH Zürich, "Novel staining techniques for imaging of cellular and extra-cellular matter using synchrotron radiation based micro-tomography", Thesis Advisor, Co-examiner (Korreferent)
5. George Raeber, Dr. sc. nat., 2004, ETH Zürich, "Cell migration in molecular engineered synthetic PEG hydrogels", Co-examiner (Korreferent)
6. Iordanis Chatziprodromou, Dr. sc. techn., 2005, ETH Zürich, "CFD for a biomechanical model of cerebral aneurysms", Co-examiner (Korreferent)
7. Eelco Verhulp, dr.ir., 2006, Eindhoven University of Technology, "Analysis of trabecular bone failure", External Examiner
8. Beat Schäffer, Dr. sc., 2007, ETH Zürich, "Compaction of restored soil by heavy agricultural machinery", Co-examiner (Korreferent)
9. Yankel Gabet, D.M.D, Ph.D., 2008, Hebrew University of Jerusalem, "Enhancement of early osseointegration of orthopaedic and dental titanium implants", External Examiner
10. Lutz-Christian Gerhardt, Dr. sc., 2008, ETH Zürich, "Tribology of human skin in contact with textiles for decubitus prevention", Co-examiner (Korreferent)
11. Fabian Anderegg, Dr. sc., 2011, ETH Zürich, "Osteoclasts cultured on micro-patterned surfaces: dynamics and architecture of the adhesion-cytoskeleton complex", Co-examiner (Korreferent)

12. Elbert Baas, Ph.D., 2011, Keele University, "In vitro bone regeneration and micro-mechanical strain in scaffolds", External Examiner
13. Giuseppe Barbarino, Dr. sc., 2011, ETH Zürich, "Modeling the mechanical behavior of the face", Co-examiner (Korreferent)
14. Samuela Rigozzi, Dr. sc., 2011, ETH Zürich, "Structure and function in tendon: experimental studies on the ultrastructural determinants of tendon biomechanical function", Co-examiner (Korreferent)
15. Alireza Roshan-Ghias, Ph.D., 2011, EPFL, "Biomechanical aspects of osteogenesis in load-bearing tissue engineering scaffolds: in vivo experiment, mathematical model and clinical considerations", External Examiner
16. Cyril Flaig, Dr. sc., 2012, ETH Zürich, "A highly scalable memory efficient multigrid solver for μ -finite element analyses", Co-examiner (Korreferent)
17. Patrik Christen, dr. ir., 2013, Eindhoven University of Technology, "Deciphering the secret message within bone microstructure", External Examiner
18. Kevin S. Mader, Dr. sc., 2013, ETH Zürich, "High-throughput, synchrotron based tomographic microscopy tools for the quantitative characterization of complex structures: a bone and foam study", Co-examiner (Korreferent)
19. Claudia Weigt, Dr. met. vet., 2013, University of Zürich, "Interaction of mechanical loading with osteoporosis treatment in ovariectomized mice", Thesis Advisor, Co-examiner (Korreferent)
20. Gion Fessel, Dr. sc., 2014, ETH Zürich, "Investigating the mechanical repercussions of collagen cross-links in tendon aging, disease and as potential treatment for injuries", Co-examiner (Korreferent)
21. Roland Zemp, Dr. sc., 2015, ETH Zürich, "The human being in the office environment from a biomechanical point of view", Co-examiner (Korreferent)
22. Felix Kurth, Dr. sc., 2015, ETH Zürich, "A world-to-chip strategy for the analysis of *in vivo* stimulated cells", Co-examiner (Korreferent)
23. Anna Woloszyk, Ph.D., 2016, University of Zürich, "The potential of dental stem cells in regenerative medicine", Co-examiner (Korreferent), Chair Thesis Committee
24. Maria Lourdes Muerza Cascante, Ph.D., 2016, Queensland University of Technology, "Engineering an in vitro model of the haematopoietic stem cell niche", External Examiner
25. Marta Peña Fernández, Ph.D., 2018, University of Portsmouth, "X-ray biomechanical imaging and digital volume correlation of bone: from regeneration to structure", External Examiner
26. Martin Frank, Ph.D., 2021, TU Wien, "Mechanical characterization of individual trabeculae", External Examiner
27. Tatiana Kochetkova, Ph.D., 2023, University of Bern, "Quantifying bone extracellular matrix properties for improved clinical fracture risk prediction", External Co-referee
28. David Carro Vázquez, Ph.D., 2024, BOKU University, "MicroRNA target discovery in diabetic osteoporosis", External Assessor

Graduate Theses

1. Tor Hildebrand, Dipl. El.-Ing. ETH, 1992, ETH Zürich, "Marching Cubes: Ein Algorithmus zur Glättung von 3D-Knochenstrukturen"
2. Jan Hohe, Dipl. El.-Ing., 1998, Technical University of Karlsruhe, "Dynamic visualization and animation of the micro-biomechanics of bone"
3. Sonia Mezzour, Dipl. Masch.-Ing. ETH, 1999, ETH Zürich, "Microfabricated structure models for micro-tomographic imaging"

203. Hande Eyisoğlu, Research Internship, M.S. Biomedical Engineering, 2018, Delft University of Technology, "3D bioprinting of graphene oxide composite scaffolds for improvement scaffold morphology"
204. Matthias Walle, Semester Project, M.S. Mechanical Engineering, 2018, Technical University of Munich, "Biomaterials combined with mechanical loading: effect on bone defect healing and revascularization"
205. Simona Züger, Semester Project, M.S. Biomedical Engineering ETH, 2018, ETH Zürich, "Tissue staining and registration to assess local mechanical regulation of β -catenin expression in bone and fracture callus"
206. Denis Cener, Research Internship, M.S. Health Sciences and Technology ETH, 2019, ETH Zürich, "In-silico modelling of loading frequency-dependent bone adaptation"
207. Lorenz Kehrbein, Bachelor Thesis, B.S. Mechanical Engineering ETH, 2017, ETH Zürich, "Prediction of strain-gauged fixator deformation and its relation to real world bone callous deformation in a femur defect model"
208. Eliane Müller, Semester Project, M.S. Biomedical Engineering ETH, 2018, ETH Zürich, "A comparison of different bioprinting modes for the fabrication of accurate, reproducible and biocompatible alginate-gelatin bone scaffolds"
209. Helena David, Semester Project, M.S. Mechanical Engineering ETH, 2018, ETH Zürich, "A double-crosslinking approach for high fidelity 3D bioprinting of cell-laden scaffolds"
210. Jack Kendall, Bachelor Thesis, B.S. Mechanical Engineering ETH, 2019, ETH Zürich, "Identification and registration of fracture fragments of time-lapse distal radius scans"
211. Francisco Correia Marques, Semester Project, M.S. Biomedical Engineering ETH, 2018, ETH Zürich, "Stability and convergence of a load-adaptive bone adaptation algorithm"
212. Oliver Marti, Research Internship, M.S. Health Sciences and Technology ETH, 2019, ETH Zürich, "Evaluating osteocyte markers in three-dimensional (3D) in vitro culture environments"
213. Sarthak Consul, B.Tech., 2019, Third Year, IIT Bombay, India, "Segmentation of lacunar objects from ultra high resolution micro-CT bone scans"
214. Lara Zamboni, Semester Project, B.S. Biology ETH, 2019, ETH Zürich, "Automated algorithm for the initialization of a cell based micro-multiphysics model using time-lapsed in vivo images of murine vertebral bone"
215. Yannick Fischer, Research Internship, M.S. Health Sciences and Technology ETH, 2019, ETH Zürich, "Phenotyping and histological confirmation of fluorescent reporter mouse model for osteoclasts"
216. Solenn Riedel, Research Internship, M.S. Chemistry ETH, 2019, ETH Zürich, "Photo-cleavable hydrogels for 3D- μ -printing of bone microenvironments"
217. Sarah Egger, Research Internship, M.S. Health Sciences and Technology ETH, 2020, ETH Zürich, "Functional analysis of hMSC-derived osteocyte networks"
218. Ximena Sutter, Research Internship, M.S. Health Sciences and Technology ETH, 2020, ETH Zürich, "Biomimetic CAD models for 3D- μ -printing of synthetic lacunar-canalicular networks"
219. Jack Kendall, Semester Project, M.S. Mechanical Engineering ETH, 2020, ETH Zürich, "Isolation and tracking of fracture fragments over time using registration of time-lapse distal radius scans"
220. Anna-Katharina Zehnder, Research Internship, M.S. Health Sciences and Technology ETH, 2020, ETH Zürich, "Dynamic compressive loading influence osteogenic differentiation and mineral formation in 3D bioprinted cell-laden scaffolds"
221. Marsel Ganeyev, Semester Project, M.S. Biofabrication, 2020, Bayreuth University, "Effects of long-term mechanical loading on bone-like tissue formation in 3D bioprinted cell-laden scaffolds"

222. Takashi Graf von Normann-Ehrenfels, B.S. Mechanical Engineering ETH, 2020, ETH Zürich, "In-vivo quantification of dorsal collapse during fracture healing of the distal radius"
223. Monica Brodersen, Research Internship, M.S. Health Sciences and Technology ETH, 2020, ETH Zürich, "Engineering 3D osteocyte networks in void-forming hydrogels"
224. Philipp Campos, Semester Project, M.S. Mechanical Engineering ETH, 2020, ETH Zürich, "Designing CAD models for subtractive 3D- μ -printing of cell guidance signals"
225. Ben Kodiyan, Research Project I, M.S. Biology ETH, 2020, ETH Zürich, "Bioprinting of patient-derived bone cells: influence of isolation and experimental culture conditions used on the bone phenotype"
226. Aditya Khanna, B.Tech., 2020, Third Year, IIT Bombay, India, "Improved image registration in bone fracture healing"
227. Gaonhae Hwang, Bachelor Thesis, B.S., 2020, Pusan National University, South Korea, "Phenotyping and histological confirmation of fluorescent reporter mouse model for osteoblasts"
228. Tanja Minacci, Research Internship, M.S. Health Sciences and Technology ETH, 2020, ETH Zürich, "Influence of piezoelectric scaffolds on cell differentiation and mineralization under cyclic loading"
229. Reto Graf, Semester Project, M.S. Mechanical Engineering ETH, 2020, ETH Zürich, "Time-lapsed micro-CT analysis of 3D bioprinted patient-specific bone tissue engineering scaffolds: the effect of cell density"
230. Pascal Muff, Semester Project, M.S. Biomedical Engineering ETH, 2020, ETH Zürich, "Immunohistochemical assessment of in vitro formed mineral"
231. Angela Hüppin, Research Internship, M.S. Health Sciences and Technology ETH, 2021, ETH Zürich, "Protocol for osteocyte imaging in aged mouse bones"
232. Sandra Zimmerman, Semester Project, M.S. Biomedical Engineering ETH, 2020, ETH Zürich, "Phenotyping and histological confirmation of fluorescent reporter mouse model for osteoclasts"
233. Diego Zamagni, Semester Project, M.S. Biomedical Engineering ETH, 2020, ETH Zürich, "Two-photon micropatterned canaliculi in gelma hydrogels and their functional analysis"
234. Lara Tenisch, Semester Project, M.S. Biomedical Engineering ETH, 2020, ETH Zürich, "Multi-density analysis of tissue mineralization in polymer nanocomposite scaffolds"
235. Sophie Zengerle, Semester Project, M.S. Biomedical Engineering ETH, 2021, ETH Zürich, "Controlled delivery of physiological mechanical stimuli into 3D osteocyte cultures"
236. Nicole Deubelbeiss, Semester Project, M.S. Mechanical Engineering ETH, 2021, ETH Zürich, "Designing metamaterial CAD models for nano-3D-printed auxetic scaffolds"
237. Doris Zauchner, Semester Project, M.S. Biomedical Engineering ETH, 2021, ETH Zürich, "Developing an on-chip system for mechanical loading of living bone cell networks"
238. Jenny Gehlen, Bachelor Thesis, B.S., 2021, Karolinska Institute, Sweden, "Functional analysis of volumetrically 3D-bioprinted bone-like tissues"
239. Leana Bissig, Research Internship, M.S. Health Sciences and Technology ETH, 2017, ETH Zürich, "Functional characterization of human mesenchymal stem cells cultured in void-forming hydrogels under static and dynamic conditions"
240. Johannes Kurz, Bachelor Thesis, B.S. Computer Sciences ETH, 2021, ETH Zürich, "Large scale identification of bone cells from histology slices"
241. Patricia Schmid, Bachelor Thesis, B.S. Mechanical Engineering ETH, 2021, ETH Zürich, "Performance of a deep-learning bone segmentation algorithm using images with different histological stainings"
242. Muriel Holzreuter, Semester Project, M.S. Biomedical Engineering ETH, 2021, ETH Zürich, "Metabolic labelling of hMSC-secreted proteins during laser-guided cell outgrowth"
243. Catherine Weidlich, Semester Project, M.S. Mechanical Engineering ETH, 2021, ETH Zürich, "Digital biopsy representative region extraction in human radii"
244. Dominic Eggemann, Semester Project, M.S. Biomedical Engineering ETH, 2021, ETH Zürich, "Characterisation of image quality in HR-pQCT scans using a deep-learning-based classification method"
245. Fabienne Minacci, Research Internship, M.S. Health Sciences and Technology ETH, 2021, ETH Zürich, "Histological characterization of YAP/TAZ expression during the remodeling phase of fracture healing in wildtype and prematurely aged mice"
246. Akanksha Sachan, B.Tech., 2021, Third Year, IIT Bombay, India, "Multiphysics simulations of diabetic bone and procedure for inclusion of new pathways"
247. Sara Lindenmann, Semester Project, M.S. Biomedical Engineering ETH, 2021, ETH Zürich, "Sensitivity analysis of a 2D-3D registration tool using in vivo micro-CT mouse data"
248. Silvia Berger, Semester Project, M.S. Biomedical Engineering ETH, 2021, ETH Zürich, "Functional imaging of 3D hMSC-endothelial co-cultures"
249. Esteban Oggianu, Semester Project, B.S. Interdisciplinary Sciences ETH, 2021, ETH Zürich, "Investigating the phase separation in photo-curable polymeric hydrogels"
250. Akanksha Sachan, Bachelor Thesis, B.Tech., 2022, IIT Bombay, India, "Agent-based simulations of the effects of treatment on diabetic vs non-diabetic bone"
251. Dominique Windisch, Practical Internship, M.S. Health Sciences and Technology ETH, 2022, ETH Zürich, "Automated mechanoregulation pipeline for human studies: image registration module"

252. Rakhym Annabayev, Bachelor Thesis, B.S. Mechanical Engineering ETH, 2022, ETH Zürich, "Optimization of the coupling between osteoclasts and osteoblasts in an agent-based model of bone remodelling"
253. Ross Straughan, Semester Project, M.S. Biomedical Engineering ETH, 2022, ETH Zürich, "3D printed piezoelectric nanocomposite bone scaffolds"
254. Marco Drago, Semester Project, M.S. Biomedical Engineering ETH, 2022, ETH Zürich, "Injury prediction using different human body models"
255. Hoda Ghaziasgar, Practical Internship, M.S. Health Sciences and Technology ETH, 2022, ETH Zürich, "Verification of an image-processing pipeline for reconstructed micro-CT scans of microvasculature"
256. Natalija Jovanovic, Bachelor Thesis, B.S. Mechanical Engineering ETH, 2022, ETH Zürich, "Agent-based simulations of bisphosphonate treatment for postmenopausal osteoporosis"
257. Gordian Banzer, Research Internship, M.S. Health Sciences and Technology ETH, 2022, ETH Zürich, "Investigation of bone regeneration during fracture healing in humans using time-lapsed advanced medical imaging"
258. Christopher Goenczoel, Semester Project, M.S. Electrical Engineering ETH, 2022, ETH Zürich, "Hyperparameter optimisation of a deep learning segmentation model for bone histological images"
259. Cara Ammann, Semester Project, M.S. Biomedical Engineering ETH, 2022, ETH Zürich, "Assessing the performance of a markerless motion tracker system for applications in running sports"
260. Dominique Windisch, Research Internship, M.S. Health Sciences and Technology ETH, 2022, ETH Zürich, "In vivo repeatability of time-lapsed bone remodelling analysis of the distal radius and tibia"
261. Marianna Marzetta, Bachelor Thesis, B.S. Computational Science and Engineering ETH, 2022, ETH Zürich, "An automated registration approach for multi-stack time-lapsed imaging using high- resolution peripheral quantitative computed tomography"
262. Jakob Dietz, Semester Project, M.S. Biomedical Engineering ETH, 2022, ETH Zürich, "Optimizing 3D melt-extrusion printed BaTiO₃ bone nanocomposites for higher throughput"
263. Jérôme Schlatter, Semester Project, M.S. Mechanical Engineering ETH, 2022, ETH Zürich, "Visualizing the osteocyte lacunocanalicular network in prematurely aging mice"
264. Mirthe Kamphuis, Semester Project, M.S. Biomedical Engineering, 2022, Eindhoven University of Technology, "Human bone mechanoregulation based on high-resolution quantitative computed tomography"
265. Paviththiren Sivasothilingam, Bachelor Thesis, B.S. Mechanical Engineering ETH, 2022, ETH Zürich, "Biological sensitivity analysis of a correlative multimodal imaging approach"
266. Rafael Leon Perez, Research Internship, M.S. Health Sciences and Technology ETH, 2022, ETH Zürich, "Creating bone organoids using dynamic compression bioreactors"
267. Phillip Karpf, Bachelor Thesis, B.S. Mechanical Engineering ETH, 2022, ETH Zürich, "Designing mechanical strain distribution in 3D printed piezoelectric bone nanocomposites"
268. Aaron Geiger, Research Project, M.S. Biotechnology ETH, 2022, ETH Zürich, "Studying the molecular development and maturation of bone cells in 3D printed organoids"
269. Isabel Hui, Semester Project, M.S. Biomedical Engineering ETH, 2023, ETH Zürich, "Optimization of the synthesis procedure for michael-addition polymer precursors towards an in-situ gelling matrix"
270. Joël Hefti, Semester Project, M.S. Biomedical Engineering ETH, 2023, ETH Zürich, "Investigating mechano-regulation of bone resorption under mechanical loading in a mouse model of bone adaptation"
271. Vivian Stöckli, Semester Project, M.S. Biomedical Engineering ETH, 2023, ETH Zürich, "Uncertainty quantification of micro-multiphysics agent-based model for osteoporosis treatment"
272. Valentin Baumann, Research Internship, M.S. Health Sciences and Technology ETH, 2023, ETH Zürich, "Mechanoregulation of bone formation during non-unions in pre-maturely ageing mice using time-lapsed micro-computed tomography"
273. Lea Roffler, Semester Project, M.S. Biomedical Engineering ETH, 2023, ETH Zürich, "Validating a markerless motion tracker system for applications in running sports"
274. Ketan Gupta, Semester Project, M.S. Biomedical Engineering ETH, 2023, ETH Zürich, "Synthetic validation of a non-linear 2d-3d registration algorithm using in vivo micro-CT mouse data"
275. Cassandre Souëf, Bachelor Thesis, B.S. Life Sciences Engineering EPFL, 2023, ETH Zürich, "Agent-based simulations of sequential and combinatorial treatment for osteoporosis"
276. Jaime Pietrantuono Nepomuceno, Semester Project, M.S. Mechanical Engineering ETH, 2023, ETH Zürich, "Subtractive 3D μ -printing of semi-synthetic lacunar-canalicular networks in photodegradable hydrogels"
277. Fabio Fischer, Bachelor Thesis, B.S. Mechanical Engineering ETH, 2023, ETH Zürich, "Controlled spatial distribution of osteoblasts and osteoclast precursors-monocytes with inkjet bioprinting"
278. Sara Keller, Research Internship, M.S. Health Sciences and Technology ETH, 2023, ETH Zürich, "Mechanoresponsive bone organoids for modeling skeletal diseases"
279. Diana Mock Cáceres, Research Internship, M.S. Health Sciences and Technology ETH, 2023, ETH Zürich, "Investigating cytotoxicity effects on cell-encapsulated bioinks: a comparative analysis of various experimental conditions"
280. Michelle Freyer, Semester Project, M.S. Interdisciplinary Sciences ETH, 2023, ETH Zürich, "Developing permissive hydrogels for high-precision multiphoton cell encapsulation"

281. Florence Marti, Research Internship, M.S. Health Sciences and Technology ETH, 2023, ETH Zürich, "Optimization and characterization of collagen formation in a 3D in vitro model for osteogenesis"
282. Nadine Jacobs, Research Internship, M.S. Health Sciences and Technology ETH, 2023, ETH Zürich, "Personalized bone organoids for drug efficacy testing in children with osteogenesis imperfecta"
283. Mascha Pfyl, Research Internship, M.S. Health Sciences and Technology ETH, 2023, ETH Zürich, "Optimizing gelatine-free highly mineralized bone organoids for mechanical stability and osteogenesis"
284. Muja Emilie Ye, Semester Project, M.S. Biomedical Engineering ETH, 2024, ETH Zürich, "Investigating the physicochemical properties of photo-clickable polyvinyl alcohol hydrogels"
285. Nirujan Pasupathy, Research Internship, M.S. Health Sciences and Technology ETH, 2024, ETH Zürich, "Automated validation of a micro-multi-physics agent-based model simulating the trabecular bone response to sclerostin-antibody treatment"
286. Lorin Grünert, Bachelor Thesis, B.S. Mechanical Engineering ETH, 2024, ETH Zürich, "Computational modelling of mineralisation during bone gap healing in prematurely ageing mice"
287. Manon Galichet, Bachelor Thesis, B.S. Mathematics and Physics, 2024, École Polytechnique, "Understanding the trabecular bone response to combined sclerostin-antibody treatment and mechanical loading using micro-multiphysics agent-based modeling"
288. Nadja Temporin, Bachelor Thesis, B.S. Electrical Engineering ETH, 2024, ETH Zürich, "Developing a viscoelastic model for bone organoids to monitor mineralization from mechanical stimulation data"
289. Luca Anceschi, Semester Project, M.S. Biomedical Engineering ETH, 2024, ETH Zürich, "Exploration of advanced image masking techniques in multiscale 3D-3D image registration using micro-CT mouse data"
290. Robert McCarthy, Semester Project, M.S. Biomedical Engineering ETH, 2024, ETH Zürich, "Advancing micro-multiphysics agent-based modelling of bone healing and adaptation in mice with spatial transcriptomics"
291. Laurin Schaller, Research Internship, M.S. Health Sciences and Technology ETH, 2025, ETH Zürich, "Unravelling the molecular mechanisms of the trabecular bone response to estrogen depletion using micro-multi-physics agent-based simulations"
292. Pauline Schielke, Semester Project, M.S. Biomedical Engineering ETH, 2024, ETH Zürich, "Exploration of bone graft substitute movement in a femur defect mouse model using multiscale correlative micro-CT imaging data"

E. Invited Talks and Distinguished Lectures

1. R. Müller. CT scan reconstructions and morphometry of trabecular bone. Invited Speaker, Symposium on the mechano-biology of tissue adaptation, University of Nijmegen, Nijmegen (The Netherlands), March 8, 1996.
2. R. Müller. 3D micro-computed tomography and quantitative morphometry of human bones and biomaterials. Invited Speaker, Scanning Microscopy 1996 Meeting, Bethesda (USA), May 12, 1996.
3. R. Müller. Micro-tomographic imaging for the non-destructive evaluation of trabecular bone architecture. Invited Speaker, 10th Conference of the European Society of Biomechanics, Symposium on Bone Architecture and the Competence of Bone, Leuven (Belgium), August 28-31, 1996.
4. R. Müller. Structural and mechanical analysis of non-invasive bone biopsies using high-resolution 3D-QCT: An in vivo approach. Invited Speaker, Human Performance Laboratory, The University of Calgary, Calgary (Canada), September 27, 1996.
5. R. Müller. 3D micro-tomographic imaging for the non-destructive evaluation of human bones and biomaterials. Invited Speaker, Shriner Burns Institute Seminar Series, Mass General Hospital, Harvard Medical School, Boston (USA), April 16, 1997.
6. R. Müller. Biomechanical competence of microstructural bone in the progress of adaptive bone remodeling. Invited Speaker, 12th International Workshop on Bone Densitometry, Second symposium on Bone Architecture and the Competence of Bone, Crieff (United Kingdom), May 18, 1997.
7. R. Müller. Local bone failure and its relation to variations in tissue properties. Invited Speaker, Third Symposium on Bone Architecture and the Competence of Bone, Ittigen (Switzerland), July 5, 1998.
8. R. Müller. Image-guided assessment of microstructural bone failure. Invited Speaker, Center for Engineering in Medicine, Fellows Forum, Mass General Hospital, Harvard Medical School, Boston (USA), June 24, 1998.
9. R. Müller. Bone architecture and the competence of bone. Invited Speaker, National Lecture, Nagasaki University (Japan), July 31, 1998.
10. R. Müller. Micro-tomographic imaging - a novel approach for the nondestructive study of osteoporosis. Invited Speaker, Biomedical Engineering Society (BMES), Annual Fall Meeting, Cleveland (USA), October 12, 1998.
11. R. Müller. Bone architecture and the competence of bone. Invited Speaker, Biomechanics Seminar Series, Boston University, Boston (USA), February 11, 1999.

12. R. Müller. Desk-top micro-computed tomography for the nondestructive structural evaluation of bones and biomaterials. Invited Speaker, ClinTrials BioResearch (CTBR), Biotech and Bone Symposium, The Westin Hotel, Boston (USA), March 30, 1999.
13. R. Müller. Desk-top micro-tomographic imaging - a new powerful tool in the non-destructive characterization of bone and connective tissue. Award Lecture, Inaugural John Haddad Young Investigator Meeting, Advances in Mineral Metabolism (AIMM) and American Society for Bone and Mineral Research (ASBMR), Snowmass (USA), April 8, 1999.
14. R. Müller. Bone architecture and the competence of bone as assessed by micro-computed tomography. Keynote Speaker, Annual Meeting of the Japanese Society of Bone Morphometry, Fukuoka (Japan), June 25, 1999.
15. R. Müller. Micro-tomographic imaging in the process of bone modeling and simulation. SPIE Annual Meeting. Invited Speaker, Technical Conference on "Developments in X-Ray Tomography II", Denver (USA), July 22, 1999.
16. R. Müller. Desk-top micro-tomographic imaging and applications to bone research. Award Lecture, ISB Promising Young Scientist Award, 8th Congress of the International Society of Biomechanics, Calgary (Canada), August 10, 1999.
17. R. Müller. Image-guided assessment of local bone failure. Invited Speaker, 8th Congress of the International Society of Biomechanics, Calgary (Canada), August 12, 1999.
18. R. Müller. Mechano-structure relationships in human and animal bone as revealed by desk-top micro-computed tomography. Invited Speaker, Session on Bone Morphometry in Orthopedics and Dentistry, VIIIth Congress of the International Society of Bone Morphometry, Scottsdale (USA), October 10, 1999.
19. R. Müller. Mechano-structure relationships in human and animal bone as revealed by desk-top micro-computed tomography. Invited Speaker, Orthopedic Seminar Series, Rhode Island Hospital and Brown University, Providence (USA), December 1, 1999.
20. R. Müller. Mechano-biology of microstructural bone as assessed by micro-computed tomography. Invited Speaker, Biomedical Engineering Seminar, The Mayo Clinic, Rochester (USA), February 25, 2000.
21. R. Müller. Mechano-structure relationships in human and animal bone as revealed by desk-top micro-computed tomography. Invited Speaker, AeroMech Seminar, Department of Aerospace and Mechanical Engineering, Boston University, Boston (USA), March 24, 2000.
22. R. Müller. Bone structure and its importance in predicting fracture risk. Invited Speaker, Grand Grounds, Harvard Combined Orthopaedic Program, Mass General Hospital, Harvard Medical School, Boston (USA), May 24, 2000.
23. R. Müller. Micro-CT "Movies" of dynamically loaded bone specimens. Invited Speaker, Special Focus Session "The Latest Technologies", 14th International Workshop on Bone Densitometry, Warnemünde (Germany), September 6, 2000.
24. R. Müller. Mechano-structure relationships in human and animal bone as revealed by micro-CT and micro-MRI. Invited Speaker, Special Focus Day "The Search For Better Surrogate Markers For Bone Strength", 14th International Workshop on Bone Densitometry, Warnemünde (Germany), September 7, 2000.
25. R. Müller. Micro-compression: a novel technique for image-guided assessment of bone failure, repair, and adaptation. Invited Speaker, Biomedical Engineering Colloquium, Department of Electrical Engineering, ETH Zürich, Zürich (Switzerland), November 10, 2000.
26. R. Müller. Imaging methods, Invited Speaker, Symposium "Diagnosis of Mechanical Bone Quality" in honor of the inauguration of Prof. Rik Huiskes at the Biomedical Engineering Department, Eindhoven University of Technology, Eindhoven (The Netherlands), November 24, 2000.
27. R. Müller. Micro-compression: a novel technique for image-guided assessment of bone failure, repair, and adaptation. Invited Speaker, Biomechanics Seminar, Department of Mechanical Engineering, Swiss Federal Institute of Technology (EPFL), Lausanne (Switzerland), March 30, 2001.
28. R. Müller. Desktop micro-tomographic imaging - a new powerful tool for the characterization of microstructural bone in genetics and gene therapy. Invited Speaker, Seminar Series, Division of Clinical Pathophysiology, University Hospital of Geneva, Geneva (Switzerland), April 9, 2001.
29. R. Müller. Architektur und mechanische Kompetenz des mikrostrukturellen Knochens. Invited Speaker, Anatomisches Seminar, Ludwig-Maximilians-Universität München, Munich (Germany), May 2, 2001.
30. R. Müller. Micro-mechanical evaluation of bone microstructures under load. Invited Speaker, SPIE Annual Meeting, Technical Conference on "Developments in X-Ray Tomography III", San Diego (USA), August 3, 2001.
31. R. Müller. Visualization of microstructural fracture mechanisms in vertebral bone. Plenary Speaker, 19th Annual Meeting of the Japanese Society of Bone and Mineral Research, Symposium on "Osteoporotic Vertebral Fractures", Nagoya (Japan), August 10, 2001 (cancelled).
32. R. Müller. Breathing bones - new findings on the plasticity of microstructural bone. Invited Speaker, Journées d'Automne 2001, Société Française de Métallurgie et de Matériaux - SF2M, Paris (France), October 31, 2001.
33. R. Müller. Assessment of bone structure function-relationships in the genomic era. Invited Speaker, Anatomisches Seminar, University of Berne, Berne (Switzerland), November 14, 2001.

34. R. Müller. Assessment of bone structure function relationships in the genomic era. Invited Speaker, Weekly Seminary Series, Department of Rheumatology, University Hospital, Zürich (Switzerland), February 8, 2002.
35. R. Müller. Mikro-CT und Mikro-Kompression: Von der Knochenmasse zur -struktur, von der Maus zum Menschen. Invited Speaker, Workshop Morphology and Imaging, Deutsche Gesellschaft für Biomechanik und Ludwig-Maximilians-Universität München, Munich (Germany), June 8, 2002.
36. R. Müller. Quantitative image processing of 3D biological structures. Invited Speaker, 2002 IEEE International Symposium on "Biomedical Imaging: Macro to Nano", Washington D.C. (USA), July 7-10, 2002.
37. R. Müller. A computationally efficient algorithm for in-vivo bone failure prediction on the trabecular level: A combined experimental and computational approach. Invited Speaker, IVth World Congress of Biomechanics, Calgary (Canada), August 9, 2002.
38. R. Müller. Skeletal imaging: of mice and men. Plenary Speaker, 12th Annual Meeting European Orthopedic Research Society, Lausanne (Switzerland), October 13, 2002.
39. R. Müller. The trabecular network - aging processes. Invited Speaker, AO Exchange Meeting on "Osteoporosis and Fracture Treatment", Zürich (Switzerland), September 27, 2002.
40. R. Müller. Bone microarchitecture assessment - current and future trends. Invited Speaker, Bone Summit 2002, The Waldorf Astoria, New York (USA), October 19, 2002.
41. R. Müller. Assessment of bone structure function relationships in the genomic era. Invited Speaker, Seminar, Biomechanics Section, Technical University Hamburg-Harburg (Germany), October 24, 2002.
42. R. Müller. Skeletal imaging: of mice and men. Invited Speaker, Langer Lab, Harvard - M.I.T. Division of Health Sciences and Technology, Massachusetts Institute of Technology, Cambridge (USA), December 3, 2002.
43. R. Müller. Micro-tomographic imaging - a powerful tool for high-throughput phenomics of bone. Invited Speaker, Seminar, Bioinformatics Kolloquium, Technical University Graz, Graz (Austria), January 10, 2003.
44. R. Müller. Hierarchical CT imaging: from macro to nano - from organ to cell. Workshop Plenary Lecture, 49th Annual Meeting Orthopedic Research Society, New Orleans (USA), February 2, 2003.
45. R. Müller. Breathing bones - new findings on the plasticity of microstructural bone. Invited Speaker, Minisymposium on "Hierarchically structured biological materials", Annual Conference of the "Gesellschaft für Angewandte Mathematik und Mechanik", GAMM, Abano Terme (Italy), March 25, 2003.
46. R. Müller. Genetic control of bone architecture and the competence of bone. Invited Speaker, Biomedical Engineering Doctoral Research Seminars, Swiss Federal Institute of Technology (EPFL), Lausanne (Switzerland), March 27, 2003.
47. R. Müller. Local bone morphometry - a new method to assess bone failure. Invited Speaker, First European Scanco User Meeting, Zürich (Switzerland), April 1, 2003.
48. R. Müller. Knochenstruktur und Funktion im Zeitalter der Genomik. Invited Speaker, Institute for Medical Engineering, Technical University Berlin, Berlin (Germany), April 25, 2003.
49. R. Müller. Hierarchical bioimaging. Invited Speaker, Bioengineering Graduate Program, Katholieke Universiteit Leuven, Leuven (Belgium), May 13, 2003.
50. R. Müller. Hierarchische CT-Bildgebung des Knochens. Invited Speaker, Instructional Course on "Biology and the Mechanical Competence of Bone", 3. Jahrestagung der Deutschen Gesellschaft für Biomechanik, Munich (Germany), May 31, 2003.
51. R. Müller. Multimedia in the life sciences - a new challenge for information technology. Invited Speaker, Department of Information Technology, The University of Zürich, Zürich (Switzerland), June 17, 2003.
52. R. Müller. 3D micro-tomographic imaging of bone and biomaterials. Invited Speaker, European Cells and Materials IV, Davos (Switzerland), July 1, 2003.
53. R. Müller. Multiple imaging modalities in vivo and in vitro. Plenary Speaker, NIH/NIAMS Invited Meeting on "Bone Quality", Bethesda (USA), August 18, 2003.
54. R. Müller. Hierarchical bioimaging - of men and mice. Invited Speaker, National Institutes of Health, Bethesda (USA), August 19, 2003.
55. R. Müller. Mikrostrukturelle Bildgebung in den Life Sciences: Von Mäusen und Menschen, Invited Speaker, Gemeinsame Jahrestagung der österreichischen, Deutschen und Schweizerischen Gesellschaft für Biomedizinische Technik, Salzburg (Austria), September 25, 2003.
56. R. Müller. Hierarchische Mikrotomographie. Invited Speaker, Combined Annual Meeting of the Swiss Society of Microtechnology and the Swiss Society of Biomedical Engineering, Buchs (Switzerland), October 9, 2003.
57. R. Müller. Architektur und mechanische Kompetenz des alternden Knochens. Invited Speaker, Fortbildungsveranstaltung Ortho, Inselspital, Berne (Switzerland), October 23, 2003.
58. R. Müller. Functional phenomics of murine bones. Invited Speaker, Fall Meeting of the Swiss Society of Pharmacology and Toxicology, Basle (Switzerland), October 27, 2003.
59. R. Müller. Funktionelle Phenomik und Imaging des Knochens - eine Herausforderung an die Informationstechnologie. Invited Speaker, Medizinische Informatik, Kolloquium für Mediziner und Veterinärmediziner, The University of Zürich, Zürich (Switzerland), November 20, 2003.

60. R. Müller. Hierarchische Bildgebung von Knochenstruktur und Funktion. Invited Speaker, EMPA Academy, St. Gallen (Switzerland), December 4, 2003.
61. R. Müller. Skeletal imaging: of mice and men. Invited Speaker, The Forsyth Institute, Boston (USA), December 9, 2003.
62. R. Müller. Dynamic imaging of bone function. Invited Speaker, Institute of Terrestrial Ecology, ETH Zürich, Zürich (Switzerland), December 17, 2003.
63. R. Müller. Microarchitecture and bone quality. Invited Speaker, NIH Staff Training in Extramural Programs (STEP), Science in the Public Health, "Feeling Good Right Down to Your Bones", Bethesda (USA), January 13, 2004.
64. R. Müller. Hierarchical bioimaging in the assessment of bone quality and the competence of bone. Plenary Speaker, 6th International Symposium on Computer Methods in Biomechanics and Biomedical Engineering, Madrid (Spain), February 27, 2004.
65. R. Müller. Functional imaging of microstructural bone failure. International Speaker, The Third Clare Valley Bone Meeting, International Society for Fracture Repair, Clare (Australia), March 23, 2004.
66. R. Müller. Functional microimaging at the interface of bone mechanics and biology. Invited Speaker, 2004 Bone Summit, Cleveland Clinic Foundation, Cleveland (USA), May 13, 2004.
67. R. Müller. What can we expect from microCT imaging now and in the future? Keynote Speaker, 16th International Bone Densitometry Workshop, Annecy (France), June 22, 2004.
68. R. Müller. Time-lapsed microstructural imaging of bone function. Invited Speaker, IUTAM Symposium on "Mechanics of Biological Tissue", Graz (Austria), June 28, 2004.
69. R. Müller. Bone imaging - a hierarchical approach to assess bone function. Keynote Speaker, 14th Meeting of the European Society of Biomechanics, 's-Hertogenbosch (The Netherlands), July 7, 2004.
70. R. Müller. Structure function assessment in biomaterials and tissue engineering. Invited Speaker, Department of Materials, ETH Zürich, Zürich (Switzerland), August 26, 2004.
71. R. Müller. Architektur und mechanische Kompetenz des mikrostrukturellen Knochens. Plenary Lecture, Universitäts-Kinderspital beider Basel, Basel (Switzerland), September 9, 2004.
72. R. Müller. Functional microimaging at the interface of bone mechanics and biology. Invited Speaker, Doctoral Program in Biotechnology and Bioengineering, Swiss Federal Institute of Technology (EPFL), Lausanne (Switzerland), November 4, 2004.
73. R. Müller. Structure function assessment in natural and engineered biomaterials. Invited Speaker, Institute of Science and Technology in Medicine, Keele University, Stoke-on-Trent (UK), November 15, 2004.
74. R. Müller. Bone imaging - a hierarchical approach to assess bone function. Invited Speaker, 1st GAMM Seminar on Continuum Biomechanics, Freudenstadt-Lauterbad (Germany), November 25, 2004.
75. R. Müller. Hierarchical microimaging of bone structure and function. Invited Speaker, MEM Research Center (ISTB), University of Berne, Berne (Switzerland), November 30, 2004.
76. R. Müller. Hierarchical bioimaging for structure function assessment in bone. Invited Speaker, Anatomisches Seminar "Aktuelle Probleme der morphologischen Forschung", University of Zürich, Zürich (Switzerland), December 8, 2004.
77. R. Müller. Hierarchical structure function assessment in bone and oral biology. Invited Speaker, Symposium on "Oral Biology", Center for Dental and Oral Medicine and Cranio-Maxillofacial Surgery, University of Zürich, Zürich (Switzerland), March 29, 2005.
78. R. Müller. Structure function assessment in orthopedics and tissue engineering. Invited Speaker, School of Life Sciences, Swiss Federal Institute of Technology (EPFL), Lausanne (Switzerland), April 6, 2005.
79. R. Müller. How does trabecular bone fail at the microstructural level? Plenary Lecture, NIH/NIAMS-ASBMR Scientific Meeting on "Bone Quality: What Is It and Can We Measure It?", Bethesda (USA), May 2, 2005.
80. R. Müller. Anatomical and functional CT imaging of bone. Plenary Lecture, 2nd Joint Meeting of the European Calcified Tissue Society (ECTS) and the International Bone and Mineral Society (IBMS), Geneva (Switzerland), June 26, 2005.
81. R. Müller. Bone mechanics - from macro to nano. Keynote Speaker, 2005 Annual Meeting of the Swiss Society for Biomedical Engineering (SSBE), Zürich (Switzerland), September 1, 2005.
82. R. Müller. Hierarchical bioimaging in the assessment of bone quality and the competence of bone. Invited Speaker, Department of Clinical Laboratory Medicine, Saitama Medical School, Tokyo (Japan), September 9, 2005.
83. R. Müller. Dynamic imaging of bone function - a hierarchical approach. Invited Speaker, 2nd Japan-Switzerland Workshop on Biomechanics, Kyoto (Japan), September 15, 2005.
84. R. Müller. The vasculature in bone quality and skeletal response to mechanical load. Plenary Lecture, 27th Annual Meeting of the American Society of Bone and Mineral Research (ASBMR), Plenary Lecture Symposium 1: Bone and Its Vasculature, Nashville (USA), September 25, 2005.
85. R. Müller. Bioimaging with synchrotron radiation: new challenges. Plenary Lecture, 6th Swiss Light Source Users Meeting, Villigen (Switzerland), October 17, 2005.
86. R. Müller. Advanced imaging techniques for studying bone structure and function. Invited Speaker, The Botnar Research Centre, Institute of Musculoskeletal Sciences, University of Oxford, Oxford (UK), October 25, 2005.

87. R. Müller. Anatomical and functional micro-tomography in bone and dental applications. Invited Speaker, Department of Clinical Research, University of Berne, Berne (Switzerland), November 23, 2005.
88. R. Müller. Mikro- und Nano-Biotomographie mit Synchrotron Licht. Invited Speaker, Naturforschende Gesellschaft in Zürich, Zürich (Switzerland), November 28, 2005.
89. R. Müller. Orthopaedic biomechanics - structure function assessment from macro to nano. Invited Speaker, Symposium on "Orthopaedic Biomechanics", Department of Orthopaedic Surgery, University of Zürich, Zürich (Switzerland), January 18, 2006.
90. R. Müller. Structure function assessment in orthopaedics and skeletal biology - from macro to nano. Invited Speaker, Department of Mechanical and Process Engineering, ETH Zürich, Zürich (Switzerland), February 10, 2006.
91. R. Müller. Genetische Komponenten der Knochenstruktur. Invited Speaker, Leopoldina-Symposium "Der Knochen als Archiv", Munich (Germany), March 10, 2006.
92. R. Müller. Quantification of bone microcracks using time-lapsed nanotomography. Plenary Speaker, 7th International Symposium on Computer Methods in Biomechanics and Biomedical Engineering, Antibes (France), March 23, 2006.
93. R. Müller. Hierarchical bioimaging in gene therapy and regenerative medicine. Invited Speaker, 4th International Meeting on Gene Therapy of Arthritis and Related Disorders, Utrecht (The Netherlands), May 12, 2006.
94. R. Müller. Mirando al futuro - biopsia ósea no invasiva. Invited Speaker, XXXII Annual Congress of Rheumatology, Spanish Society for Rheumatology, Valencia (Spain), May 23, 2006.
95. R. Müller. Imaging and biomechanical analysis of bone repair. Plenary Lecture, Genostem Workshop "Preclinical models of bone repair: clinical relevance and applicability in mesenchymal stem cell-mediated therapy", Paris (France), May 29, 2006.
96. R. Müller. Multiscale assessment of cortical and trabecular bone failure - a combined experimental and computational approach. Invited Speaker, III European Conference on Computational Solid and Structural Mechanics, ECCM-2006, Mini-Symposium "Multiscale Mechanics of Biological Materials and Other Natural Composites", Lisbon (Portugal), June 5, 2006.
97. R. Müller. Relation microarchitecture - résistance mécanique: modélisation structurelle du tissu osseux. Plenary Lecture, Séminaire é Osseuse, Abbaye des Vaux de Cernay (France), June 16, 2006.
98. R. Müller. Computer simulations in orthopedics - from macro to nano. Invited Speaker, Fallstudien, Rechnergestützte Wissenschaften, ETH Zürich, Zürich (Switzerland), June 22, 2006.
99. R. Müller. Neue bildgebende Verfahren zur Diagnostik von Knochenkrankheiten oder: Hat die Densitometrie ausgedient? Invited Speaker, Bruderholz Seminare in Innerer Medizin 2006, Basle University Hospital, Kantonsspital Bruderholz, Basle (Switzerland), July 14, 2006.
100. R. Müller. Hierarchical imaging of bone quality: the renaissance of the biopsy. Plenary Lecturer, Xth Congress of the International Society of Bone Morphometry (ISBM), Philadelphia (USA), September 20, 2006.
101. R. Müller. Hierarchical bioimaging for advanced quantification in tissue engineering and regenerative medicine. Keynote Speaker, 20th European Conference on Biomaterials (ESB 2006), Nantes (France), September 28, 2006.
102. R. Müller. Developments and future perspectives of bone microstructure analysis. Keynote Speaker, 17th International Bone Densitometry Workshop, Kyoto (Japan), November 6, 2006.
103. R. Müller. Advances in bone architectural imaging techniques. Invited Speaker, Satellite meeting "Efficacy of bisphosphonates in postmenopausal osteoporosis - concepts and insights", 7th European Congress on Clinical and Economic Aspects of Osteoporosis and Osteoarthritis (ECCEO7), Porto (Portugal), March 30, 2007.
104. R. Müller. Hierarchical micro-imaging in biomaterials research and tissue regeneration. Invited Speaker, 17th Interdisciplinary Research Conference on Biomaterials, GRIBOI 2007, Oxford (UK), April 3, 2007.
105. R. Müller. Hierarchical analysis of the skeletal response to mechanical stimulation. Invited Speaker, 2nd Lilly European Forum for Advances in Osteoporotic Fractures Management, Vienna (Austria), April 21, 2007.
106. R. Müller. Bone mineral density and microarchitecture in the assessment of bone strength. Invited Speaker, 34th European Symposium on Calcified Tissues, ECTS Training Course "Bone quality: from bench to bedside", Copenhagen (Denmark), May 5, 2007.
107. R. Müller. Hierarchical imaging of cells and matrix. Invited Speaker, 2007 Global Arthritis Research Network (GARN) Meeting, Zürich (Switzerland), May 12, 2007.
108. R. Müller. Computational biomechanics in orthopaedics and skeletal biology. Invited Speaker, 27th Annual Meeting of the Japanese Society of Bone Morphometry, Huis Ten Bosch (Japan), June 2, 2007.
109. R. Müller. Micro- and nano-tomography of bone using synchrotron light. Invited Speaker, Utrecht Seminar, 27th Annual Meeting of the Japanese Society of Bone Morphometry, Huis Ten Bosch (Japan), June 2, 2007.
110. R. Müller. MicroCT monitoring of tissue engineered constructs. Invited Speaker, Workshop on Bioreactor Design for Skeletal Tissue Engineering, Keele (UK), June 21, 2007.

111. R. Müller. Bone imaging - from bench to bedside. Plenary Lecture, 17th Scientific Meeting of the International Bone and Mineral Society (IBMS), Montreal (Canada), June 27, 2007.
112. R. Müller. Advances in the imaging of bone. Invited Speaker, Advances in the Molecular Pharmacology and Therapeutics of Bone Disease, Oxford (UK), July 11, 2007.
113. R. Müller. Imaging techniques in animal models for in vivo functionality assessment. Invited Speaker, EMEA/INFARMED/EXPERTISSUES Joint Workshop on Cell Based Medicinal Products, Lisbon (Portugal), October 19, 2007.
114. R. Müller. Functional bioimaging of skeletal tissues. Invited Speaker, Boston V Meeting, Boston (USA), November 6, 2007.
115. R. Müller. Cracks beneath the surface - how advances in imaging techniques can help in the management of osteoporosis. Invited Speaker, Satellite symposium "Practical Steps into the Future", 12th Conference on Osteoporosis, National Osteoporosis Society, Edinburgh (UK), November 27, 2007.
116. R. Müller. Structure function assessment in bone - from macro to nano. Invited Speaker, Mechanics and Computation Seminar Series, Stanford University, Stanford (USA), March 6, 2008.
117. R. Müller. Advances in the clinical imaging of bone. Invited Speaker, IBMS Davos Workshop "Bone Biology and Therapeutics", International Bone and Mineral Society, Davos (Switzerland), March 11, 2008.
118. R. Müller. Bone strength evaluation: imaging techniques of the future. Invited Speaker, Satellite symposium "Postmenopausal Osteoporosis: Evidence-Based Medicine in Action", Eular 2008, Paris (France), June 11, 2008.
119. R. Müller. Functional bone imaging using synchrotron light. Invited Speaker, 18th International Bone Densitometry Workshop, Pugnochiuso (Italy), June 18, 2008.
120. R. Müller. Imaging techniques to improve and control tissue engineering strategies. Invited Speaker, TERMIS-EU 2008 Annual Meeting, Symposium "Advances on Multidisciplinary Research for the Tissue Engineering of Bone and Cartilage", Porto (Portugal), June 23, 2008.
121. R. Müller. Biomechanical imaging - a novel approach to assess bone structure and function. Keynote Speaker, Bioengineering 08, London (UK), September 18, 2008.
122. R. Müller. Tissue and cell level modelling to predict changes over time: planning the pharmacological treatment in osteoporosis. Invited Speaker, ICT BIO 2008 "Computer Modelling and Simulation for Improving Human Health", Brussels (Belgium), October 24, 2008.
123. R. Müller. News in evaluating bone structure. Invited Speaker, Colloques Cliniques, Service des Maladies Osseuses, University Hospital of Geneva, Geneva (Switzerland), December 12, 2008.
124. R. Müller. Micro-CT imaging of materials and in preclinical models. Invited Speaker, Expertissues Winterschool on "Preclinical Models and Imaging in Musculoskeletal Tissue Engineering", Radstadt (Austria), January 27, 2009.
125. R. Müller. Functional imaging for skeletal tissue regeneration. Invited Speaker, Symposium "Regenerative Medicine", University Hospital Zürich, Zürich (Switzerland), May 28, 2009.
126. R. Müller. Biomechanical testing and simulation techniques in skeletal research - the importance of hierarchy. Invited Tutorial Speaker, XXII Congress of the International Society of Biomechanics, Cape Town (South Africa), July 5, 2009.
127. R. Müller. Hierarchical microimaging of bone structure and function. Invited Speaker, Technology Forum, European Forum Alpbach, Alpbach (Austria), August 28, 2009.
128. R. Müller. Biomechanical imaging of bone function. Invited Speaker, The Third Switzerland-Japan Workshop on Biomechanics 2009 (SJB 2009), Engelberg (Switzerland), September 4, 2009.
129. R. Müller. Advances in the imaging and quantification of bioscaffolds and tissue regeneration. Invited Speaker, 22th European Conference on Biomaterials (ESB 2009), Lausanne (Switzerland), September 8, 2009.
130. R. Müller. Trabecular bone failure at the structural and microstructural level. Invited Speaker, 31st Annual Meeting of the American Society of Bone and Mineral Research (ASBMR), Working Group "Non-Invasive Assessment of Bone Microarchitecture and Function", Denver (USA), September 12, 2009.
131. R. Müller. Partnerships between Academia and Industry. Invited Speaker, CARTA 2010, 6th Cardiovascular Roundtable, University Hospital Zürich, Zürich (Switzerland), October 23, 2009.
132. R. Müller. Innovative technologies for an ageing population - virtual physiology to combat osteoporosis. Invited Speaker, World Economic Forum (WEF), Annual Meeting 2010, IdeasLab, Davos (Switzerland), January 28, 2010.
133. R. Müller. Hierarchical imaging and quantification of bioscaffolds and tissue regeneration. Invited Speaker, McGowan Institute 2010 Scientific Retreat, The University of Pittsburgh, Nemacolin Woodlands Resort, Farmington (USA), March 8, 2010.
134. R. Müller. Pharmacological treatment planning and the preclinical assessment of new bone drugs. Invited Speaker, IOF World Congress on Osteoporosis and 10th European Congress on Clinical and Economic Aspects of Osteoporosis and Osteoarthritis, Florence (Italy), May 5, 2010.
135. R. Müller. Cell and tissue based simulation of osteoporosis and pharmacological treatment. Invited Speaker, IV European Congress on Computational Mechanics (ECCM IV), Mini-Symposium "Mechanobiology of Bone Remodelling and Adaptation", Paris (France), May 18, 2010.

136. R. Müller. Biomechanical imaging - a hierarchical approach to assess bone structure and function. Opening Plenary Speaker, 4th National Conference of the Hellenic Society of Biomechanics (ELEMPIO), Ioannina (Greece), June 4, 2010.
137. R. Müller. Biomechanical imaging of cortical bone structure and function. Keynote Speaker, 18th Annual Meeting European Orthopedic Research Society, Davos (Switzerland), July 2, 2010.
138. R. Müller. Toward a validated algorithm for the prediction of bone tissue adaptation. Invited Speaker, 6th World Congress of Biomechanics, Singapore (Singapore), August 5, 2010.
139. R. Müller. Advanced functional imaging in applications of tissue engineering and regenerative medicine. Invited Speaker, National University of Singapore Seminar Series, Singapore (Singapore), September 3, 2010.
140. R. Müller. Osteocytes - the hunt for the mechanostat. Invited Speaker, ANZBMS 20th Annual Scientific Meeting, Australian and New Zealand Bone and Mineral Society, Adelaide (Australia), September 6, 2010.
141. R. Müller. Bone imaging - the future. Plenary Speaker, ANZBMS 20th Annual Scientific Meeting, Australian and New Zealand Bone and Mineral Society, Adelaide (Australia), September 7, 2010.
142. R. Müller. Hierarchical microimaging of bone structure and function. Invited Speaker, 4th CIMST Interdisciplinary Summer School on Bio-medical Imaging, ETH Zürich, Zürich (Switzerland), September 16, 2010.
143. R. Müller. Bone biomechanics - from fracture prediction to tissue regeneration. Invited Speaker, MNSP Industry Day 2010, ETH Zürich, Zürich (Switzerland), September 17, 2010.
144. R. Müller. Gesund schütteln. Invited Speaker, Treffpunkt Science City - Gesund älter werden, Zürich (Switzerland), November 14, 2010.
145. R. Müller. Bone imaging - of mice and men. Invited Speaker, Institute of Science and Technology in Medicine, Keele University, Stoke-on-Trent (UK), March 15, 2011.
146. R. Müller. Non invasive evaluation of bone strength. Invited Speaker, 11th European Congress on Osteoporosis and Osteoarthritis (ECCEO11-IOF), Valencia (Spain), March 24, 2011.
147. R. Müller. In silico biology of load-induced bone adaptation. Invited Speaker, John Haddad Young Investigator Meeting, Advances in Mineral Metabolism (AIMM) and American Society for Bone and Mineral Research (ASBMR), Snowmass (USA), April 6, 2011.
148. R. Müller. Cracks beneath the surface - biomechanical bone imaging from macro to nano. Plenary Speaker, Horizon Lecture, M+Visión Fellowship 2011 Training Program, Madrid-MIT M+Visión Consortium, Madrid (Spain), July 20, 2011.
149. R. Müller. In silico prediction of local bone formation and resorption in an in vivo model of bone adaptation. Invited Speaker, 2011 IUTAM Symposium on Computer Models in Biomechanics, Stanford (USA), August 30, 2011.
150. R. Müller. Advances in quantitative imaging of skeletal tissue regeneration. Invited Speaker, Summer School on Biomaterials and Regenerative Medicine: From Molecular and Cell Biology to Tissues and Organs Repair, Riva del Garda (Italy), September 23, 2011.
151. R. Müller. Patient specific modelling for osteoporosis fracture prediction. Invited Speaker, EPSRC Network Meeting on "Patient Specific Modelling - Translation from Basic Research to Clinical Practice", Edinburgh (UK), September 28, 2011.
152. R. Müller. Quantitative micro-imaging of musculoskeletal structure and function. Invited Speaker, Zurich Center for Integrative Human Physiology (ZIHP), Mini-symposium on "Visualizing Men and Mammals", Zürich (Switzerland), November 21, 2011.
153. R. Müller. Future of bone imaging: in vivo evaluation of bone remodeling. Keynote Speaker, International Bone Academy Meeting on "Progress in RANK Ligand Biology: Bone and Beyond", Brussels (Belgium), February 3, 2012.
154. R. Müller. Non-invasive evaluation of bone strength. Invited Speaker, 1st CEOR's International Symposium on Osteoporosis and Bone Health, Jeddah (Saudi Arabia), February 8, 2012.
155. R. Müller. Why bones fail: structure and function. Invited Speaker, 1st CEOR's International Symposium on Osteoporosis and Bone Health, Jeddah (Saudi Arabia), February 9, 2012.
156. R. Müller. Time-lapsed in vivo imaging of transient bone biology. Invited Speaker, Osteologie 2012, Basel (Switzerland), March 29, 2012.
157. R. Müller. Computational prediction of load induced bone remodeling in response to aging, disease and treatment in vivo. Invited Speaker, 10th International Symposium on Computer Methods in Biomechanics and Biomedical Engineering, Berlin (Germany), April 12, 2012.
158. R. Müller. Biomechanics and mechanobiology in biomaterials research and tissue regeneration. Invited Speaker, 22nd Interdisciplinary Research Conference on Biomaterials, GRIBOI 2012, Uppsala (Sweden), May 11, 2012.
159. R. Müller. Hierarchical imaging of bone structure and function. Keynote Speaker, Special Symposium on Hard Tissue Imaging, Institute of Clinical Research, University of Southern Denmark, Odense (Denmark), June 6, 2012.

160. R. Müller. Advances in quantitative imaging of skeletal tissue regeneration. Invited Speaker, Summer School on Biomaterials and Regenerative Medicine: Bioinspired and Biomimetic Materials and Scaffolds, Riva del Garda (Italy), July 13, 2012.
161. R. Müller. Imaging living tissue using X-ray micro-computed tomography. Invited Speaker, Summer School on Condensed Matter Research - Imaging Life and Matter, Zugerberg (Switzerland), August 15, 2012.
162. R. Müller. In vivo micro-CT for time-lapsed imaging of transient bone biology. Invited Speaker, 19th International Bone Densitometry Workshop, Breckenridge (USA), August 20, 2012.
163. R. Müller. In vivo monitoring of vascular development and regeneration. Keynote Speaker, 3rd TERMIS World Congress, Vienna (Austria), September 6, 2012.
164. R. Müller. In vivo physiome maps for the simulation of bone remodeling. Keynote Speaker, 6th European Congress on Computational Methods in Applied Sciences and Engineering (ECCOMAS 2012), Vienna (Austria), September 11, 2012.
165. R. Müller. Predicting disease progression and effect of pharma treatment. Invited Speaker, VPH2012 - Integrative Approaches to Computational Biomedicine, London (UK), September 19, 2012.
166. R. Müller. Micro-CT imaging of materials and tissues in preclinical models. Invited Speaker, TERMIS/Expertissues Winterschool on "Vitro/Vivo Preclinical Models and Imaging in Musculoskeletal Tissue Regeneration", Radstadt (Austria), January 29, 2013.
167. R. Müller. Vibrationstherapie oder wie die Knochen hören lernten. Invited Speaker, Technische Gesellschaft Zürich (TGZ), Zürich (Switzerland), March 4, 2013.
168. R. Müller. Local bone formation and resorption in vivo is controlled mechanically in cyclically loaded and in ovariectomized mice. Invited Speaker, 11th International Symposium on Computer Methods in Biomechanics and Biomedical Engineering, Salt Lake City (USA), April 5, 2013.
169. R. Müller. Panellist, Ninth Annual Swiss Re Young Leaders Reunion: Entrepreneurship and Innovation, Rüschlikon (Switzerland), April 9, 2013.
170. R. Müller. Ingenieure für Spitäler - warum wir mehr Ingenieure in der Medizin brauchen. Keynote Speaker, 5. Europäische Konferenz für Krankenhaustechnik, Berne (Switzerland), April 12, 2013.
171. R. Müller. Der Wolff im Mauspelz oder wie die Knochen hören lernten. Invited Speaker, 8. Jahrestagung der Deutschen Gesellschaft für Biomechanik (DGfB), Neu-Ulm (Germany), May 16, 2013.
172. R. Müller. Imaging tissues, from complex methods to standard tools. Invited Speaker, Summer School on Biomaterials and Regenerative Medicine: From the Biological Design to the Validation of Tissue Engineering Procedures and Scaffolds, Riva del Garda (Italy), July 12, 2013.
173. R. Müller. In silico mechanobiology of bone. Plenary Speaker, V International Congress on Computational Bioengineering (ICCB 2013), Leuven (Belgium), September 12, 2013.
174. R. Müller. Virtuelle Knochenbiopsien zur Vorhersage osteoporotischer Frakturen. Invited Speaker, Medical Waid Rounds, Stadtspital Waid, Zürich (Switzerland), September 24, 2013.
175. R. Müller. Time-lapsed imaging of transient bone biology. Invited Speaker, Weekly Seminary Series, Department of Rheumatology, University Hospital, Zürich (Switzerland), October 22, 2013.
176. R. Müller. Hierarchical imaging of musculoskeletal tissues. Keynote Speaker, Scanco User Meeting 2013, Appenzell (Switzerland), October 24, 2013.
177. R. Müller. Mechanobiology in bone tissue engineering and skeletal regeneration. Invited Speaker, Second Stepping Stone Symposium in Medical Technologies, Sino Swiss Science and Technology Cooperation (SSSTC) Initiative, Hangzhou (China), November 3, and Shanghai (China), November 6, 2013.
178. R. Müller. Virtual biopsy imaging in rodents: what have we learned about osteoporosis drug effects? Invited Speaker, International Bone Academy Meeting, Barcelona (Spain), March 8, 2014.
179. R. Müller. Flesh, bone, and synthetics: transforming medicine through engineering. Plenary Speaker, MIT Alumni Association/Swissnex Boston Event, Cambridge (USA), March 19, 2014.
180. R. Müller. Neue Arbeitswelten für die Wissenschaft. Invited Speaker, ETH Symposium 2014 "Neue Arbeitswelten für Innovationen und Effizienz", Weil am Rhein (Germany), April 2, 2014.
181. R. Müller. Imaging tissue engineering. Plenary Speaker, TERMIS-EU 2014 Annual Meeting, Genoa (Italy), June 11, 2014.
182. R. Müller. Mechanical systems biology of bone. Invited Speaker, Advances in the Molecular Pharmacology and Therapeutics of Bone Disease, Oxford (UK), June 30, 2014.
183. R. Müller. Microfluidic imaging of in vivo gene expression in mechanobiology. Invited Speaker, 7th World Congress of Biomechanics, Boston (USA), July 8, 2014.
184. R. Müller. In silico mechanobiology in a multiscale model of bone adaptation. Invited Speaker, 7th World Congress of Biomechanics, Boston (USA), July 10, 2014.
185. R. Müller. Functional imaging of musculoskeletal tissues. Keynote Speaker, 2014 Annual Meeting of the Swiss Society for Biomedical Engineering (SSBE), Zürich (Switzerland), August 27, 2014.
186. R. Müller. Systems mechanobiology of bone. Invited Speaker, 4th Japan-Switzerland Workshop on Biomechanics (JSB2014), Shima (Japan), September 2, 2014.
187. R. Müller. Form-function-relationship in bone at the tissue and cellular level. Plenary Speaker, 109. Tagung Anatomische Gesellschaft, Salzburg (Austria), September 25, 2014.

188. R. Müller. High-throughput cell imaging in bone systems biology. Invited Speaker, 20th International Bone Densitometry Workshop (IBDW 2014), Hong Kong, October 14, 2014.
189. R. Müller. In vivo bone imaging - from dynamic morphometry to systems biology. Invited Speaker, 7th International Conference on Osteoporosis and Bone (ICOBR), Xiamen (China), October 16, 2014.
190. R. Müller. High-throughput bone imaging in mechanical systems biology. Plenary Speaker, 5th Symposium of Academic Exchange and Collaborative Research, ETH Zürich/Hokkaido University, Zürich (Switzerland), November 27, 2014.
191. R. Müller. 4D-Knochenmikrostrukturanalyse. Invited Speaker, Osteologie 2015, Berlin (Germany), March 12, 2015.
192. R. Müller. Rolle von hr3DpQCT in der modernen Knochendiagnostik. Invited Speaker, Osteologie 2015, Berlin (Germany), March 13, 2015.
193. R. Müller. Hierarchical imaging of bone failure. Invited Speaker, XIIIth Congress of the International Society of Bone Morphometry (ISBM), Tokyo (Japan), April 28, 2015.
194. R. Müller. Skeletal systems mechanobiology. Perspective Talk, 21st Congress of the European Society of Biomechanics (ESB), Prague (Czech Republic), July 8, 2015.
195. R. Müller. The role of in vivo hr3DpQCT in modern bone diagnostics. Invited Speaker, Department of Orthopaedics and Traumatology, The Chinese University of Hong Kong, Hong Kong, November 13, 2015.
196. R. Müller. In silico mechanobiology of bone remodeling. Invited Speaker, MouseAGE Workshop on Modelling and Simulation in the Aging Mouse, Lisbon (Portugal), November 23, 2015.
197. R. Müller. Functional in vivo imaging of bone - from biomechanics to systems mechanobiology. Invited Speaker, Lecture Series, SFB Transregio 79, Giessen (Germany), November 25, 2015.
198. R. Müller. Towards customizable implants. Invited Speaker, Go Life in Future Orthopaedics 2015 Conference. Gothenburg (Sweden), December 11, 2015.
199. R. Müller. Künstliche Knochen aus dem Drucker. Invited Speaker, Treffpunkt Science City - Der unperfekte Mensch, Zürich (Switzerland), March 6, 2016.
200. R. Müller. Effects of bone (re)modelling on bone strength and mechanotransduction. Invited Speaker, International Bone Academy Meeting, Barcelona (Spain), March 11, 2016.
201. R. Müller. From skeletal systems mechanobiology to predictive medicine. Invited Speaker, EAMBES Fellows Meeting - The Future of Biomedical Engineering in Europe: To the Horizon and Beyond, Brussels (Belgium), March 15, 2016.
202. R. Müller. LivE imaging and in silico modelling in the aging mouse. Keynote Speaker, Annual Meeting MouseAGE, Madrid (Spain), April 12, 2016.
203. R. Müller. LivE imaging for in vivo cellular profiling. Invited Speaker, 43rd Annual European Calcified Tissue Society Congress (ECTS 2016), Rome (Italy), May 15, 2016.
204. R. Müller. Reducing the use of animals by in vivo imaging of bone and blood vessels. Keynote Speaker, European Cells and Materials XVII, Davos (Switzerland), June 22, 2016.
205. R. Müller. 3D printing of biological tissues. Invited Speaker, Summer School on Biomaterials and Regenerative Medicine, Riva del Garda (Italy), July 7, 2016.
206. R. Müller. Longitudinal in vivo imaging of tissue regeneration. Invited Speaker, Summer School on Biomaterials and Regenerative Medicine, Riva del Garda (Italy), July 8, 2016.
207. R. Müller. Against the motion: microdamage is good for bone. Invited Speaker, ASBMR/ECTS Clinical Debate, ASBMR 2016 Annual Meeting, Atlanta (USA), September 16, 2016.
208. R. Müller. A Wolff in mice clothing or how bones have grown ears. Russel Severance Springer Lecture, Department of Mechanical Engineering, University of California, Berkeley (USA), September 30, 2016.
209. R. Müller. Systems mechanobiology of bone using LivE imaging. Invited Speaker, Core Center for Musculoskeletal Biology and Medicine, University of California, San Francisco (USA), November 10, 2016.
210. R. Müller. In silico simulation of bone remodeling and adaptation - of mice and men. Invited Speaker, Auckland Bioengineering Institute (ABI), University of Auckland, Auckland (New Zealand), December 2, 2016.
211. R. Müller. Bone systems mechanobiology using LivE imaging. Keynote Speaker, 10th Australasian Biomechanics Conference (ABC10), Melbourne (Australia), December 5, 2016.
212. R. Müller. Systems mechanobiology in bone tissue engineering and skeletal regeneration. Invited Speaker, 2016 ARMI External Speaker Series, Australian Regenerative Medicine Institute (ARMI), Melbourne (Australia), December 7, 2016.
213. R. Müller. How to make bones stronger: a bioengineering view. Invited Speaker, Bone Academy Mexico 2017, Cancún (Mexico), January 26, 2017.
214. R. Müller. Microdamage: the good, the bad and the ugly. Invited Speaker, Bone Academy Mexico 2017, Cancún (Mexico), January 27, 2017.
215. R. Müller. A Wolff in mice clothing or how bones have grown ears. Invited Speaker, Indiana Bone and Mineral Seminar, Indiana Center for Musculoskeletal Health, Indiana University Medical School, Indianapolis (USA), March 28, 2017.
216. R. Müller. Skeletal systems mechanobiology of bone adaptation. Invited Speaker, XO Seminar Series, NASA Ames Research Center, Moffet Field (USA), April 6, 2017.

217. R. Müller. Systems mechanobiology of bone remodeling and adaptation. Keynote Speaker, 5th International Conference on Computational and Mathematical Biomedical Engineering (CMBE), The University Club, University of Pittsburgh, Pittsburgh (USA), April 10, 2017.
218. R. Müller. Time-lapsed in vivo imaging of bone adaptation and repair. Invited Lecturer, Musculoskeletal Imaging, Masters in Biomedical Imaging (MSBI) Program, University of California, San Francisco (USA), April 25, 2017.
219. R. Müller. Improving your skills: combining imaging methods to maximise results. Invited Panellist "New Investigator Mentoring Session", 44th Annual European Calcified Tissue Society Congress (ECTS 2017), Salzburg (Austria), May 15, 2017.
220. R. Müller. Skeletal systems mechanobiology and personalized medicine. Plenary Speaker, SOCS Plenary Research Seminars, School of Clinical Sciences, Southmead Hospital, Bristol University, Bristol (UK), May 23, 2017.
221. R. Müller. Vibrationstherapie oder wie die Knochen hören lernten. Viktor Kaplan Lecturer, Austrian Academy of Sciences (öAW), Vienna (Austria), May 31, 2017.
222. R. Müller. Multiscale bone biomechanics - from time-lapsed imaging to systems mechanobiology. Invited Speaker, Musculoskeletal Medical Engineering Center Seminar Series, Department of Bioengineering, Imperial College London, London (UK), June 2, 2017.
223. R. Müller. Multiscale computational biomechanics and simulation in the skeletal system. Plenary Speaker, INSIGNEO Seminar Series, Sheffield University, Sheffield (UK), June 8, 2017.
224. R. Müller. Bone mechanomics and in silico modelling in the aging mouse. Plenary Speaker, Mellanby Centre Seminar Series, Sheffield University, Sheffield (UK), June 9, 2017.
225. R. Müller. How to make bones stronger: a bioengineering view. Invited Speaker, Bone Academy Brazil, 2017, Rio de Janeiro (Brazil), July 20, 2017.
226. R. Müller. Microdamage: the good, the bad and the ugly. Invited Speaker, Bone Academy Brazil, 2017, Rio de Janeiro (Brazil), July 21, 2017.
227. R. Müller. Bone biomechanical imaging. Invited Speaker, Zeiss Global Centre, University of Portsmouth, Portsmouth (UK), August 21, 2017.
228. R. Müller. Advanced imaging and multi-scale modeling in skeletal systems mechanobiology and personalized medicine. Keynote Speaker, ICCB 2017, VII International Congress on Computational Bioengineering, Compiègne (France), September 6, 2017.
229. R. Müller. Multiscale bone biomechanics - from systems mechanobiology to personalized medicine. Invited Speaker, 5th Japan-Switzerland Workshop on Biomechanics (JSB2017), Zermatt (Switzerland), September 15, 2017.
230. R. Müller. Bone LivE imaging - from systems mechanobiology to personalized medicine. Invited Speaker, Department for BioMedical Research Conference, University of Berne, Berne (Switzerland), December 4, 2017.
231. R. Müller. A Wolff in mice clothing or how bones have grown ears. Invited Speaker, Spine Research Program, Icahn School of Medicine at Mount Sinai, New York (USA), December 18, 2017.
232. R. Müller. Lost in medical translation? Invited Speaker, LSZ Impact - Translational Medicine in Zurich, Zürich (Switzerland), January 22, 2018.
233. R. Müller. Preclinical in vivo microCT imaging. Invited Speaker, Workshop on In vivo MicroCT Imaging: Longitudinal Assessment of Skeletal Microstructure, Strength, and (Re)modeling Dynamics, ORS 2018 Annual Meeting, Orthopedic Research Society (ORS), New Orleans (USA), March 13, 2018.
234. R. Müller. Cell-based in silico modeling of bone regeneration. Invited Speaker, CompBioMed All-Hands Meeting, Amsterdam (UK), March 27, 2017.
235. R. Müller. In vivo mechanomics of bone adaptation and regeneration in the aging mouse. Invited Speaker, Workshop on Bone Bioengineering, Regeneration and Implants, 45th Annual European Calcified Tissue Society Congress (ECTS 2018), Valencia (Spain), May 25, 2018.
236. R. Müller. Bone modelling and mechanobiology: new perspectives for fracture management. Invited Speaker, UBC Lunch-Time Symposium, 45th Annual European Calcified Tissue Society Congress (ECTS 2018), Valencia (Spain), May 27, 2018.
237. R. Müller. Imaging Wolff's law, 10th Year Anniversary Symposium on "Musculoskeletal Regeneration in Compromised Patients", Julius Wolff Institute, Berlin (Germany), June 15, 2018.
238. R. Müller. Time-lapsed in vivo imaging of tissue remodeling and regeneration. Invited Speaker, Summer School on Biomaterials and Regenerative Medicine, Trento (Italy), June 20, 2018.
239. R. Müller. Biomimetic 3D printing of bone. Plenary Speaker, 1st International Conference on Materials, Mimicking, Manufacturing from and for Bio Application (BioM&M 2018), Milan (Italy), June 28, 2018.
240. R. Müller. Time-lapsed in vivo imaging of bone adaptation and regeneration. Keynote speaker, 8th World Congress of Biomechanics, Session "In vivo bone remodeling and mechanics", Dublin, Ireland, July 9, 2018.
241. R. Müller. Multiscale bone mechanobiology in aging. Keynote speaker, 8th World Congress of Biomechanics, Session "Multiscale biomechanics of age-related bone fragility", Dublin, Ireland, July 9, 2018.

242. R. Müller. Building stronger bones. Invited speaker, Amgen Lunch-Time Symposium "Innovation in Bone Metabolism", Congresso Brasileiro de Densitometria Osteoporose e Osteometabolismo (8th BRADOO), São Paulo, Brazil, October 11, 2018.
243. R. Müller. Is there an aging effect in the response to mechanical stimulus? Invited speaker, Congresso Brasileiro de Densitometria Osteoporose e Osteometabolismo (8th BRADOO), São Paulo, Brazil, October 11, 2018.
244. R. Müller. Mechanical stimuli in the local in vivo environment in bone. Plenary speaker, Conferência Internacional, Congresso Brasileiro de Densitometria Osteoporose e Osteometabolismo (8th BRADOO), São Paulo, Brazil, October 11, 2018.
245. R. Müller. Is it possible to evaluate biomechanical strength in humans? Invited speaker, Congresso Brasileiro de Densitometria Osteoporose e Osteometabolismo (8th BRADOO), São Paulo, Brazil, October 12, 2018.
246. R. Müller. Vibrationstherapie - Einfluss auf Knochen und Implantat. Invited Speaker, Reha Schweiz Jahreskongress 2018, Zürich (Switzerland), October 25, 2018.
247. R. Müller. Bone tissue engineering - towards personalized human organoids. Invited Speaker, Clinical Biochemical Colloquium, Children's Hospital Zürich, Zürich (Switzerland), December 3, 2018.
248. R. Müller. In vivo mechanomics of bone adaptation and regeneration in aging. Invited Speaker, MeccPhD Lecture Series, Dipartimento di Meccanica, Politecnico di Milano, Milan (Italy), January 25, 2019.
249. R. Müller. Micro-3D printing of osteocyte organoid models. Invited Speaker, TERMIS-EU 2019 Annual Meeting, Rhodes (Greece), May 28, 2019.
250. R. Müller. 3D bioprinting of personalized human bone organoids. Invited Speaker, Clinical Colloquium Regenerative Medicine, University of Zürich, Schlieren (Switzerland), June 27, 2019.
251. R. Müller. Personalized human bone organoids - from stem cells to bioprinting. Invited Speaker, Departement "Materials meet Life", EMPA, St. Gallen (Switzerland), July 4, 2019.
252. R. Müller. Of mice and men, Wolffs and bones. Huiskes Medal Lecture, 25th Congress of the European Society of Biomechanics, Vienna (Austria), July 9, 2019.
253. R. Müller. From mechanics to mechanomics: a journey through bone. Muybridge Award Lecture ([Video](#)), XXVII Congress of the International Society of Biomechanics (ISB2019), Calgary (Canada), August 3, 2019.
254. R. Müller. Synchrotron imaging for bone research, Invited Speaker, 5th Joint Meeting of the Bone Research Society (BRS) and the British Orthopaedic Research Society (BORS), Cardiff (UK), September 6, 2019.
255. R. Müller. A Wolff in mouse clothing - how bones have grown ears. NUSS Professorship Lecture, National University of Singapore, Singapore, October 21, 2019.
256. R. Müller. Towards human bone organoids - from stem cells to bioprinting. Plenary Lecture, 7th Belgian Symposium on Tissue Engineering, Hasselt, Belgium, November 14, 2019.
257. R. Müller. Wie die Knochen hören lernten: Vibrationstherapie im Alter. Invited Speaker, 5. Solothurner Vortragszyklus, Solothurn (Switzerland), November 21, 2019.
258. R. Müller. A glimpse to fundamental omics research in the year 2030: technological innovations. Keynote Speaker, Annual Meeting Gemstone, St. Julian's (Malta), November 27, 2019.
259. R. Müller. 3D matrices and human bone organoids: on the path to personalization. Plenary Lecture, Joint CNRS/INSERM Symposium "From 3D Culture to Organoids", GDR "Réparer l'Humain", Paris (France), December 2, 2019.
260. R. Müller. Der Wolff in uns oder wie die Knochen hören lernten. Invited Speaker, 30 Jahre Biomechanik, Institute for Orthopaedic Research and Biomechanics, University Ulm, Ulm (Germany), July (cancelled due to Covid-19), 2020.
261. R. Müller. Biomechanics and imaging for bone - from mechanics to mechanomics. Invited Speaker, Virtual Workshop on "Mathematics of the MusculoSkeleton: Post-Genome Analysis for Bone Biology", Azrieli Faculty of Medicine, Bar-Ilan University, Ramat Gan (Israel), Online, December 14, 2020.
262. R. Müller. Of mice and men, Wolffs and bones. Invited Speaker, Avioli Musculoskeletal Seminar Series, Musculoskeletal Research Center, Washington University, St. Louis (USA), Online, February 5, 2021.
263. R. Müller. Targeting the mechanomics of bone adaptation and regeneration. Keynote Lecture, 5th Barcelona VPH Summer School, Virtual Physiological Human Institute (VPHi) and Universitat Pompeu Fabra, Barcelona (Spain), Online, June 9, 2021.
264. R. Müller. Advances in multiscale bone biomechanics and mechanobiology. Invited Mini Lecture Series, Summer Doctoral School in "Advances in Biomechanics", Italian Group for Analysis of Stress, Ferrara (Italy), Online, June 16, 2021.
265. R. Müller. Bone biomechanics: osteocytes. Invited Speaker, ECTS-GEMSTONE Digital Masterclass for PhD Students, Trainees and Young Investigators, Online, August 24, 2021.
266. R. Müller. Multiscale Live imaging of bone remodeling and regeneration. Invited Speaker, Virtual Conference of the COMULIS Network 2021, Session on "Imaging Across Scales", Gothenburg (Sweden), Online, September 3, 2021.
267. R. Müller. Spatial mechanomics of in vivo bone adaptation and regeneration. Invited Speaker, 29th Annual Meeting European Orthopaedic Research Society (EORS), Symposium on "Musculoskeletal Mechanobiology", Rome (Italy), September 15-17, 2021.

268. R. Müller. Imaging the aging skeleton. Invited Speaker, ASBMR Symposium on “Biology of the Aging Skeleton - Implications for Fracture Prevention”, San Diego (USA), Online, September 30, 2021.
269. R. Müller. Targeting the mechanomics of bone adaptation and regeneration. Keynote Lecture, 5th Barcelona VPH Summer School, Virtual Physiological Human Institute (VPHi) and Universitat Pompeu Fabra, Barcelona (Spain), Online, June 9, 2021.
270. R. Müller. Spatial mechanomics of bone adaptation and regeneration. Invited Speaker, Mechano-Genomics Seminar, ETH Zürich, Zürich (Switzerland), October 21, 2021.
271. R. Müller. Forschungsaspekte der Frakturheilung auf mikroskopischer Ebene. Invited Speaker, 3. Symposium der Chirurgischen Klinik, Spital Uster, Uster (Switzerland), November 4, 2021.
272. R. Müller. Multiscale mechanobiology in bone adaptation and regeneration. Invited speaker, FIDEDLIO Webinar Series, Online, November 25, 2021.
273. R. Müller. Bone microstructural imaging: from mechanics to mechanomics. Invited Speaker, Seminar Series, Department of Oncology and Metabolism, University of Sheffield, Sheffield (UK), Online, February 25, 2022.
274. R. Müller. Targeting spatial mechanomics of in vivo bone adaptation and regeneration. Invited Speaker, Third Achilles Conference, Biophysical and Biological Cues in Orthopaedics, Dublin (Ireland), April 6-7, 2022.
275. R. Müller. Bone microarchitecture: adapting to requirements. Invited Speaker, Collegium Helveticum, Workshop on “Aesthetics, Design and Function in Nature and Engineered Products”, Zürich (Switzerland), May 2, 2022.
276. R. Müller. Imaging in fracture healing. Invited Speaker, 49th Annual European Calcified Tissue Society Congress (ECTS 2022), ECTS-ORS Workshop: Proceedings in Orthopedic Bone Research, Helsinki (Finland), May 25, 2022.
277. R. Müller. The anatomical significance of bone modeling and remodeling. Invited Speaker, 49th Annual European Calcified Tissue Society Congress (ECTS 2022), Chair, UCB Corporate Industry Symposium: The Basis of Bone-Building, Helsinki (Finland), May 27, 2022.
278. R. Müller. Spatial mechanomics of multiscale bone adaptation and regeneration. Invited Speaker, International Symposium on “Biomechanics: Challenges of the Next Decade”, Graz (Austria), July 1, 2022.
279. R. Müller. Multiscale mechanobiology in bone regeneration. Invited Speaker, XVth Congress of the International Society of Bone Morphometry (ISBM), Odense (Denmark), July 12, 2022.
280. R. Müller. Multiscale quantification of spatial bone mechanobiology. Invited Speaker, Gordon Research Conference on Musculoskeletal Biology and Bioengineering - Accelerating Discovery in the Musculoskeletal System, Andover (USA), August 9, 2022.
281. R. Müller. Single-cell spatial biology in bone adaption and regeneration. Invited Speaker, ASBMR 2022 Annual Meeting, American Society of Bone and Mineral Research (ASBMR), IFMRS Session on “New frontiers in musculoskeletal data”, Austin (USA), September 9, 2022.
282. R. Müller. Multiscale bone biomechanics and imaging. Invited speaker, Early Career Investigators Webinar Series, International Society of Bone Morphometry (ISBM), Online, June 29, 2023.
283. R. Müller. Imaging mechanobiology at the tissue level in translational sciences. Invited Speaker, 50th International Musculoskeletal Biology Workshop, Orthopaedic Research Society (ORS), Zermatt (USA), July 22-26, 2023.
284. R. Müller. 3D bioprinting of personalized human bone organoids. Invited Speaker, SMCR Seminar, Faculty of Advanced Life Science, Hokkaido University, Sapporo (Japan), August 28, 2023.
285. R. Müller. From biomechanics to bone mechanobiology. Invited Speaker, 6th Japan-Switzerland Workshop on Biomechanics (JSB2023), Otaru, Hokkaido (Japan), August 30, 2023.
286. R. Müller. 3D bioprinting of personalized human bone organoids. Invited Speaker, Laboratory of Micro-Biomechanics, Division of Mechanical and Aerospace Engineering, Hokkaido University, Sapporo (Japan), September 4, 2023.
287. R. Müller. Micro-multiphysics agent-based modeling for the exploration of bone remodeling mechanisms and mechanoregulation in aging. Plenary Speaker, ICCB 2023, X International Congress on Computational Bioengineering, Vienna (Austria), September 21, 2023.
288. R. Müller. 3D bioprinting of human bone organoids for personalized medicine and rare diseases. Invited Speaker, International Seminar Series, Faculty of Biology and Medicine, University of Lausanne, Lausanne (Switzerland), September 26, 2023.
289. R. Müller. In silico prediction of response to osteoporosis treatment. Invited Speaker, ASBMR 2023 Annual Meeting, American Society of Bone and Mineral Research (ASBMR), Session on “New Insights into Osteoporosis Treatment”, Vancouver (Canada), October 15, 2023.
290. R. Müller. RETHINKING Regeneration. Panelist, ETH Meets Berlin 2023, Berlin Science Week, Berlin (Germany), November 3, 2023.
291. R. Müller. In vivo bone imaging: from mechanics to mechanomics. Keynote Speaker, Scanco User Meeting 2023, Appenzell (Switzerland), November 16, 2023.
292. R. Müller. Imaging the healing. 14th BSRT Symposium, The Olympic games of regeneration. Berlin School for Regenerative Therapies, Berlin (Germany), December 6, 2023.

293. R. Müller. Spatial mechanomics in the aging skeleton. Invited Speaker, EMBO Workshop on Mechano-Genomics, Sardinia (Italy), April 19, 2024.
294. R. Müller. Against the motion: Classical bone histomorphometry provides better functional information than emerging imaging techniques. Invited Speaker, ECTS/ASBMR Basic Science Debate, 51st Annual European Calcified Tissue Society Congress (ECTS 2024), Marseille (France), May 26, 2024.
295. R. Müller. Spatial imaging and transcriptomics. Invited Speaker, Basic Update Ancillary Programme, 51st Annual European Calcified Tissue Society Congress (ECTS 2024), Marseille (France), May 28, 2024.
296. R. Müller. Simulated sequential therapy. Invited Speaker, International Bone Academy Meeting, Barcelona (Spain), June 28, 2024.
297. R. Müller. Spatial imaging of bone metastasis and regeneration. Plenary Speaker, CABS 2024, Cancer and Bone Society (CABS), Sheffield (UK), July 14, 2024.
298. R. Müller. 3D bioprinting of organotypic bone fracture models for personalized medicine. Invited Speaker, Scientific Annual Retreat Max Planck Queensland Centre (MPQC), Noosa Heads (Australia), October 31, 2024.
299. R. Müller. For the motion: Utilising AI regularly in medical research and clinical practice will result in more benefits than drawbacks. Invited Speaker, ANZBMS/ESA/SRB Debate, Annual Scientific Meeting Australian and New Zealand Bone and Mineral Society (ANZBMS), Adelaide (Australia), November 13, 2024.
300. R. Müller. Bone. Invited Discussion Leader, Gordon Research Conference on Tissue Microstructure Imaging, Stonehill College (USA), August 13-18, 2025.
301. R. Müller. Wie die Knochen hören lernen: Vibrationstherapie bei Osteoporose und die Mechanik knöcherner Grenzflächen. Public Lecture, Leopoldina Symposium on Skeletal Interfaces in Health and Disease, Salzburg (Austria), October 9, 2025.

 118. P. Thurner, P. Wyss, A. Obrist, U. Sennhauser and R. Müller. Image guided fatigue assessment of bovine trabecular bone using synchrotron radiation (SR). Abstracts 13th Annual Meeting Europ. Orthop. Res. Soc., Helsinki, Finland, June 4-7, Trans. Europ. Orthop. Res. Soc., 13:14, 2003.
 119. G. H. van Lenthe, M. Stauber, S. J. Hollister and R. Müller. Internal scaffold architecture influences bone ingrowth. Abstracts 13th Annual Meeting Europ. Orthop. Res. Soc., Helsinki, Finland, June 4-7, Trans. Europ. Orthop. Res. Soc., 13:40, 2003.
 120. E. Smith, T. Meyerrose, T. Kohler, J. Nolte, R. Müller and B. Frenkel. Enhanced trabecular bone mass and architecture in transgenic mice constitutively over-expressing histone H4-derived osteogenic growth peptide. Abstracts International Bone and Mineral Society and Japanese Society for Bone and Mineral Research, Osaka, Japan, June 3-7, Bone, 22:S94, 2003.
 121. G. H. van Lenthe, T. Kohler, L. R. Donahue and R. Müller. Functional phenomics of bone: high-throughput determination of bone strength. Abstracts 25th Annual Meeting ASBMR, Minneapolis, USA, J. Bone Miner. Res., 18:S122, 2003.
 122. C. D. Arnaud, S. Liew, D. Steines, A. Nazarian, R. Müller, B. J. Linder and P. Lang. Correlation of 2D trabecular structure parameters with 3D μ CT and measurements of bone strength in femoral bone cores. Abstracts 25th Annual Meeting ASBMR, Minneapolis, USA, J. Bone Miner. Res., 18:S56, 2003.
 123. Y. Gabet, D. Kohavi, R. Müller, M. Chorev and I. Bab. Human parathyroid hormone 1-34 reverses bone loss in orchidectomized adult rats mainly by vastly increasing trabecular thickness. Abstracts 25th Annual Meeting ASBMR, Minneapolis, USA, J. Bone Miner. Res., 18:S386, 2003.
 124. Y. Gabet, D. Kohavi, T. Kohler, R. Müller and I. Bab. Micro-computed tomographic analysis of endosseous titanium implant integration: a novel approach for assessing the anchorage of titanium implants in bone. Abstracts 25th Annual Meeting ASBMR, Minneapolis, USA, J. Bone Miner. Res., 18:SU188, 2003.
 125. O. Ofek, M. Fogel, M. Attar-Namdar, Y. Tam, R. Müller, R. Mechoulam, E. Shohami and I. Bab. Endocannabinoid regulation of bone remodeling. Abstracts 25th Annual Meeting ASBMR, Minneapolis, USA, J. Bone Miner. Res., 18:S69, 2003.

126. R. Müller. Hierarchische Mikrotomographie. Abstracts Combined Annual Meeting of the Swiss Society of Microtechnology and the Swiss Society of Biomedical Engineering, Buchs, Switzerland, October 9-10, p. 8, 2003.
127. M. Stampanoni, R. Abela, A. Bertrand, S. Hunt, R. Krempaska, B. Patterson, P. Wyss, U. Sennhauser, P. Thurner, P. Schneider, R. Müller, E. P. Meyer, T. Krucker and C. Bron. Absorption and phase contrast microtomography at the swiss light source. Abstracts 65. Jahresversammlung der Schweizerischen Gesellschaft für Anatomie, Histologie und Embryologie, Lausanne, Switzerland, October 10, p. 31, 2003.
128. R. Müller. Functional phenomics of murine bones. Abstracts Fall Meeting of the Swiss Society of Pharmacology and Toxicology, Basle, Switzerland, October 27-28, p. 2, 2003.
129. E. P. Meyer, M. Stampanoni, R. Müller, P. Schneider, M. Staufenbiel and T. Krucker. Three-dimensional assessment of pathological changes of brain vasculature in a transgenic mouse model for Alzheimer's disease using synchrotron radiation-based micro-computed tomography. Abstracts 4th Swiss Light Source Users Meeting, Paul Scherrer Institut, Villigen, Switzerland, October 30-31, p. 58, 2003.
130. E. P. Meyer, M. Stampanoni, R. Müller, P. Schneider, M. Staufenbiel and T. Krucker. Three-dimensional assessment of pathological changes of brain vasculature in APP transgenic mice using synchrotron radiation-based micro-computed tomography. Abstracts Annual Meeting Neuroscience Society, New Orleans, USA, November 8-12, 842:24, 2003.
131. S. J. Hollister, G. H. van Lenthe, C. L. Flanagan, A. Kasemkhani, T. M. Chu, J. M. Taboas, R. Müller, P. H. Krebsbach and S. E. Feinberg. Is there an optimal pore size and shape for bone regeneration? Abstracts 6th Annual International Conference and Exposition of the Tissue Engineering Society International, Orlando, USA, December 10-13, 2003.
132. R. Müller and G. H. van Lenthe. Hierarchical bioimaging in the assessment of bone quality and the competence of bone. Abstracts 6th International Symposium on Computer Methods in Biomechanics and Biomedical Engineering, February 25-28, Madrid, Spain, 209, 2004.
133. G. H. van Lenthe, R. Voide, T. Kohler, L. R. Donahue and R. Müller. Functional phenomics in genetic studies - a combined experimental and simulation approach for high-throughput characterization of bone. Abstracts 6th International Symposium on Computer Methods in Biomechanics and Biomedical Engineering, February 25-28, Madrid, Spain, 98, 2004.
134. A. Alonso Vázquez, G. H. van Lenthe, M. Taylor and R. Müller. Comparison of μ CT measurements and FE predictions of localised failure in a cancellous bone analogue material. Abstracts 6th International Symposium on Computer Methods in Biomechanics and Biomedical Engineering, February 25-28, Madrid, Spain, 50, 2004.
135. S. J. Hollister, C. L. Flanagan, A. Kasemkhani, H. van Lenthe, T.-M. Chu, J. M. Taboas, R. Müller, P. H. Krebsbach and S. E. Feinberg. Scaffold pore design effects on bone ingrowth and stiffness. Abstracts General Session of the International Association of Dental Research and American Association of Dental Research, Honolulu, USA, March 10-13, 46:280, 2004.
136. R. Müller. Functional imaging of microstructural bone failure. Abstracts Third Clare Valley Bone Meeting, International Society for Fracture Repair, Clare, Australia, March 21-25, 2004.
137. J. Goldhahn, M. Stauber, M. Reinhold, M. Gabriel and R. Müller. Non-destructive assessment of trabecular microstructure in the lumbar spine. Abstracts IOF World Congress on Osteoporosis, Rio de Janeiro, Brazil, May 14-18, Osteoporosis Int., 15:S6, 2004.
138. T. J. Noh, E. Smith, T. E. Myerrose, T. Kohler, M. Namdar-Attar, N. Bab, O. Lahat, J. A. Nolta, R. Müller, I. Bab and B. Frenkel. Histone H4 alternative translation stimulates bone mass accrual. Abstracts Scientific Meeting on Advances in Skeletal Anabolic Agents for the Treatment of Osteoporosis, The Hyatt Regency Bethesda, Bethesda, USA, May 24-25, 34, 2004.
139. B. Frenkel, E. Smith, T. E. Myerrose, T. Kohler, M. Namdar-Attar, C. Lahat, T. J. Noh, J. A. Nolta, R. Müller and I. Bab. Enhanced trabecular bone mass and architecture in mice over-expressing ATG1-To-TTG1 mutant histone H4 transgene. Abstracts 31st European Symposium on Calcified Tissues, Nice, France, June 5-9, Calcif. Tissue Int., 74:S30, 2004.
140. R. Müller. What can we expect from microCT imaging now and in the future? Abstracts 16th International Bone Densitometry Workshop, Annecy, France, June 20-24, 77, 2004.
141. H. van Lenthe, R. Voide, T. Kohler, L. R. Donahue and R. Müller. Computational and experimental analyses for high-throughput characterization of bone competence. Abstracts 16th International Bone Densitometry Workshop, Annecy, France, June 20-24, 165, 2004.
142. H. van Lenthe, M. Stauber and R. Müller. Trabecular bone mechanical properties are accurately predicted using a fast and efficient FE beam model. Abstracts 16th International Bone Densitometry Workshop, Annecy, France, June 20-24, 96, 2004.
143. C. Mattmann, A. Kuhn, J. A. Gasser, R. Müller and S. Boyd. Site specific micro-architectural bone changes with in vivo computed tomography. Abstracts 16th International Bone Densitometry Workshop, Annecy, France, June 20-24, 84, 2004.
144. R. Müller. Time-lapsed microstructural imaging of bone function. Abstracts IUTAM Symposium on "Mechanics of Biological Tissue", Graz, Austria, June 27-July 2, 55, 2004.

145. T. Kohler, E. Smith, T. Meyerrose, J. Nolte, R. Müller, I. Bab and B. Frenkel . Enhanced trabecular bone in transgenic mice overexpressing osteogenic growth peptide. Abstracts 2004 Annual Meeting, Swiss Society for Biomedical Engineering, Zürich, September 2-3, 4, 2004.
146. S. Schweizer, P. Schneider and R. Müller. Phantom development for micro-computed tomography. Abstracts 2004 Annual Meeting, Swiss Society for Biomedical Engineering, Zürich, September 2-3, 31, 2004.
147. S. Heinzer, T. Krucker, E. P. Meyer, A. Schuler, M. Stamparoni, R. Abela and R. Müller. Framework for hierarchical bioimaging and quantification to study vascular alterations in mice modeling Alzheimer's disease. Abstracts 2004 Annual Meeting, Swiss Society for Biomedical Engineering, Zürich, September 2-3, 32, 2004.
148. D. J. Webster, E. Wasserman, S. Wechsler, F. Weber, I. Bab and R. Müller. Load induced adaptation in trabecular bone of C57BL/6 female mice. Abstracts 2004 Annual Meeting, Swiss Society for Biomedical Engineering, Zürich, September 2-3, 36, 2004.
149. R. Voide, G. H. van Lenthe and R. Müller. Design and evaluation of an alignment device for high-throughput mechanical testing of murine femora. Abstracts 2004 Annual Meeting, Swiss Society for Biomedical Engineering, Zürich, September 2-3, 41, 2004.
150. K. Stok and R. Müller. Morphometric analysis of articular cartilage in stem cell-mediated gene therapy using confocal laser scanning microscopy. Abstracts 2004 Annual Meeting, Swiss Society for Biomedical Engineering, Zürich, September 2-3, 45, 2004.
151. T. L. Mueller, J. Watson, J. Schense, N. H. Andrianaly, B. von Rechenberg and R. Müller. Minimally invasive delivery of osteogenic actives in degradable fibrin-based scaffolds for bone repair. Abstracts 2004 Annual Meeting, Swiss Society for Biomedical Engineering, Zürich, September 2-3, 46, 2004.
152. P. Schneider, M. Stauber, M. Stamparoni and R. Müller. Bone vasculature varies in the femoral diaphysis of two genetically distinct mouse strains (B6- and C.B6-lit/lit). Abstracts 2004 Annual Meeting, Swiss Society for Biomedical Engineering, Zürich, September 2-3, 49, 2004.
153. M. Stauber, M. Huber, S. K. Boyd and R. Müller. An FE beam-model for efficient simulation of large-scale porous structures. Abstracts 2004 Annual Meeting, Swiss Society for Biomedical Engineering, Zürich, September 2-3, 50, 2004.
154. B. Schäffer, Pascal Boivin, Martin Stauber, R. Müller and Rainer Schulin. Soil compaction of restored soil by agricultural machinery - mechanical and structural aspects. Abstracts EUROSOL 2004, Freiburg, Germany, September 4-12, 249, 2004.
155. P. Lehmann, B. Schäffer, R. Müller and H. Flühler. Effect of soil compaction on macropore structure and preferential flow. Abstracts EUROSOL 2004, Freiburg, Germany, September 4-12, 692, 2004.
156. A. Nazarian, J. Y. Rho, M. Grynpas, D. Zurakowski, R. Müller and B. D. Snyder. The effects of skeletal metastasis on bone tissue properties. Abstracts 28th Annual Meeting of the American Society of Biomechanics, Portland, USA, September 8-11, 2004.
157. V. Kram, E. Zcharia, O. Yacobi-Zeevi, Y. Gabet, R. Müller, I. Vlodavsky and I. Bab. Heparanase regulates osteoblast function and bone mass. Abstracts 26th Annual Meeting ASBMR, Seattle, USA, J. Bone Miner. Res., 19:S55, 2004.
158. S. K. Boyd, C. Mattmann, A. Kuhn, R. Müller and J. A. Gasser. A novel approach for monitoring and predicting bone microstructure in osteoporosis. Abstracts 26th Annual Meeting ASBMR, Seattle, USA, J. Bone Miner. Res., 19:S236, 2004.
159. P. Schneider, M. Stamparoni, L. R. Donahue and R. Müller. Bone vasculature as a new marker for bone quality varies within the femoral diaphysis of two genetically distinct mouse strains. Abstracts 26th Annual Meeting ASBMR, Seattle, USA, J. Bone Miner. Res., 19:S241, 2004.
160. G. H. van Lenthe, T. Kohler, R. Voide, L. R. Donahue and R. Müller. Functional phenomics in bone: high-throughput assessment of genetic differences in murine inbred strains. Abstracts 26th Annual Meeting ASBMR, Seattle, USA, J. Bone Miner. Res., 19:S390, 2004.
161. R. A. Battaglino, M. Joe, U. Späte, A. Sharma, D. Graves, T. Kohler, R. Müller and P. Stashenko. Role of the serotonin transporter (5-HTT) in bone metabolism. Abstracts 26th Annual Meeting ASBMR, Seattle, USA, J. Bone Miner. Res., 19:S64, 2004.
162. T. Noh, E. Smith, T. E. Myerrose, T. Kohler, M. Namdar-Attar, N. Bab, O. Lahat, J. A. Nolte, R. Müller, I. Bab and B. Frenkel. Transgenic mice constitutively expressing histone H4 gene display increased trabecular bone mass mediated by histone H4 alternative translation. Abstracts 26th Annual Meeting ASBMR, Seattle, USA, J. Bone Miner. Res., 19:S352, 2004.
163. M. Karsak, O. Ofek, M. Fogel, K. Wright, J. Tam, Y. Gabet, R. Birenboim, M. Attar-Namdar, R. Müller, M. Cohen-Solal, M. de Vernejoul, E. Shohami, R. Mechoulam, A. Zimmer and I. Bab. The cannabinoid CB2 receptor: a potential target for the diagnosis and treatment of osteoporosis. Abstracts 26th Annual Meeting ASBMR, Seattle, USA, J. Bone Miner. Res., 19:S383, 2004.
164. S. Heinzer, T. Krucker, E. P. Meyer, A. Schuler, M. Stamparoni, R. Abela and R. Müller. Framework for hierarchical bioimaging and quantification to study vascular alterations in mice modeling Alzheimer's disease. Abstracts 5th Swiss Light Source Users Meeting, Paul Scherrer Institut, Villigen, Switzerland, October 4-5, 50, 2004.

165. P. Schneider, M. Stauber, M. Stampanoni and R. Müller. Bone vasculature varies in the femoral diaphysis of two genetically distinct mouse strains (B6- and C.B6-lit/lit). Abstracts 5th Swiss Light Source Users Meeting, Paul Scherrer Institut, Villigen, Switzerland, October 4-5, 56, 2004.
166. E. P. Meyer, S. Heinzer, M. Stampanoni, A. Schuler, A. Mosley, R. Abela, P. Schneider, R. Müller, M. Staufenbiel and T. Krucker. Altered vascular architecture and morphology in cortex and hippocampus of APP23 transgenic mice modeling Alzheimer's disease. Abstracts Annual Meeting Neuroscience Society, San Diego, USA, October 23-27, 337.19, 2004.
167. R. J. Fajardo, R. Müller, R. Ketcham and M. Colbert. A 3D investigation of the mutual associations of trabecular architecture among anthropoid primates: do structural constraints on femoral neck trabecular architecture exist? Abstracts 64th Annual Meeting of the Society of Vertebrate Paleontology, Denver, USA, November 3-6, J. Vertebr. Paleontol., 24(S3):56A, 2004.
168. G. Kuhn, S. Heinzer, T. Krucker, E. Meyer, A. Schuler, M. Stampanoni, R. Müller, H. H. Marti, J. Vogel. 3-dimensional brain capillary network structure of mice overexpressing human VEGF165 in the brain. 85th Annual Meeting of the Deutsche Physiologische Gesellschaft, Göttingen, Germany, March 6-9, 2005.
169. R. J. Fajardo, R. Müller, R. Ketcham and M. Colbert. Allometry of anthropoid femoral neck trabecular architecture using 3D microCT. Abstracts 74th Annual Meeting of the American Association of Physical Anthropologists, Milwaukee, USA, April 6-9, Am. J. Phys. Anthropol., S40:101, 2005.
170. R. Müller. Trabecular bone failure at the microstructural level. Abstracts NIH/NIAMS-ASBMR Scientific Meeting on "Bone Quality: What Is It and Can We Measure It?", Bethesda, USA, May 2-3, 2005.

Abstracts 2008 Annual Meeting, Swiss Society for Biomedical Engineering, Muttentz, Switzerland, September 4-5, p. 39, 2008.
315. P. Schneider, R. Voide, L. R. Donahue and R. Müller. The ultrastructural canal network and bone mechanics in mice: a novel predictor for bone strength. Abstracts 2008 Annual Meeting, Swiss Society for Biomedical Engineering, Muttentz, Switzerland, September 4-5, p. 40, 2008.
316. E. Wasserman, D. Webster, M. Attar-Namdar, R. Müller and I. Bab. Differential isolation of RNA from mouse caudal trabecular osteoblast and osteocyte cell fractions. Abstracts 2008 Annual Meeting, Swiss Society for Biomedical Engineering, Muttentz, Switzerland, September 4-5, p. 45, 2008.
317. Y. Gabet, T. Noh, J. Cogan, A. Tank, T. Sasaki, B. Criswell, A. Dixon, J. Tam, T. Kohler, E. Segev, L. Kockeritz, J. Woodgett, R. Müller, Y. Chai, E. Smith, I. Bab and B. Frenkel. Crosstalk between AR and Wnt signaling mediates sexual dimorphism in bone mass accrual. Abstracts 30th Annual Meeting ASBMR, Montreal, Canada, J. Bone Miner. Res., 23:S35, 2008.
318. S. Kirmani, D. Christen, G. H. van Lenthe, P. Fischer, M. L. Bouxsein, B. L. Riggs, L. J. Melton III, S. Amin, R. Müller and S. Khosla. Finite element modeling reveals that transient deficits in cortical bone may underlie the adolescent peak in forearm fractures. Abstracts 30th Annual Meeting ASBMR, Montreal, Canada, J. Bone Miner. Res., 23:S51, 2008.
319. G. Kuhn, P. Schneider, B. Schuler, M. Meier, J. Vogel and R. Müller. Excessive erythropoiesis affects bone architecture. Abstracts 30th Annual Meeting ASBMR, Montreal, Canada, J. Bone Miner. Res., 23:S83, 2008.

320. Y. Gabet, R. Voide, T. L. Mueller, D. Kohavi, R. Müller and I. Bab. Dependence of endosseous implant anchorage on mechanostuctural determinants of peri-implant bone trabeculae. Abstracts 30th Annual Meeting ASBMR, Montreal, Canada, J. Bone Miner. Res., 23:S84, 2008.
321. D. Webster, E. Wasserman, F. Weber, I. Bab and R. Müller. Load induced changes in trabecular and cortical bone are dose dependent in both C57Bl/6 and C3H/HeJ mice. Abstracts 30th Annual Meeting ASBMR, Montreal, Canada, J. Bone Miner. Res., 23:S131, 2008.
322. A. Cohen, R. R. Recker, D. Dempster, H. Zhou, A. Wirth, T. Kohler, G. H. van Lenthe, R. Müller, J. LeMaster, J. Lappe, H. Eisenberg, D. J. McMahon and E. Shane. Marked abnormalities in cortical and trabecular microarchitecture and strength in premenopausal women with idiopathic osteoporosis: a bone biopsy study. Abstracts 30th Annual Meeting ASBMR, Montreal, Canada, J. Bone Miner. Res., 23:S451, 2008.
323. P. Schneider, R. Voide, L. R. Donahue and R. Müller. Murine bone mechanics is determined by the ultrastructural cannular network in a sex- and strain-specific manner. Abstracts 30th Annual Meeting ASBMR, Montreal, Canada, J. Bone Miner. Res., 23:S490, 2008.
324. R. Müller. Biomechanical imaging - a novel approach to assess bone structure and function. Abstracts Bioengineering 08, London, UK, September 18-19, p. 65, 2008.
325. K. A. Alexander, L. J. Raggatt, M. K. Chang, E. R. Maylin, R. Müller, T. Kohler, A. C. K. Wu, D. A. Hume and A. R. Pettit. Osteomacs are critical for optimal intramembranous bone formation in a tibial defect model of bone healing. Abstracts 2nd Joint Meeting of the International Bone & Mineral Society and the Australian and New Zealand Bone and Mineral Society, Sydney, Australia, March 22-25, Bone, 44(S1):S30, 2009.
326. I. H. Parkinson, A. Badiei, M. Stauber, R. Müller and N. L. Fazzalari. Trabecular rod and plate morphology improves prediction of vertebral body bone strength beyond bone density. Abstracts 2nd Joint Meeting of the International Bone & Mineral Society and the Australian and New Zealand Bone and Mineral Society, Sydney, Australia, March 22-25, Bone, 44(S1):S112, 2009.
327. K. S. Stok, G. Pelled, Y. Zilberman, I. Kallai, D. Gazit and R. Müller. Whole joint imaging allows quantification of bone and cartilage degeneration in a murine model of osteoarthritis. Abstracts 2nd Joint Meeting of the International Bone & Mineral Society and the Australian and New Zealand Bone and Mineral Society, Sydney, Australia, March 22-25, Bone, 44(S1):S156, 2009.
328. F. A. Gerhard, F. M. Lambers, G. Kuhn, and R. Müller. Quantification of bone formation and resorption rates by in vivo micro-computed tomography. Abstracts 36th European Symposium on Calcified Tissues, Vienna, Austria, May 23-27, Bone, 44(S2):S245, 2009.
329. F. M. Lambers, G. Kuhn, F. A. Gerhard and R. Müller. In vivo micro computed tomography allows monitoring of load induced microstructural bone adaptation. Abstracts 36th European Symposium on Calcified Tissues, Vienna, Austria, May 23-27, Bone, 44(S2):S300, 2009.
330. A. Ben-Arav, J. G. Snedeker, Y. Zilberman, Z. Gazit, R. Müller, G. Pelled and D. Gazit. Smad8/BMP-2 engineered mesenchymal stem cells induce rapid achilles tendon full defect regeneration. Abstracts 12th Annual Meeting of the American Society of Gene Therapy, San Diego, USA, May 27-30, Mol. Ther., 17:S267, 2009.
331. P. Schneider, R. Voide, M. Stauber, G. H. van Lenthe, M. Stamparoni and R. Müller. The cortical canal network is a strong predictor for bone microdamage. Abstracts XIth Congress International Society of Bone Morphometry, Zell am See, Austria, May 28-30, 30-31, 2009.
332. D. J. Webster, P. L. Morley, A. J. Wirth, G. H. van Lenthe and R. Müller. Finite element prediction of cortical and trabecular bone remodelling in an in vivo model of bone adaptation. Abstracts XXII Congress of the International Society of Biomechanics, Cape Town, South Africa, July 5-9, 29, 2009.
333. S. Lorenzetti, M. Stoop, T. Ukelo, H. Gerber, E. Stüssi and R. Müller. Angles and moments during unrestricted and restricted squats. Abstracts XXII Congress of the International Society of Biomechanics, Cape Town, South Africa, July 5-9, 280, 2009.
334. R. Müller. Hierarchical microimaging of bone structure and function. Abstracts Technology Forum, European Forum Alpbach, Alpbach, Austria, August 27-29, 2009.
335. F. A. Gerhard, F. M. Lambers, G. Kuhn and R. Müller. In vivo micro-computed tomography allows direct 3D dynamic bone morphometry. Abstracts 2009 Annual Meeting, Swiss Society for Biomedical Engineering, Bern, Switzerland, August 27-28, p. 2, 2009.
336. F. M. Lambers, K. Koch, F. A. Gerhard, G. Kuhn and R. Müller. Monitoring of ovariectomy-induced bone loss in the sixth caudal vertebra of mice with in vivo micro-computed tomography. Abstracts 2009 Annual Meeting, Swiss Society for Biomedical Engineering, Bern, Switzerland, August 27-28, p. 7, 2009.
337. E. Cooling, K. S. Stok and R. Müller. Development of a humidity chamber for μ CT and SLS measurements of articular cartilage samples. Abstracts 2009 Annual Meeting, Swiss Society for Biomedical Engineering, Bern, Switzerland, August 27-28, p. 22, 2009.
338. B. W. Thimm, S. Wüst, S. Hofmann, H. Hagenmüller and R. Müller. Maximization of ECM mineralization by human mesenchymal stem cells on silk fibroin scaffolds within short time in vitro. Abstracts 2009 Annual Meeting, Swiss Society for Biomedical Engineering, Bern, Switzerland, August 27-28, p. 25, 2009.

339. E. Schuh, H. Notbohm, R. Müller and N. Rotter. Maintenance of the chondrogenic phenotype on matrices with different degrees of stiffness. Abstracts 2009 Annual Meeting, Swiss Society for Biomedical Engineering, Bern, Switzerland, August 27-28, p. 27, 2009.
340. A. J. Wirth, T. L. Mueller, W. Vereecken, C. Flaig, P. Arbenz, R. Müller and G. H. van Lenthe. Microstructural finite element analysis accurately predicts primary implant stability. Abstracts 2009 Annual Meeting, Swiss Society for Biomedical Engineering, Bern, Switzerland, August 27-28, p. 28, 2009.
341. S. E. Basler, T. L. Mueller, R. Müller and G. H. van Lenthe. Visualization of implant failure in the femoral head. Abstracts 2009 Annual Meeting, Swiss Society for Biomedical Engineering, Bern, Switzerland, August 27-28, p. 29, 2009.
342. R. Carretta, S. Lorenzetti, E. Stüssi and R. Müller. Decrease in collagen content can be predicted from a numerical diffusion model in a single trabecula. Abstracts 2009 Annual Meeting, Swiss Society for Biomedical Engineering, Bern, Switzerland, August 27-28, p. 44, 2009.
343. D. Christen, S. Kirmani, G. H. van Lenthe, P. Fischer, M. L. Bouxsein, L. K. McCready, L. J. Melton III, B. L. Riggs, S. Amin, R. Müller and S. Khosla. Deficits in cortical bone may cause increased incidence of forearm fractures during adolescence. Abstracts 2009 Annual Meeting, Swiss Society for Biomedical Engineering, Bern, Switzerland, August 27-28, p. 45, 2009.
344. R. Müller. Biomechanical imaging of bone function. Abstracts Third Switzerland-Japan Workshop on Biomechanics 2009 (SJB 2009), Engelberg, Switzerland, September 1-4, p. 54, 2009.
345. F. M. Lambers, K. Koch, F. A. Gerhard, G. Kuhn and R. Müller. Three times per week loading induces more bone apposition than one time per week loading. Abstracts Third Switzerland-Japan Workshop on Biomechanics 2009 (SJB 2009), Engelberg, Switzerland, September 1-4, p. 78, 2009.
346. D. Christen, R. Voide, G. H. van Lenthe, S. Boyd and R. Müller. Strain mapping and deformable image registration to assess loading of the bone microstructure. Abstracts Third Switzerland-Japan Workshop on Biomechanics 2009 (SJB 2009), Engelberg, Switzerland, September 1-4, p. 80, 2009.
347. D. Ruffoni, R. Voide, T. Kohler, L. R. Donahue, R. Müller and G. H. van Lenthe. Assessing the heritability of biomechanical traits in growth hormone deficient inbred mice. 367. S. Hofmann, H. Hagenmüller and R. Müller. Continuous monitoring of growth of tissue engineered mineralized extracellular matrix in spinner flask bioreactors. Abstracts World Conference on Regenerative Medicine (WRM), Leipzig, Germany, October 29-31, Regenerative Medicine, 4(6s):S100, 2009.
368. I. Knippels, A. J. Wirth, T. L. Mueller, R. Müller and G. H. van Lenthe. Strength predictions of the human distal radius are affected by bone size and load application. Abstracts 8th Belgian Day on Biomedical Engineering, Brussels, Belgium, December 4, 2009.
369. A. Butscher, W. Hirsiger, N. Doeblin, M. Bohner and R. Müller. Printability of tricalcium phosphate powder for bone tissue engineering scaffolds. Abstracts 20th Interdisciplinary Research Conference on Biomaterials, GRIBOI 2010, Torino, Italy, March 25-27, 2010.
370. D. Ruffoni, R. Voide, T. Kohler, L. R. Donahue, R. Müller and G. H. van Lenthe. Bone mechanical competence is a highly heritable trait in a mouse model for growth hormone deficiency. Abstracts IOF World Congress on Osteoporosis and 10th European Congress on Clinical and Economic Aspects of Osteoporosis and Osteoarthritis, Florence, Italy, May 5-8, Osteoporos. Int, 21(S1):S289, 2010.
371. S. Wüst, B. W. Thimm, S. Hofmann and R. Müller. Influence of scaffold pore size on extracellular matrix production by human mesenchymal stem cells cultured on silk fibroin scaffolds. Abstracts 16th Swiss Conference on Biomaterials (SSB2010), Dübendorf, Switzerland, May 5, p. 5, 2010.
372. R. Müller. Biomechanical imaging - a hierarchical approach to assess bone structure and function. Abstracts 4th National Conference of the Hellenic Society of Biomechanics (ELEMBO), Ioannina, Greece, June 4-6, p. 37, 2010.
373. G. Kuhn, F. M. Lambers, F. A. Schulte, K. Koch, C. Weigt and R. Müller. Mimicking postmenopausal bone loss in tail vertebrae of mice. Abstracts 11th FELASA and 40th Scand-LAS Joint Meeting "New Paradigms in Laboratory Animal Science", Helsinki, Finland, June 14-17, p. 35, 2010.
374. G. Kuhn, F. A. Schulte, F. M. Lambers and R. Müller. In vivo assessment of bone formation and resorption rates. Abstracts 11th FELASA and 40th Scand-LAS Joint Meeting "New Paradigms in Laboratory Animal Science", Helsinki, Finland, June 14-17, p. 98, 2010.
375. J. Goldhahn, K. S. Stok, T. L. Mueller, R. Müller and C. Kolling. Bone micro-architecture of finger joints, measured with high-resolution pQCT, as a base for the development of new treatment strategies. Abstracts XVth Congress of FESSH, Bucharest, Romania, June 23-26, J. Hand Surg. Am., 35E(S1):A-0447, 2010.
376. F. A. Schulte, F. M. Lambers, D. J. Webster, G. Kuhn and R. Müller. Mechanostat theory is not suspended at the local level despite estrogen depletion in murine trabecular bone. Abstracts 37th European Symposium on Calcified Tissues, Glasgow, UK, June 26-30, OP35, 2010.
377. I. H. Parkinson, A. Badiei, M. Stauber, R. Müller and N. L. Fazzalari. Trabecular rod and plate morphology improves prediction of vertebral body bone strength beyond apparent bone density. Abstracts 37th European Symposium on Calcified Tissues, Glasgow, UK, June 26-30, PP041, 2010.

378. F. M. Lambers, K. Koch, F. A. Schulte, G. Kuhn and R. Müller. Ovariectomy increases bone formation rate as well as bone resorption rate in mouse tail vertebra. Abstracts 37th European Symposium on Calcified Tissues, Glasgow, UK, June 26-30, PP247, 2010.
379. J. Goldhahn, K. S. Stok, T. L. Mueller, R. Müller and C. Kolling. Imaging of finger micro-architecture with high-resolution pQCT for monitoring of erosive destructions and implant anchorage. Abstracts 70th Annual Meeting SGOT, Schweizerische Gesellschaft für Orthopädie und Traumatologie (SGOT), St. Gallen, Switzerland, June 30 - July 2, Swiss Med. Wkly., 140(23-24:S181):44, 2010.
380. K. Mader, P. Schneider, J.-Ph. Thiran, R. Müller and M. Stamparoni. Classification of vessel function through shape analysis of osteocyte lacunae. Abstracts 17th Congress of the European Society of Biomechanics (ESB), Edinburgh, UK, July 5-8, 035, 2010.
381. R. E. Sondergaard, K. S. Stok and R. Müller. Morphometric characterisation of murine subchondral bone - compartmental definitions for micro-computed tomographic analysis. Abstracts 17th Congress of the European Society of Biomechanics (ESB), Edinburgh, UK, July 5-8, 096, 2010.
382. D. Christen, S. Schori, A. Levchuk, P. Schneider and R. Müller. Strain mapping and deformable image registration for the assessment of cortical bone microdamage and fracture propagation. Abstracts 17th Congress of the European Society of Biomechanics (ESB), Edinburgh, UK, July 5-8, 111, 2010.
383. S. E. Basler, T. L. Mueller, R. Müller and G. H. van Lenthe. Primary implant loosening is caused by bone failure in close proximity of the bone-implant interface. Abstracts 17th Congress of the European Society of Biomechanics (ESB), Edinburgh, UK, July 5-8, 411, 2010.
384. S. Wüst, B. W. Thimm, S. Hofmann, H. Hagenmüller and R. Müller. Optimization of extracellular matrix production by human mesenchymal stem cells on silk fibroin scaffolds. Abstracts 17th Congress of the European Society of Biomechanics (ESB), Edinburgh, UK, July 5-8, 450, 2010.
385. R. Carretta, S. Lorenzetti, E. Stüssi and R. Müller. A validated system to test a single trabecula in different mechanical loading modes: similar response from bending and tensile tests. Abstracts 17th Congress of the European Society of Biomechanics (ESB), Edinburgh, UK, July 5-8, 454, 2010.
386. J. P. Moodie, K. S. Stok, R. Müller and S. Shefelbine. Joint laxity, bone and cartilage changes in the DMM model. Abstracts 17th Congress of the European Society of Biomechanics (ESB), Edinburgh, UK, July 5-8, 476, 2010.
387. P. Schneider, R. Voide, M. Stauber, G. H. van Lenthe, M. Stamparoni and R. Müller. The importance of bone ultrastructure for microdamage accumulation. Abstracts 17th Congress of the European Society of Biomechanics (ESB), Edinburgh, UK, July 5-8, 479, 2010.
388. D. Ruffoni, J. Steiner, A. J. Wirth, R. Müller and G. H. van Lenthe. Quantifying the contribution of cortical and trabecular bone for implant anchorage - a micro-structural finite element study in human vertebral bone. Abstracts 17th Congress of the European Society of Biomechanics (ESB), Edinburgh, UK, July 5-8, 490, 2010.
389. P. Christen, B. van Rietbergen, D. J. Webster, R. Müller and K. Ito. Determination of physiological external loading conditions based on bone morphology. Abstracts 17th Congress of the European Society of Biomechanics (ESB), Edinburgh, UK, July 5-8, 509, 2010.
390. I. Knippels, A. J. Wirth, T. L. Mueller, R. Müller, F. Eckstein and G. H. van Lenthe. Can strength predictions of the human distal radius be improved by simulating more realistic fall-loading characteristics? Abstracts 17th Congress of the European Society of Biomechanics (ESB), Edinburgh, UK, July 5-8, 576, 2010.
391. F. M. Lambers, K. Koch, C. Weigt, F. A. Schulte, G. Kuhn and R. Müller. Loading reverses cortical but not trabecular bone loss in 12 month old mice. Abstracts 17th Congress of the European Society of Biomechanics (ESB), Edinburgh, UK, July 5-8, 682, 2010.
392. I. Chiapparini, M. Meier, R. Wepf, P. Schneider and R. Müller. 3D assessment of the lacuno-canalicular network within bone using FIB/SEM. Abstracts 17th Congress of the European Society of Biomechanics (ESB), Edinburgh, UK, July 5-8, 685, 2010.
393. F. A. Schulte, F. M. Lambers, D. J. Webster, G. Kuhn and R. Müller. Strain energy density predicts sites of local trabecular bone formation and resorption. Abstracts 17th Congress of the European Society of Biomechanics (ESB), Edinburgh, UK, July 5-8, 697, 2010.
394. A. Butscher, W. Hirsiger, N. Doebelin, M. Bohner and R. Müller. Printability of tricalcium phosphate powder for bone tissue engineering scaffolds. Abstracts 17th Congress of the European Society of Biomechanics (ESB), Edinburgh, UK, July 5-8, 722, 2010.
395. S. D. Badilatti, F. A. Schulte, F. M. Lambers, G. A. Kuhn and R. Müller. In silico modeling of the growth of a new bone trabecula. Abstracts 17th Congress of the European Society of Biomechanics (ESB), Edinburgh, UK, July 5-8, 736, 2010.
396. A. J. Wirth, R. Müller and G. H. van Lenthe. Peri-implant bone microarchitecture strongly affects implant stability. Abstracts 17th Congress of the European Society of Biomechanics (ESB), Edinburgh, UK, July 5-8, 911, 2010.
397. S. Hofmann, H. Hagenmüller, O. Wechsler and R. Müller. Monitoring MSC matrix mineralization as a reaction to different mechanical stimuli. Abstracts 17th Congress of the European Society of Biomechanics (ESB), Edinburgh, UK, July 5-8, 976, 2010.

398. A. Levchuk, P. Schneider, M. Meier, P. Vogel and R. Müller. Dynamic 3D investigation of microdamage behavior in murine cortical bone. Abstracts 17th Congress of the European Society of Biomechanics (ESB), Edinburgh, UK, July 5-8, 991, 2010.
399. R. Müller, F. Schulte, F. Lambers, D. Webster and G. Kuhn. Toward a validated algorithm for the prediction of bone tissue adaptation. Abstracts 6th World Congress of Biomechanics, Singapore, Singapore, August 1-6, 87, 2010.
400. K. S. Stok and R. Müller. Three-dimensional quantitative imaging for integrative cartilage research. Abstracts 6th World Congress of Biomechanics, Singapore, Singapore, August 1-6, 110, 2010.
401. R. Müller, D. Christen, S. Schori, A. Levchuk and P. Schneider. Assessment of cortical bone microdamage using time-lapsed high-resolution CT and experimental strain mapping. Abstracts 6th World Congress of Biomechanics, Singapore, Singapore, August 1-6, 379, 2010.
402. K. Mader, P. Schneider, D. Ruffoni, G. H. van Lenthe, J.-Ph. Thiran, R. Müller and M. Stamparoni. Automated, high-throughput, multi-scale assessment of bone morphology and bone competence. Abstracts 6th World Congress of Biomechanics, Singapore, Singapore, August 1-6, 399, 2010.
403. R. Müller. Osteocytes - the hunt for the mechanostat. Abstracts ANZBMS 20th Annual Scientific Meeting, Australian and New Zealand Bone and Mineral Society, Adelaide, Australia, September 5-8, p. 32, 2010.
404. R. Müller. Bone imaging - the future. Abstracts ANZBMS 20th Annual Scientific Meeting, Australian and New Zealand Bone and Mineral Society, Adelaide, Australia, September 5-8, p. 45, 2010.
405. T. L. Mueller, S. E. Basler, R. Müller and G. H. van Lenthe. Visualization of peri-implant trabecular bone during failure in human femoral heads. Abstracts 12th Biennial Conference International Society for Fracture Repair (ISFR), London, UK, September 26-29, p. 41, 2010.
406. A. J. Wirth, R. Müller and G. H. van Lenthe. Peri-implant bone microarchitecture influences implant stability. Abstracts 12th Biennial Conference International Society for Fracture Repair (ISFR), London, UK, September 26-29, p. 69, 2010.
407. S. Kirmani, U. I. Moedder, K. Hoey, J. Peterson, S. Amin, L. K. McCreedy, E. Atkinson, L. J. Melton III, B. L. Riggs, R. Müller and S. Khosla. Gender differences in circulating sclerostin levels are established during puberty and correlate with cortical porosity. Abstracts 32nd Annual Meeting ASBMR, Toronto, Canada, J. Bone Miner. Res., 25:S54, 2010.
408. K. S. Stok, C. Kolling, T. L. Mueller, R. Müller and J. Goldhahn. In vivo microstructural quantification of finger joints using high-resolution pQCT. Abstracts 32nd Annual Meeting ASBMR, Toronto, Canada, J. Bone Miner. Res., 25:S141-142, 2010.
409. P. Schneider, A. Levchuk and R. Müller. Automated and dynamic image-guided failure assessment of bone ultrastructure and bone microdamage. Abstracts 32nd Annual Meeting ASBMR, Toronto, Canada, J. Bone Miner. Res., 25:S232-233, 2010.
410. E. Shane, A. Cohen, S. Cremers, H. F. Rogers, E. Dworakowski, J. Lappe, R. Recker, E. M. Stein, T. L. Nickolas, T. Kohler, R. Müller, C. J. Rosen and D. Dempster. Serum sclerostin is inversely associated with bone remodeling in normal premenopausal women but not in premenopausal women with idiopathic osteoporosis. Abstracts 32nd Annual Meeting ASBMR, Toronto, Canada, J. Bone Miner. Res., 25:S331, 2010.
411. A. Cohen, D. W. Dempster, E. M. Stein, T. L. Nickolas, H. Zhou, D. J. McMahon, R. Müller, T. Kohler, J. Lappe, H. Rogers, R. R. Recker and E. Shane. Is increased marrow adiposity the cause or the result of bone microstructural abnormalities in premenopausal women with idiopathic osteoporosis? Abstracts 32nd Annual Meeting ASBMR, Toronto, Canada, J. Bone Miner. Res., 25:S372, 2010.
412. P. Schneider, V. Toal and R. Müller. Dynamic microdamage assessment in human cortical bone using synchrotron computed tomography. Abstracts 6th Annual Gold Coast Health and Medical Research Conference, Gold Coast, Australia, December 2-3, 2010.
413. R. Müller. Non invasive evaluation of bone strength. Abstracts 11th European Congress on Osteoporosis and Osteoarthritis (ECCEO11-IOF), Valencia, Spain, Osteoporos. Int., 22:S92, 2011.
414. S. Srouji, O. Fromigué, P. Vaudin, D. Ben David, G. Kuhn, R. Müller and P. J. Marie. Repair of critical-size mouse cranial and long bone defects using human adult mesenchymal stromal cells expressing integrin alpha 5. Abstracts 3rd Joint Meeting of the European Calcified Tissue Society (ECTS) and the International Bone and Mineral Society (IBMS), Athens, Greece, May 7-11, Bone, 48:S170, 2011.
415. C. öhman, M. Montesi, F. M. Lambers, E. Salsedo, A. Beraudi, G. A. Kuhn, M. Baleani, S. Stea, R. Müller and M. Viceconti. The ovariectomized mouse is an effective model to study osteoporosis as assessed by morphometry, histology, protein expression and mechanical testing. Abstracts 3rd Joint Meeting of the European Calcified Tissue Society (ECTS) and the International Bone and Mineral Society (IBMS), Athens, Greece, May 7-11, Bone, 48:S204, 2011.
416. A. Beraudi, E. Salsedo, C. Weigt, M. Montesi, C. öhman, G. A. Kuhn, M. Baleani, S. Stea, R. Müller and M. Viceconti. The effect of parathyroid hormone in ovariectomized mice model: a biological and mechanical approach. Abstracts 3rd Joint Meeting of the European Calcified Tissue Society (ECTS) and the International Bone and Mineral Society (IBMS), Athens, Greece, May 7-11, Bone, 48:S213, 2011.
417. C. Lukas, F. Lambers, D. Ruffoni, F. A. Schulte, G. Kuhn, P. Kollmannsberger, R. Weinkamer and R. Müller. Quantification of the interplay between mineralization and remodeling in trabecular bone assessed

by in vivo micro-computed tomography. Abstracts 3rd Joint Meeting of the European Calcified Tissue Society (ECTS) and the International Bone and Mineral Society (IBMS), Athens, Greece, May 7-11, Bone, 48:S250, 2011.

418. K. S. Stok, D. Nesic, M. Zulliger, C. Firminger and R. Müller. Comprehensive morphological characterisation of arthritis in animal models by micro-computed tomography. Abstracts 5th Osteoarthritis Imaging Workshop, Salzburg, Austria, June 8-11, p. 44, 2011.
419. K. S. Stok, M. Glanzmann, T. Steiner, J. Goldhahn and R. Müller. An integrative imaging approach for examining bone and cartilage tissues in the osteoarthritic joint - a pilot study. Abstracts 5th Osteoarthritis Imaging Workshop, Salzburg, Austria, June 8-11, p. 63, 2011.
420. S. Hofmann, O. Wechsler, J. Vetsch and R. Müller. Design of a flow perfusion bioreactor for longitudinal monitoring of mineralized extracellular matrix growth. Abstracts TERMIS-EU 2011 Annual Meeting, Granada, Spain, June 22-26, Histol. Histopathol., 26(S1):69, 2011.
421. L. Nimeskern, H. Martinez, P. Gatenholm, R. Müller and K. S. Stok. Mechanical evaluation of nano-cellulose constructs designed for tissue-engineering of auricular cartilage. Abstracts TERMIS-EU 2011 Annual Meeting, Granada, Spain, June 22-26, Histol. Histopathol., 26(S1):245, 2011.
422. A. J. Trüssel, D. J. Webster and R. Müller. A combination of in vivo micro-computed tomography and histology allows 3D spatial mapping of osteocytes in trabecular bone. Abstracts 2011 Annual Meeting, Swiss Society for Biomedical Engineering, Bern, Switzerland, August 22-23, p. 3, 2011.
423. H. Bangar, R. Müller and K. S. Stok. Segmentation of cortical bone in mouse tibiae based on grey-scale variation. Abstracts 2011 Annual Meeting, Swiss Society for Biomedical Engineering, Bern, Switzerland, August 22-23, p. 4, 2011.
424. P. Schneider, M. Meier, P. Gasser, R. Wepf and R. Müller. Nanoscopic 3D representation of the lacuno-canalicular network using serial FIB/SEM. Abstracts 2011 Annual Meeting, Swiss Society for Biomedical Engineering, Bern, Switzerland, August 22-23, p. 7, 2011.
425. J. A. Steiner, C. Wenger, T. L. Mueller, D. Ruffoni, R. Müller and G. H. van Lenthe. Mechanical competence of implants in trabecular bone before and after augmentation. Abstracts 2011 Annual Meeting, Swiss Society for Biomedical Engineering, Bern, Switzerland, August 22-23, p. 10, 2011.
426. S. E. Basler, J. A. Steiner, A. Santoro, R. Müller and G. H. van Lenthe. Image-guided failure assessment reveals complex failure modes in augmented bone-implant systems. Abstracts 2011 Annual Meeting, Swiss Society for Biomedical Engineering, Bern, Switzerland, August 22-23, p. 14, 2011.
427. L. Nimeskern, N. Rotter, R. Müller and K. S. Stok. Spatial and temporal mapping of native auricular elastic cartilage. Abstracts 2011 Annual Meeting, Swiss Society for Biomedical Engineering, Bern, Switzerland, August 22-23, p. 21, 2011.
428. F. M. Lambers, G. Kuhn, C. Weigt, K. Koch, F. A. Schulte and R. Müller. Mice retain bone strength with age. Abstracts 2011 Annual Meeting, Swiss Society for Biomedical Engineering, Bern, Switzerland, August 22-23, p. 23, 2011.
429. M. M. Maurer, D. Ruffoni, R. Weinkamer and R. Müller. The role of microarchitecture in trabecular bone remodeling - a cellular solid model. Abstracts 2011 Annual Meeting, Swiss Society for Biomedical Engineering, Bern, Switzerland, August 22-23, p. 29, 2011.
430. J. Traxler, S. E. Basler, R. Müller and G. H. van Lenthe. Peri-implant bone microstructure determines dynamic implant cut-out. Abstracts 2011 Annual Meeting, Swiss Society for Biomedical Engineering, Bern, Switzerland, August 22-23, p. 33, 2011.
431. S. Abdel Jaber, S.E. Basler, D. Ruffoni, R. Cotton, R. Müller and G. H. van Lenthe. Experiment-based non-linear finite element analysis of the bone-implant interface. Abstracts 2011 Annual Meeting, Swiss Society for Biomedical Engineering, Bern, Switzerland, August 22-23, p. 34, 2011.
432. T. H. Steiner, R. J. Choo, A. Quintin, R. Müller, M. Zulliger, D. Nesic and K. S. Stok. Comprehensive morphological characterization of arthritis in animal models by micro-CT. Abstracts CTI Medtech Event 2011, Commission for Technology and Innovation (CTI), Bern, Switzerland, August 23, 2011.
433. R. Müller. In silico prediction of local bone formation and resorption in an in vivo model of bone adaptation. Abstracts 2011 IUTAM Symposium on Computer Models in Biomechanics, Stanford, USA, August 28 - September 1, p. 24, 2011.
434. B. W. Thimm, S. Hofmann, O. Wechsler, M. Böhner and R. Müller. Histomorphometric analysis of tricalcium phosphate scaffolds for bone tissue engineering: Comparison of histological vs. micro-computed tomographical analysis. Abstracts 24th European Conference on Biomaterials, Dublin, Ireland, September 4-8, p. 390, 2011.
435. B. W. Thimm, S. Hofmann, O. Wechsler, M. Böhner and R. Müller. Monitoring of tissue mineralization on tricalcium phosphate scaffolds by means of micro-computed tomography. Abstracts 24th European Conference on Biomaterials, Dublin, Ireland, September 4-8, p. 391, 2011.
436. L. Nebuloni, G. A. Kuhn and R. Müller. Quantification of vascular density through in vivo micro-computed tomography. Abstracts World Molecular Imaging Congress, San Diego, USA, September 7-10, P008, 2011.

 445. R. Müller. Non-invasive evaluation of bone strength. Abstracts 1st CEOR's International Symposium on Osteoporosis and Bone Health, Jeddah, Saudia Arabia, February 8-9, p. 19, 2012.
 446. R. Müller. Why bones fail: structure and function. Abstracts 1st CEOR's International Symposium on Osteoporosis and Bone Health, Jeddah, Saudia Arabia, February 8-9, p. 27, 2012.
 447. A. Roshan-Ghias, F. Lambers, M. Gholam-Rezaee, R. Müller and D. P. Pioletti. In vivo loading in rat femoral condyle affects bone formation and bone resorption rates in artificial scaffold. Abstracts Annual Meeting Swiss Bone and Mineral Society (SBMS), Basel, Switzerland, March 29, 2012.
 448. R. Müller, A. Levchuk, S. Badilatti, A. Zwahlen, F. A. Schulte, F. M. Lambers, C. Weigt, D. J. Webster and G. Kuhn. Computational prediction of load induced bone remodeling in response to aging, disease and treatment in vivo. Abstracts 10th International Symposium on Computer Methods in Biomechanics and Biomedical Engineering, Berlin, Germany, April 11-14, 2012.
 449. D. Christen, A. Levchuk, S. Schori, P. Schneider, S. K. Boyd and R. Müller. Validation of strain mapping for the assessment of microdamage initiation and propagation in cortical bone. Abstracts 10th International Symposium on Computer Methods in Biomechanics and Biomedical Engineering, Berlin, Germany, April 11-14, 2012.
 450. T. H. Steiner, R. J. Choo, A. Quintin, M. Wilke, M. A. Zulliger, D. Nesic, R. Müller and K. S. Stok. Preclinical investigation of the development of osteoarthritis-like degeneration in a rat trauma model using micro-computed tomography. Abstracts 2012 World Congress on Osteoarthritis (OARSI), Barcelona, Spain, April 26-29, Osteoarthritis Cartilage, 20(S1):S50-S51, 2012.
 451. L. Bounoure, S. Bourgeois, S. Druart, G. Kuhn, R. Müller, O. Devuyt and C. Wagner. Mice disrupted for the ammonia channel RhCG compensate a physiological acid load of high protein diet. FASEB J., 26:1068.12, 2012.
 452. F. A. Schulte, C. Weigt, D. Ruffoni, F. M. Lambers, A. Levchuk, D. J. Webster, G. Kuhn and R. Müller. Parathyroid hormone but not bisphosphonate therapy interferes with the local mechanoregulatory mechanism in trabecular bone. Abstracts 39th European Symposium on Calcified Tissues, European Calcified Tissue Society (ECTS), Stockholm, Sweden, May 19-23, Bone, 50(S1):S40, 2012.
 453. D. J. Webster, F. A. Schulte, F. M. Lambers, G. Kuhn and R. Müller. Abstracts 39th European Symposium on Calcified Tissues, European Calcified Tissue Society (ECTS), Stockholm, Sweden, May 19-23, Bone, 50(S1):S73, 2012.
 454. D. Ruffoni, F. A. Schulte, F. M. Lambers, D. J. Webster, G. Kuhn and R. Müller. Experimental quantification of Wolff's law in an in vivo loading model. Abstracts 39th European Symposium on Calcified Tissues, European Calcified Tissue Society (ECTS), Stockholm, Sweden, May 19-23, Bone, 50(S1):S125, 2012.
 455. G. Kuhn, C. Weigt, F. A. Schulte, F. M. Lambers and R. Müller. Bisphosphonate treatment does not impair load adaptation in osteopenic mouse bones. Abstracts 39th European Symposium on Calcified Tissues, European Calcified Tissue Society (ECTS), Stockholm, Sweden, May 19-23, Bone, 50(S1):S156, 2012.

456. L. Nimeskern, E.-M. Feldmann, S. Schwarz, S. Klein, N. Rotter, R. Müller and K. S. Stok. Magnetic resonance imaging of the ear for patient-specific reconstructive surgery. Abstracts 2012 Annual Meeting, Swiss Society for Biomedical Engineering, Lausanne, Switzerland, August 27-28, P25, 2012.
457. T. H. Steiner, R. J. Choo, M. Zulliger, D. Nesic, R. Müller and K. S. Stok. Microstructural imaging for sample-specific finite element analysis in a rat osteoarthritis model. Abstracts 2012 Annual Meeting, Swiss Society for Biomedical Engineering, Lausanne, Switzerland, August 27-28, P37, 2012.
458. K. Atal, T. H. Steiner, M. Zulliger, D. Nesic, R. Müller and K. S. Stok. A quantitative analysis of the effect of altered femoral bone structure with the onset of osteoarthritis in a preclinical rat model. Abstracts 2012 Annual Meeting, Swiss Society for Biomedical Engineering, Lausanne, Switzerland, August 27-28, P38, 2012.
459. K. Atal, T. H. Steiner, M. Zulliger, D. Nesic, R. Müller and K. S. Stok. Quantitative joint alignment measurements for preclinical models of osteoarthritis. Abstracts 2012 Annual Meeting, Swiss Society for Biomedical Engineering, Lausanne, Switzerland, August 27-28, P39, 2012.
460. A. J. Trüssel, D. J. Webster and R. Müller. Sclerostin is down regulated in mechanically stimulated trabecular bone. Abstracts 2012 Annual Meeting, Swiss Society for Biomedical Engineering, Lausanne, Switzerland, August 27-28, P41, 2012.
461. P. Gatenholm, K. S. Stok, R. Müller, S. Schwarz, N. Rotter, G. J. V. M. van Osch, J. Riesle and A. Jork. EAREG - Ear tissue regeneration using human cells and novel nano-cellulose scaffolds. Abstracts 3rd TERMIS World Congress, Vienna, Austria, September 5-8, J. Tissue Eng. Regen. Med., 6(S1):151, 2012.
462. M. M. Pleumeekers, L. Nimeskern, W. L. M. Koevoet, R. Müller, K. S. Stok and G. J. V. M. van Osch. Cell source determines the biochemical properties of the generated matrix in tissue-engineered auricular cartilage. Abstracts 3rd TERMIS World Congress, Vienna, Austria, September 5-8, J. Tissue Eng. Regen. Med., 6(S1):151, 2012.
463. L. Nimeskern, H. Martinez, M. M. Pleumeekers, S. Klein, E. M. Feldmann, N. Rotter, G. J. V. M. van Osch, P. Gatenholm, R. Müller, K. S. Stok. Bacterial nano-cellulose is a promising mechanically tuneable biomaterial for regenerative tissue engineering of the outer ear. Abstracts 3rd TERMIS World Congress, Vienna, Austria, September 5-8, J. Tissue Eng. Regen. Med., 6(S1):152, 2012.
464. L. Nimeskern, M. M. Pleumeekers, G. J. V. M. van Osch, R. Müller, K. S. Stok. Mechanical and biochemical maps of ear cartilage to set a benchmark for auricular reconstruction. Abstracts 3rd TERMIS World Congress, Vienna, Austria, September 5-8, J. Tissue Eng. Regen. Med., 6(S1):152, 2012.
465. S. Hofmann and R. Müller. Options for long-term monitoring strategies in bone tissue engineering. Abstracts 3rd TERMIS World Congress, Vienna, Austria, September 5-8, J. Tissue Eng. Regen. Med., 6(S1):331, 2012.
466. J. R. Vetsch, S. Hofmann and R. Müller. Increased flow velocity positively influences osteogenic differentiation of human stem cells in a perfusion bioreactor. Abstracts 3rd TERMIS World Congress, Vienna, Austria, September 5-8, J. Tissue Eng. Regen. Med., 6(S1):337, 2012.
467. S. Wüst, M. E. Godla, P. Schwilch, S. Hofmann and R. Müller. 3D bioprinting for everybody - application of low-cost 3D printers in tissue engineering. Abstracts 3rd TERMIS World Congress, Vienna, Austria, September 5-8, J. Tissue Eng. Regen. Med., 6(S1):376, 2012.
468. L. Nebuloni, G. A. Kuhn and R. Müller. Multiple injections of a nanoparticulate blood pool contrast agent lead to accumulation in the reticulo-endothelial system and decreased clearance rates. Abstracts World Molecular Imaging Congress, Dublin, Ireland, September 5-8, SS 201, 2012.
469. M. Viceconti, D. Testi, W. R. Taylor, F. Taddei, R. Müller, K. Ito, S. Ferguson and R. Rizzoli. The osteoporotic virtual physiological human. Abstracts Bioengineering12, Oxford, UK, September 6-7, 2012.
470. A. Cohen, P. Young, E. Stein, D. Dempster, R. R. Recker, J. Lappe, A. Zhang, D. J. McMahon, S. Cremers, A. Zwahlen, R. Müller and E. Shane. Absence of the anabolic window characterizes premenopausal women with idiopathic osteoporosis who do not respond to teriparatide. Abstracts ASBMR 2012 Annual Meeting, Minneapolis, USA, J. Bone Miner. Res., 27(S1), available at <http://www.asbmr.org/education/AbstractDetail?aid=c3de0438-6954-479a-baaf-f2448e115d5c>, 2012.
471. F. A. Schulte, C. Weigt, D. Ruffoni, F. M. Lambers, A. Levchuk, D. Webster, G. Kuhn and R. Müller. The effects of parathyroid hormone and bisphosphonate treatment on the local mechanical control of bone formation and resorption. Abstracts ASBMR 2012 Annual Meeting, Minneapolis, USA, J. Bone Miner. Res., 27(S1), available at <http://www.asbmr.org/education/AbstractDetail?aid=18eb1910-4db4-48df-b911-9f9920a11c41>, 2012.
472. M. Bohner, H. Lapczynska, S. Wuest, L. Galea, B. von Rechenberg, N. Doebelin, S. Hofmann and R. Müller. Effect of grain size and microporosity on the in vivo behavior of β -tricalcium phosphate scaffolds. Abstracts Bioceramics 24, Fukuoka, Japan, October 21-24, B1:10, 2012.
473. F. Rikhtegar, F. Pacheco, C. Wyss, K. S. Stok, H. Ge, R. J. Choo, A. Ferrari, D. Poulikakos, R. Müller and V. Kurtcuoglu. A novel method for hemodynamic analysis of stented coronary arteries. Abstracts 8th International Symposium on Biomechanics in Vascular Biology and Cardiovascular Disease, Rotterdam, The Netherlands, April 18-19, P12, 2013.
474. A. Villarreal, K. Atal, T. H. Steiner, M. Wilke, D. Nesic, M. A. Zulliger, R. Müller and K. S. Stok. Sensitive discrimination metrics of structural deterioration in a preclinical osteoarthritis-like rat trauma model.

Abstracts 2013 World Congress on Osteoarthritis (OARSI), Philadelphia, USA, April 18-21, Osteoarthritis Cartilage, 21(S1):S206-S207, 2013.

475. M. von Salis-Soglio, G. Kuhn, M. Kneissel and R. Müller. Mechanical loading increases the effect of sclerostin antibody treatment in a mouse model of high turnover osteoporosis. Abstracts 40th European Symposium on Calcified Tissues, European Calcified Tissue Society (ECTS), Lisbon, Portugal, May 18-21, Bone Abstracts, 1:OC4.5, 2013.
476. F. A. Schulte, S. Badilatti, I. Parkinson, J. Goldhahn and R. Müller. Bone morphometry from human peripheral quantitative computer tomography scans is preserved by virtual high-resolution image reconstruction. Abstracts 40th European Symposium on Calcified Tissues, European Calcified Tissue Society (ECTS), Lisbon, Portugal, May 18-21, Bone Abstracts, 1:PP52, 2013.
477. S. Paulsen, J. Vetsch, S. Hofmann and R. Müller. The choice of fetal bovine serum (FBS) influences the degree of spontaneous mineralization on silk fibroin scaffolds in 3D cell cultures. Abstracts 40th European Symposium on Calcified Tissues, European Calcified Tissue Society (ECTS), Lisbon, Portugal, May 18-21, Bone Abstracts, 1:PP90, 2013.
478. R. Wilson, A. J. Trüssel, D. J. Webster and R. Müller. Single osteocyte gene expression in an in vivo model for load-induced bone adaptation. Abstracts 40th European Symposium on Calcified Tissues, European Calcified Tissue Society (ECTS), Lisbon, Portugal, May 18-21, Bone Abstracts, 1:PP243, 2013.
479. D. Ruffoni, C. Weigt, E. Fattorini, A. Levchuk, F. A. Schulte, G. Kuhn and R. Müller. The spatial relationship between bone formation and bone resorption in healthy and ovariectomized mice treated with PTH, bisphosphonate or mechanical loading. Abstracts 40th European Symposium on Calcified Tissues, European Calcified Tissue Society (ECTS), Lisbon, Portugal, May 18-21, Bone Abstracts, 1:PP437, 2013.
480. M. von Salis-Soglio, G. Kuhn, P. J. Richards and R. Müller. Characterization of bone turnover in a mouse model of senile osteoporosis. Abstracts 12th FELASA/SECAL Joint Congress on "Animal Research: Better Science from Fewer Animals", Barcelona, Spain, June 10-13, J. Am. Assoc. Lab. Anim. Sci., 52(3):275, P191, 2013.
481. L. Nimeskern, W. Kuo, H. Martinez, S. Hofmann, P. Gatenholm, R. Müller and K. S. Stok. Developing 3D quantitative morphometric characterization of tissue-engineering scaffolds using benchtop micro computed tomography. Abstracts TERMIS-EU 2013 Annual Meeting, Istanbul, Turkey, June 17-20, 38, 2013.
482. M. M. Pleumeekers, L. Nimeskern, W. L. M. Koevoet, R. Müller, K. S. Stok, G. J. V. M. van Osch. Ear and nasal chondrocytes are most suitable in cartilage tissue engineering in vivo, despite the better performance of articular chondrocytes in culture. Abstracts TERMIS-EU 2013 Annual Meeting, Istanbul, Turkey, June 17-20, 57, 2013.
483. M. M. Pleumeekers, L. Nimeskern, W. L. M. Koevoet, R. Müller, K. S. Stok and G. J. V. M. van Osch. Bone-marrow-derived mesenchymal stem cells have a superior capacity to enhance chondrogenesis in co-culture with chondrocytes compared to adipose-tissue-derived mesenchymal stem cells. Abstracts TERMIS-EU 2013 Annual Meeting, Istanbul, Turkey, June 17-20, 64, 2013.
484. S. Wüst, S. Hofmann and R. Müller. 3D bioprinting of artificial tissues containing vascular systems. Abstracts TERMIS-EU 2013 Annual Meeting, Istanbul, Turkey, June 17-20, 277, 2013.
485. A. Woloszyk, N. Bostanci, S. Holsten Dirksen, G. Papaccio, S. Hofmann, R. Müller and T. Mitsiadis. The potential of dental stem cells in regenerative dentistry. Abstracts TERMIS-EU 2013 Annual Meeting, Istanbul, Turkey, June 17-20, 368, 2013.
486. A. Butscher, M. Bohner, S. Hofmann, N. Döbelin and R. Müller. New designs to improve depowdering of 3D-printed calcium phosphate bone graft substitutes. Abstracts 13th Conference of the European Ceramic Society, Limoges, France, June 23-27, 291, 2013.
487. J. R. Vetsch, S. J. Paulsen, S. Hofmann and R. Müller. The influence of bioreactor design on the mechanical environment in a perfusion bioreactor for bone tissue engineering. Abstracts FIRM 2013, Girona, Spain, September 30-October 3, p. 16, 2013.
488. F. M. Lambers, G. Kuhn, C. Weigt, K. M. Koch, F. A. Schulte and R. Müller. Mechanosensitivity with cyclic loading is maintained with age at a local and global level in murine caudal vertebrae. Abstracts ASBMR 2013 Annual Meeting, Baltimore, USA, J. Bone Miner. Res., 28(S1), available at <http://www.asbmr.org/education/AbstractDetail?aid=bf71ae07-0cc6-4842-abdf-20c8c7dc6365>, 2013.
489. A. Levchuk, R. Sommer, S. D. Badilatti, F. A. Schulte, D. Ruffoni, C. Weigt, G. Kuhn and R. Müller. In silico simulations of bone remodeling with improved parameter estimation from local strains and dynamic morphometry in vivo. Abstracts ASBMR 2013 Annual Meeting, Baltimore, USA, J. Bone Miner. Res., 28(S1), available at <http://www.asbmr.org/education/AbstractDetail?aid=e719186f-1a3e-4467-ab60-5f43d720b976>, 2013.
490. M. R. Rubin, A. Zwahlen, D. W. Dempster, H. Zhou, N. E. Cusano, J. Sliney Jr, M. Dellabadia, D. J. McMahon, R. Müller and J. P. Bilezikian. PTH(1-84) administration improves three dimensional cancellous bone structure in hypoparathyroidism early in treatment. Abstracts ASBMR 2013 Annual Meeting, Baltimore, USA, J. Bone Miner. Res., 28(S1), available at <http://www.asbmr.org/education/AbstractDetail?aid=ed685e42-6df2-47f7-8955-5fd09bc92a3b>, 2013.
491. A. Cohen, A. Costa, R. R. Recker, J. M. Lappe, S. Cremers, D. Dempster, H. Zhou, A. Zwahlen, R. Müller, E. Stein, T. Nickolas, C. Rosen and E. Shane. Lower bone volume fraction and bone formation rate in

- premenopausal women with abdominal obesity are associated with less physical activity and higher serum sclerostin. Abstracts ASBMR 2013 Annual Meeting, Baltimore, USA, J. Bone Miner. Res., 28(S1), available at <http://www.asbmr.org/education/AbstractDetail?aid=605ad2c2-f313-4a13-bf75-5c2afb84c8b6>, 2013.
492. A. Mirsaidi, J. R. Vetsch, M. J. Arlt, R. Müller, S. Hofmann and P. J. Richards. Therapeutic potential of adipose-derived stromal cells (ASCs) for the treatment of age-related osteoporosis. Abstracts ASBMR 2013 Annual Meeting, Baltimore, USA, J. Bone Miner. Res., 28(S1), available at <http://www.asbmr.org/education/AbstractDetail?aid=112e2b43-4a50-4fba-ab97-7c8b12175579>, 2013.
 493. P. Schneider, P. Hansma, C. Randall and R. Müller. Quantitative 3D microcrack imaging for weak and strong bones assessed by reference point indentation. Abstracts ASBMR 2013 Annual Meeting, Baltimore, USA, J. Bone Miner. Res., 28(S1), available at <http://www.asbmr.org/education/AbstractDetail?aid=9a69b39c-b005-4bcb-a309-7e66729c9017>, 2013.
 494. F. Kurth, R. E. Wilson, A. J. Trüssel, D. J. Webster, R. Müller and P. S. Dittrich. A world-to-chip strategy for the analysis of *in vivo* stimulated cells. Abstracts CHanalysis 2013, Beatenberg, Switzerland, November 29-30, 2013.
 495. K. S. Stok, K. Atal, T. H. Steiner, A. V. Villarreal Escudero, M. Wilke, A. Quintin, M. A. Zulliger, R. Müller and D. Nesic. Comprehensive morphological characterisation of osteoarthritis in a preclinical rabbit trauma model using micro computed tomography. Abstracts 2014 World Congress on Osteoarthritis (OARSI), Paris, France, April 24-27, Osteoarthritis Cartilage, 22:S274-S275, 2014.
 496. D. J. Pawson, M. Glanzmann, H. Bangar, K. Atal, R. Müller and K. S. Stok. Identifying structural cues involved with osteoarthritis disease in human humeral heads. Abstracts 2014 World Congress on Osteoarthritis (OARSI), Paris, France, April 24-27, Osteoarthritis Cartilage, 22: S368-S369, 2014.
 497. R. Müller. Imaging tissue engineering. Abstracts TERMIS-EU 2014 Annual Meeting, Genoa, Italy, June 10-13, J. Tissue Eng. Regen. Med. 8(S1), 2014.
 498. M. M. Martino, P. S. Briquez, E. Güç, F. Tortelli, W. W. Kilarski, S. Metzger, J. J. Rice, G. A. Kuhn, R. Müller, M. A. Swartz and J. A. Hubbell. Growth factors engineered for super-affinity to extracellular matrix enhance tissue healing. Abstracts TERMIS-EU 2014 Annual Meeting, Genoa, Italy, June 10-13, J. Tissue Eng. Regen. Med. 8(S1):35-36, 2014.
 499. L. Nimeskern, M. M. Pleumeekers, H. Martinez, E.-M. Feldmann, S. Schwarz, N. Rotter, P. Gatenholm, G. J. V. M. van Osch, R. Müller and K. S. Stok. Towards mechanical integrity of tissue-engineered ear cartilage. Abstracts TERMIS-EU 2014 Annual Meeting, Genoa, Italy, June 10-13, J. Tissue Eng. Regen. Med. 8(S1):469, 2014.
 500. D. C. Betts, S. Stanger, G. A. Kuhn, S. Hofmann, K. M. R. Nuss and R. Müller. In vivo model for time-lapsed imaging of long bone defect regeneration. Abstracts TERMIS-EU 2014 Annual Meeting, Genoa, Italy, June 10-13, J. Tissue Eng. Regen. Med. 8(S1):494-495, 2014.
 501. R. Müller. Microfluidic imaging of *in vivo* gene expression in mechanobiology. Abstracts 7th World Congress of Biomechanics, Boston, USA, July 6-11, 2014.
 502. R. Müller. In silico mechanobiology in a multiscale model of bone adaptation. Abstracts 7th World Congress of Biomechanics, Boston, USA, July 6-11, 2014.
 503. S. D. Badilatti, P. Christen, A. Levchuk, I. Parkinson and R. Müller. Towards simulation of whole bone microstructure adaptation. Abstracts 7th World Congress of Biomechanics, Boston, USA, July 6-11, 2014.
 504. D. C. Betts, S. Stanger, G. A. Kuhn, S. Hofmann, K. M. R. Nuss and R. Müller. Fracture healing: a novel approach to in silico model validation using longitudinal *in vivo* data. Abstracts 7th World Congress of Biomechanics, Boston, USA, July 6-11, 2014.
 505. M. Casanova, A. Balmelli, D. Courty, P. Schneider and R. Müller. Micromechanical anisotropy in mouse cortical bone using nanoindentation. Abstracts 7th World Congress of Biomechanics, Boston, USA, July 6-11, 2014.
 506. M. Georgiadis, M. Guizar-Sicairos, A. Zwahlen, O. Gschwend, M. Vogt, O. Bunk, R. Müller and P. Schneider. Local ultrastructure orientation of a complete bone trabecula assessed by 3D sSAXS and integration into finite element analysis. Abstracts 7th World Congress of Biomechanics, Boston, USA, July 6-11, 2014.
 507. A. Levchuk, R. Sommer, S.D. Badilatti, F.M. Lambers, C. Weigt, G. Kuhn and R. Müller. Long-term in silico simulations predict longitudinal *in vivo* bone remodeling in a mouse model of postmenopausal osteoporosis. Abstracts 7th World Congress of Biomechanics, Boston, USA, July 6-11, 2014.
 508. Z. Li, M. von Salis-Soglio, G. Kuhn, R. Müller and Davide Ruffoni. The interplay between cortical and trabecular bone following implant insertion investigated by *in vivo* micro-computed tomography. Abstracts 7th World Congress of Biomechanics, Boston, USA, July 6-11, 2014.
 509. L. Nimeskern, M. B. Soyka, C. Rösli, D. Holzmann, R. Müller and K. S. Stok. Spatial mapping of the biomechanical properties of native human ear cartilage for patient-specific regenerative medicine. Abstracts 7th World Congress of Biomechanics, Boston, USA, July 6-11, 2014.
 510. D. J. Pawson, T. H. Steiner, M. A. Zulliger, M. Wilke, D. Nesic, R. Müller and K. S. Stok. Morphometric analysis of the tibial-femoral joint in a rabbit pre-clinical model of osteoarthritis. Abstracts 7th World Congress of Biomechanics, Boston, USA, July 6-11, 2014.

511. D. Ruffoni, R. Weinkamer, G. Kuhn and R. Müller. Kinetics of bone mineralization and demineralization in postmenopausal osteoporosis. Abstracts 7th World Congress of Biomechanics, Boston, USA, July 6-11, 2014.
512. A. Trüssel, R. Wilson, S. Stanger, Z. Li, G. Kuhn, D. Webster and R. Müller. Multiplex osteocyte gene expression in an in vivo model of load induced bone adaptation. Abstracts 7th World Congress of Biomechanics, Boston, USA, July 6-11, 2014.
513. A. Zwahlen, A. Frutiger, D. Christen, W. Schmölz and R. Müller. Fracture morphology in human trabecular bone - a systematic classification. Abstracts 7th World Congress of Biomechanics, Boston, USA, July 6-11, 2014.
514. M. Sommer, J. Vetsch, J. Leemann, R. Müller, S. Hofmann and A. Studart. Comparison of inverse-opal and salt-leached silk fibroin scaffolds for bone tissue engineering. Abstracts 2014 Annual Meeting, Swiss Society for Biomedical Engineering, Zürich, Switzerland, August 27-28, p. 23, 2014.
515. A. J. Trüssel, R. E. Wilson, G. A. Kuhn, D. J. Webster and R. Müller. Local osteocyte gene expression in mechanically controlled bone remodeling. Abstracts 2014 Annual Meeting, Swiss Society for Biomedical Engineering, Zürich, Switzerland, August 27-28, p. 29, 2014.
516. J. R. Vetsch, S. J. Paulsen, R. Müller and S. Hofmann. Mineralization in silk fibroin scaffold is dependent on the fetal bovine serum type used. Abstracts 2014 Annual Meeting, Swiss Society for Biomedical Engineering, Zürich, Switzerland, August 27-28, p. 34, 2014.
517. Z. Li, D. Betts, T. Götschi, R. Müller and D. Ruffoni. The response of bone to implant insertion: changes in the local mechanical environment and remodeling. Abstracts 2014 Annual Meeting, Swiss Society for Biomedical Engineering, Zürich, Switzerland, August 27-28, p. 44, 2014.
518. D. C. Betts, S. Stanger, G. A. Kuhn, S. Hofmann, K. M. R. Nuss and R. Müller. In silico bone regeneration: simulation using real microstructural bone geometries. Abstracts 2014 Annual Meeting, Swiss Society for Biomedical Engineering, Zürich, Switzerland, August 27-28, p. 46, 2014.
519. S. D. Badilatti, L. Sommerhalder and R. Müller. Modeling of biodegradation in the augmented spine. Abstracts 2014 Annual Meeting, Swiss Society for Biomedical Engineering, Zürich, Switzerland, August 27-28, p. 47, 2014.
520. A. Zwahlen, L. Wiegmann and R. Müller. Local experimental validation of μ FE and multiscale simulations for improved bone failure prediction. Abstracts 2014 Annual Meeting, Swiss Society for Biomedical Engineering, Zürich, Switzerland, August 27-28, p. 51, 2014.

Abstracts 20th International Bone Densitometry Workshop, Hong Kong, October 12-17, Journal of Orthopaedic Translation, 2:230, 2014.
527. A. Zwahlen, A. Frutiger, D. Christen, W. Schmölz and R. Müller. Evaluation of fracture morphologies in human trabecular bone - consequences for non-linear micro finite element simulations. Abstracts 12th International Symposium on Computer Methods in Biomechanics and Biomedical Engineering, Amsterdam, The Netherlands, October 13-15, 68, 2014.
528. J. Vetsch, S. Hofmann and R. Müller. The influence of flow velocity on hMSCs in a perfusion bioreactor - a combined experimental and computational approach. Abstracts 12th International Symposium on Computer Methods in Biomechanics and Biomedical Engineering, Amsterdam, The Netherlands, October 13-15, 132, 2014.
529. J. Vetsch, S. Hofmann and R. Müller. Fetal bovine serum influences mineralized matrix production of human mesenchymal stem cells on silk fibroin scaffolds in a perfusion bioreactor. Abstracts 8th Annual Symposium on New Frontiers in Regenerative Medicine, Nijmegen, The Netherlands, October 16-17, 2014.
530. R. Müller. In vivo bone imaging - from dynamic morphometry to systems biology. Abstracts 7th International Conference on Osteoporosis and Bone Research (ICOBR), Xiamen, China, October 16-19, IBMS BoneKEy, 11(607):1, 2014.

531. K. Mader, L. R. Donahue, R. Müller and M. Stampanoni. Tackling genomics with X-ray tomographic microscopy: a study of bone microstructure. Abstracts 12th International Conference on X-Ray Microscopy (XRM2014), Melbourne, Australia, October 26-31, 735, 2014.
532. A. Butscher, M. Böhner, S. Hofmann, N. Döbelin and R. Müller. New depowdering-friendly designs for three-dimensional printing of calcium phosphate bone substitutes. Abstracts 26th Symposium and Annual Meeting of the International Society for Ceramics in Medicine (BIOCERAMICS 26), Barcelona, Spain, November 6-8, 0049, p. 113, 2014.
533. A. Cohen, D. W. Dempster, H. Zhou, R. R. Recker, J. M. Lappe, S. Cremers, R. Müller, A. Zwahlen, M. Kamanda-Kosseh, M. Bucovsky, E. M. Stein, T. L. Nickolas and E. Shane. Healthy premenopausal women with low HDL (less than 50 mg/dL) have significantly lower trabecular bone volume and bone formation rate. Abstracts Annual Meeting of the Endocrine Society (ENDO 2015), San Diego, USA, March 3-8, LB-OR01-1, 2015.
534. Z. Li, G. Kuhn, R. Müller and D. Ruffoni. Cortical bone response following implantation: changes in bone remodeling and mechanical regulation on periosteal and endosteal surfaces. Abstracts 4th Joint Meeting of the European Calcified Tissue Society (ECTS) and the International Bone and Mineral Society (IBMS), Rotterdam, The Netherlands, April 25-28, IBMS BoneKEy, 13(685):27, P68, 2015.
535. P. Christen, Y.-W. W. Lee, B. van Rietbergen, C.-Y. J. Cheng and R. Müller. Time-lapse in vivo image analysis to determine local disease and treatment effects on bone remodelling in patients. Abstracts 4th Joint Meeting of the European Calcified Tissue Society (ECTS) and the International Bone and Mineral Society (IBMS), Rotterdam, The Netherlands, April 25-28, IBMS BoneKEy, 13(685):116, P300, 2015.
536. R. Müller. Hierarchical imaging of bone failure. Abstracts XIIIth Congress of the International Society of Bone Morphometry (ISBM), Tokyo, Japan, April 27-29, p. 13, 2015.
537. A. J. Trüssel, F. R. Flohr, G. A. Kuhn and R. Müller. Quantitative local in vivo environment (LivE) imaging of osteocytes during dynamic bone remodeling. Abstracts XIIIth Congress of the International Society of Bone Morphometry (ISBM), Tokyo, Japan, April 27-29, p. 47, 2015.
538. R. Müller. Skeletal systems mechanobiology. Abstracts 21st Congress of the European Society of Biomechanics (ESB), Prague, Czech Republic, July 5-8, p. 19, 2015.
539. S. Hofmann, J. R. Vetsch, J. Melke, R. Müller and K. Ito. Bone tissue engineering: the need to see inside. Abstracts 21st Congress of the European Society of Biomechanics (ESB), Prague, Czech Republic, July 5-8, p. 209, 2015.
540. E. Goff, A. Levchuk, A. J. Trüssel, P. Christen and R. Müller. Correlating local strain modalities in bone with local gene expression in vivo. Abstracts 21st Congress of the European Society of Biomechanics (ESB), Prague, Czech Republic, July 5-8, p. 305, 2015.
541. M. Georgiadis, M. Guizar-Sicairos, A. J. Trüssel, P. Hangartner, O. Bunk, R. Müller and P. Schneider. First study on ultrastructure arrangement of human trabeculae using 3D scanning SAXS. Abstracts 21st Congress of the European Society of Biomechanics (ESB), Prague, Czech Republic, July 5-8, p. 356, 2015.
542. C. Taylor, A. J. Trüssel, M. Shtil and R. Müller. Linking bone remodelling and strain to the production of sclerostin by the osteocyte network in three dimensions. Abstracts 2015 Annual Meeting, Swiss Society for Biomedical Engineering, Neuchâtel, Switzerland, August 26-27, 2, 2015.
543. L. Nimeskern, L. Utomo, I. Lehtoviita, G. Fessel, J. G. Snedeker, G. J. V. M. Van Osch, R. Müller and K. S. Stok. Selective depletion of matrix constituents reveals different mechanical responses in auricular and articular cartilage. Abstracts 2015 Annual Meeting, Swiss Society for Biomedical Engineering, Neuchâtel, Switzerland, August 26-27, 12, 2015.
544. S.D. Badilatti, P. Christen, S.J. Ferguson and R. Müller. Simulation of long-term bone adaptation to cement augmentation in whole human vertebrae. Abstracts 2015 Annual Meeting, Swiss Society for Biomedical Engineering, Neuchâtel, Switzerland, August 26-27, 18, 2015.
545. M. R. Sommer, R. Müller, S. Hofmann and A. R. Studart. Introducing controlled nano-roughness in 3D silk fibroin scaffolds for bone tissue engineering. Abstracts 27th Annual Conference of the European Society for Biomaterials (ESB), Krakow, Poland, August 30 - September 3, P293, 2015.
546. E. Goff, A. Levchuk, A. J. Trüssel, P. Christen and R. Müller. A computational approach to correlate local mechanical tissue loading in bone with local gene expression in vivo. Abstracts 13th International Symposium on Computer Methods in Biomechanics and Biomedical Engineering, Montreal, Canada, September 1-5, OP75, 2015.
547. P. Christen, Y.-W. W. Lee, B. van Rietbergen, C.-Y. J. Cheng and R. Müller. Image-based computation of local disease and treatment effects on bone remodelling in patients. Abstracts 13th International Symposium on Computer Methods in Biomechanics and Biomedical Engineering, Montreal, Canada, September 1-5, OP137, 2015.
548. J. R. Vetsch, R. Müller and S. Hofmann. Visual mapping of computational shear stresses implies mechanical control of cell proliferation and differentiation in bone tissue engineering cultures. Abstracts 4th TERMIS World Congress, Boston, USA, September 8-11, Tissue Eng. Part A, 21(S1):55-56, 2015.
549. D. C. Betts, E. Wehrle, G. A. Kuhn, S. Hofmann and R. Müller. Quantification of mechanical stimuli and bone formation in fracture healing using in vivo time-lapsed imaging. Abstracts 4th TERMIS World Congress, Boston, USA, September 8-11, Tissue Eng. Part A, 21(S1):56, 2015.

550. M. Rubert, J. R. Vetsch, L. Storz, I. Lehtoviita, R. Müller and S. Hofmann. Differences in fetal bovine serum affect the responsiveness of cells to mechanical loads. Abstracts 4th TERMIS World Congress, Boston, USA, September 8-11, Tissue Eng. Part A, 21(S1):401, 2015.
551. E. Wehrle, G. A. Kuhn, D. C. Betts, A. Scheuren and R. Müller. Influence of longitudinal in vivo micro-computed tomography on fracture healing in a femoral defect model. Abstracts 4th TERMIS World Congress, Boston, USA, September 8-11, Tissue Eng. Part A, 21(S1):406, 2015.
552. A. J. Trüssel, F. R. Flohr, G. A. Kuhn and R. Müller. Gene expression and local *in vivo* environment (*LivE*) imaging of osteocyte subpopulations in trabecular mouse bone. Abstracts ASBMR 2015 Annual Meeting, Seattle, USA, J. Bone Miner. Res., 30(S1), available at <http://www.asbmr.org/education/AbstractDetail?aid=4cbcd6f9-819c-4bb4-9cef-6dca9ddd1aae>, 2015.
553. H. Artsi, I. Gurt, M. El-Haj, R. Müller, G. Kuhn, G. Ben Shalom, N. Kronfeld-Schor, R. Paz, E. Cohen-Kfir and R. Dresner-Pollak. Sirt1 stimulates browning of marrow fat: from mice to (wo)men. Abstracts ASBMR 2015 Annual Meeting, Seattle, USA, J. Bone Miner. Res., 30(S1), available at <http://www.asbmr.org/education/AbstractDetail?aid=e9ec8f05-c359-464c-9a70-df6bf1820d69>, 2015.
554. M. Sommer, J. Vetsch, J. Leemann, R. Müller, S. Hofmann and A. Studart. Development and characterization of inverse-opal silk fibroin scaffolds for bone tissue engineering. Abstracts 2015 MRS Fall Meeting & Exhibit, Boston, USA, November 29 - December 4, F4.01, 2015.
555. E. Wehrle, D. C. Betts, E. Floreani, G. A. Kuhn, S. Hofmann and R. Müller. Longitudinal in vivo micro-CT discriminates physiological and impaired healing patterns in mouse femoral defect models. Abstracts 15th Biennial Conference of the International Society for Fracture Repair, Munich, Germany, June 7-10, OP08, 2016.
556. M. Rubert, J. R. Vetsch, I. Lehtoviita, M. Sommer, A. R. Studart, R. Müller and S. Hofmann. Scaffold architecture influences the outcome of dynamic bone tissue engineering cultures. Abstracts 22nd Swiss Conference on Biomaterials and Regenerative Medicine (SSB+RM2016), Zürich, Switzerland, June 9-10, Eur. Cell Mater., 32(S2):26, 2016.
557. R. Müller. Reducing the use of animals by in vivo imaging of bone and blood vessels. Abstracts 2016 eCM XVII: Stem Cells, Bone Fixation, Repair & Regeneration, Davos, Switzerland, June 20-23, Eur. Cell Mater., 32(S3):24, 2016.
558. N. Ohs, R. Müller and P. Christen. Personalized in silico prognosis using clinical big data. Abstracts Latsis Symposium 2016: Personalized Medicine - Challenges and Opportunities, Zürich, Switzerland, June 27-29, p. 33, 2016.
559. P. Christen and R. Müller. Personalized in silico bone health prognosis. Abstracts Latsis Symposium 2016: Personalized Medicine - Challenges and Opportunities, Zürich, Switzerland, June 27-29, p. 35, 2016.
560. M. M. Martino, K. Maruyama, G. Kuhn, T. Satoh, O. Takeuchi, R. Müller and S. Akira. Inhibition of IL-1R1/MyD88 signaling promotes mesenchymal stem cell-driven tissue regeneration. Abstracts TERMIS-EU 2016 Annual Meeting, Uppsala, Sweden, June 28 - July 1, Eur. Cell Mater., 31(S1):64, 2016.
561. D. C. Betts, E. Wehrle, G. Kuhn, S. Hofmann and R. Müller. Determining optimal scaffold stiffness for in vivo bone regeneration: a novel in silico approach in a mouse fracture healing model. Abstracts TERMIS-EU 2016 Annual Meeting, Uppsala, Sweden, June 28 - July 1, Eur. Cell Mater., 31(S1):161, 2016.
562. J. R. Vetsch, R. Müller and S. Hofmann. The influence of curvature on extracellular matrix components in 3D tissue engineered bone constructs cultured under static and perfused conditions. Abstracts TERMIS-EU 2016 Annual Meeting, Uppsala, Sweden, June 28 - July 1, Eur. Cell Mater., 31(S1):166, 2016.
563. E. Wehrle, D. C. Betts, E. Floreani, G. A. Kuhn, S. Hofmann and R. Müller. In vivo micro-CT based approach for discrimination of physiological and impaired healing patterns in mouse femur defect models. Abstracts TERMIS-EU 2016 Annual Meeting, Uppsala, Sweden, June 28 - July 1, Eur. Cell Mater., 31(S1):168, 2016.
564. J. I. Dawson, G. Hulsart-Billström, S. Hofmann, R. Müller, M. J. Stoddart, M. Alini, H. Redl, A. El Haj, R. Brown, V. Salih, J. Hilborn, S. Larsson and R. O. C. Oreffo. Correlation between *in vitro* and *in vivo* assessments of biomaterials for bone-regeneration - a multi centre study. Abstracts TERMIS-EU 2016 Annual Meeting, Uppsala, Sweden, June 28 - July 1, Eur. Cell Mater., 31(S1):212, 2016.
565. J. J. Bara, I. Dresing, S. Zeiter, M. Anton, G. Daculsi, D. Eglin, D. Nehrbass, D. C. Betts, R. Müller, V. A. Stadelmann, M. Alini and M. J. Stoddart. Doxycycline inducible, adenoviral BMP-2 delivery for large bone defect repair. Abstracts TERMIS-EU 2016 Annual Meeting, Uppsala, Sweden, June 28 - July 1, Eur. Cell Mater., 31(S1):P36, 2016.
566. M. Rubert, J. R. Vetsch, I. Lehtoviita, M. Sommer, A. R. Studart, R. Müller and S. Hofmann. On the role of scaffold pore geometry in stem cell mechanotransduction. Abstracts TERMIS-EU 2016 Annual Meeting, Uppsala, Sweden, June 28 - July 1, Eur. Cell Mater., 31(S1):P123, 2016.
567. J. R. Vetsch, R. Müller and S. Hofmann. Curvature influence on 3D mineralized matrix formation under static and perfused conditions: an in vitro model. Abstracts 22nd Congress of the European Society of Biomechanics (ESB), Lyon, France, July 10-13, 400, 2016.
568. S. D. Badilatti, P. Christen, I. Parkinson and R. Müller. In silico simulation of microstructural bone loss in osteoporotic whole human vertebrae. Abstracts 22nd Congress of the European Society of Biomechanics (ESB), Lyon, France, July 10-13, 468, 2016.

569. D. Betts, E. Wehrle, G. Kuhn, S. Hoffmann and R. Müller. Quantification of mechanical control during fracture healing using time-lapsed in vivo micro-CT and micro-FE. Abstracts 22nd Congress of the European Society of Biomechanics (ESB), Lyon, France, July 10-13, 525, 2016.
570. Z. Li, D. Betts, G. Kuhn, R. Müller and D. Ruffoni. The mechanical control of peri-implant bone remodeling investigated by in vivo imaging and in silico modeling. Abstracts 22nd Congress of the European Society of Biomechanics (ESB), Lyon, France, July 10-13, 621, 2016.
571. P. Christen, G. Marano, Y.-W. W. Lee, C.-Y. J. Cheng and R. Müller. Counteracting decreased bone strength in young females with adolescent idiopathic scoliosis. Abstracts 22nd Congress of the European Society of Biomechanics (ESB), Lyon, France, July 10-13, 897, 2016.
572. G. Paul, Z. Li, P. Christen and R. Müller. Effects of implant pin misalignment on tissue loading in a murine caudal vertebrae axial compression device. Abstracts 22nd Congress of the European Society of Biomechanics (ESB), Lyon, France, July 10-13, 906, 2016.
573. F. R. Flohr, M. Shtil and R. Müller. Surface functionalization strategy for bone biomimetic osteocyte models. Abstracts Biointerfaces International 2016, Zurich, Switzerland, August 23-25, Eur. Cell Mater., 32(S5):76, 2016.
574. R. Müller. Bone systems mechanobiology using Live imaging. Abstracts 10th Australasian Biomechanics Conference (ABC10), Melbourne, Australia, December 4-6, D2:15, 2016.
575. R. Müller. Systems mechanobiology of bone remodeling and adaptation. In P. Nithiarasu and A.M. Robertson, editors, Proceedings 5th International Conference on Computational and Mathematical Biomedical Engineering (CMBE), Pittsburgh, USA, April 9-12, p. 4, 2017.
576. G. Marano, Y.-W. W. Lee, C.-Y. J. Cheng, R. Müller and P. Christen. Effects of whole body vibration therapy on bone strength and mechanical tissue loading in the distal tibia of girls with adolescent idiopathic scoliosis. 27th Joint Meeting SVGO and SBMS, Bern, Switzerland, May 4, Schattauer Osteologie 2, A48-A50, 2017.
577. F. R. Flohr and R. Müller. IDG-SW3 osteocytes extend processes in micro-3D printed lacunocanalicular network-like structures - a novel in vitro 3D biomimetic osteocyte model. Abstracts 44th Annual European Calcified Tissue Society Congress (ECTS 2017), Salzburg, Austria, May 13-16, Calcif. Tiss. Int., 100:S49, 2017.
578. M. Rubert, J. R. Vetsch, S. Hofman and R. Müller. A more physiologically relevant 3D in vitro co-culture model for studying the structure-function relationships of bone remodelling. Abstracts 44th Annual European Calcified Tissue Society Congress (ECTS 2017), Salzburg, Austria, May 13-16, Calcif. Tiss. Int., 100:S75, 2017.
579. A. C. Scheuren, R. R. Plett, C. Taylor, P. Christen and R. Müller. Local in vivo environment (Live) imaging in bone. Abstracts ICORD Trainee Symposium 2017, Vancouver, Canada, June 14, 2017.
580. Z. Li, D. Betts, G. Kuhn, R. Müller and D. Ruffoni. Mechanical loading therapy increases bone formation while reducing bone resorption following implantation in a mouse model of postmenopausal osteoporosis. Joint Meeting of the Australian and New Zealand Bone and Mineral Society (ANZBMS) and the International Federation of Musculoskeletal Research Societies (IFMRS), in conjunction with the Japanese Society for Bone and Mineral Research (JSBMR), Brisbane, Australia, June 17-21, JBMR Plus, in press, 2017.
581. F. R. Flohr and R. Müller. Micro-3D printing for the fabrication of a biomimetic model of functional osteocytes. Abstracts MaP Graduate Symposium 2017, Zürich, Switzerland, June 22, 2017.
582. M. Rubert, J. R. Vetsch, S. Hofman and R. Müller. Bone remodelling imaging in a human-based in vitro co-culture model - a proof of concept. Abstracts TERMIS-EU 2017 Annual Meeting, Davos, Switzerland, June 26-30, Eur. Cell Mater. Collection2:26, 2017.
583. D. Betts, E. Wehrle, G. Kuhn, A. Scheuren, G. Paul, S. Hoffmann and R. Müller. The effect of defect size on local mechanical environment in an in vivo mouse femoral defect model. Abstracts TERMIS-EU 2017 Annual Meeting, Davos, Switzerland, June 26-30, Eur. Cell Mater., Collection2:230, 2017.
584. F. R. Flohr and R. Müller. Towards bone biomimetic in vitro osteocyte models using micro-3d printing. Abstracts TERMIS-EU 2017 Annual Meeting, Davos, Switzerland, June 26-30, Eur. Cell Mater., Collection2:P297, 2017.
585. J. Zhang, M. Rubert, E. Wehrle, J. R. Vetsch, G. Paul and R. Müller. The influence of mechanical properties of 3D bioprinted hMSCs-laden alginate composite scaffolds on cell viability and morphology. Abstracts TERMIS-EU 2017 Annual Meeting, Davos, Switzerland, June 26-30, Eur. Cell Mater., Collection2:P608, 2017.
586. E. Wehrle, D. Betts, G. Kuhn, A. Scheuren, S. Hofmann and R. Müller. Non-union defects show impaired bone formation in the early reparative phase in a mouse femoral defect model. Abstracts TERMIS-EU 2017 Annual Meeting, Davos, Switzerland, June 26-30, Eur. Cell Mater., Collection2:P944, 2017.
587. N. Ohs, J. Kleffmann, Y.-W. W. Lee, C.-Y. J. Cheng, P. Arbenz, R. Müller and P. Christen. Personalised bone health prognosis through integrated patient big data analysis of medical images, molecular profiles and physical activity levels. Abstracts 21st International Bone Densitometry Workshop (IBDW) and the 7th European Symposium on Ultrasonic Characterization of Bone (ESUCB), Banz (Germany), June 26-30, p. 93, 2017.

588. G. Marano, Y.-W. W. Lee, C.-Y. J. Cheng, R. Müller and P. Christen. Whole body vibration therapy reduces local peak loading in the distal tibia of girls with adolescent idiopathic scoliosis. Abstracts 21st International Bone Densitometry Workshop (IBDW) and the 7th European Symposium on Ultrasonic Characterization of Bone (ESUCB), Banz (Germany), June 26-30, p. 95, 2017.
589. D. Betts, E. Goff, M. Casanova, Z. Li, P. Christen and R. Müller. Segmentation of osteocyte lacuna within ultra-high resolution desktop micro-CT images: sensitivity and precision reveal issues with current state of the art. Abstracts 21st International Bone Densitometry Workshop (IBDW) and the 7th European Symposium on Ultrasonic Characterization of Bone (ESUCB), Banz (Germany), June 26-30, p. 98, 2017.
590. A. Scheuren, R. Plett, C. Taylor, P. Christen and R. Müller. Visualization and analysis of diverse experimental data from 3D local in vivo environment (LivE) imaging in bone. Abstracts 23rd Congress of the European Society of Biomechanics (ESB), Seville, Spain, July 2-5, 1577, 2017.
591. E. Goff, D. Betts, P. Christen and R. Müller. Influence of μ CT beam energy on cell lacunar imaging. Abstracts 23rd Congress of the European Society of Biomechanics (ESB), Seville, Spain, July 2-5, 1667, 2017.
592. N. Ohs, J. Kleffmann, Y.-W. W. Lee, C.-Y. J. Cheng, P. Arbenz, R. Müller and P. Christen. Patient big data - an analysis integrating medical images, molecular profiles and physical activity levels. Abstracts 2017 Annual Meeting, Swiss Society for Biomedical Engineering, Winterthur, Switzerland, August 30, p. 11, 2017.
593. E. Goff, D. C. Betts, Z. Li, M. Casanova, P. Christen and R. Müller. Cell lacunar imaging dependence on μ CT beam energy. Abstracts 2017 Annual Meeting, Swiss Society for Biomedical Engineering, Winterthur, Switzerland, August 30, p. 17, 2017.
594. A. C. Scheuren, R. R. Plett, C. Taylor, P. Christen and R. Müller. Multiscale 3D data visualization for the exploration of bone mechanomics. Abstracts 2017 Annual Meeting, Swiss Society for Biomedical Engineering, Winterthur, Switzerland, August 30, p. 36, 2017.
595. G. R. Paul, M. Cherbuin, E. Wehrle and R. Müller. Minimising external fixator stiffness variation via computational analysis. Abstracts 2017 Annual Meeting, Swiss Society for Biomedical Engineering, Winterthur, Switzerland, August 30, p. 45, 2017.
596. F. R. Flohr and R. Müller. A novel biomimetic in vitro model to study osteocyte mechanobiology using micro-3D printing. Abstracts 2017 Annual Meeting, Swiss Society for Biomedical Engineering, Winterthur, Switzerland, August 30, p. 46, 2017.
597. D. C. Betts, E. Wehrle, G. A. Kuhn, A. C. Scheuren, G. R. Paul, S. Hoffmann and R. Müller. Investigating local mechanical regulation of bone healing in an in vivo mouse femoral defect model. Abstracts 2017 Annual Meeting, Swiss Society for Biomedical Engineering, Winterthur, Switzerland, August 30, p. 37, 2017.
598. P. Christen, N. Ohs, Y.-W. W. Lee, C.-Y. J. Cheng, P. Arbenz and R. Müller. A computational data science framework for personalised bone health prognosis. Abstracts VII International Congress on Computational Bioengineering (ICCB 2017), Compiègne, France, September 6-8, p. 68-69, 2017.
599. D. C. Betts, E. Wehrle, G. A. Kuhn, S. Hoffmann and R. Müller. The influence of scaffold stiffness on murine fracture healing: an in silico study. Abstracts ASBMR 2017 Annual Meeting, Denver, USA, J. Bone Miner. Res., 32(S1), available at <http://www.asbmr.org/education/AbstractDetail?aid=31705ceb-a4de-4433-9805-cb73e92f5e73>, 2017.
600. P. Christen, G. Marano, Y.-W. W. Lee, T.-P. Lam and R. Müller. Whole body vibration triggers load-driven bone formation in adolescents with idiopathic scoliosis. Abstracts ASBMR 2017 Annual Meeting, Denver, USA, J. Bone Miner. Res., 32(S1), available at <http://www.asbmr.org/education/AbstractDetail?aid=ba8355a4-a86a-48c3-bfcb-8c0908017a46>, 2017.
601. G. Marano, Y.-W. W. Lee, T.-P. Lam, R. Müller and P. Christen. Whole body vibration therapy counteracts increasing local peak loading in the distal tibia of girls with adolescent idiopathic scoliosis. Abstracts 37th Annual Congress of the Hong Kong Orthopaedic Association, Hong Kong, November 4-5, p. 100, 2017.
602. I. Bellantuono, D. Ehninger, S. Howlett, R. Müller, P. Potter, H. Stemplewski, T. Tchkonja, A. U. Trendelenburg, R. E. Vandenbroucke, R. van Os, and N. van Riel. Geroprotectors for multimorbidity and frailty: roadmap to clinical translation. Abstracts International Conference on Frailty & Sarcopenia Research (ICFSR), Miami (USA), March 1-3, J. Frailty Aging, 7(S1):80, 2018.
603. E. Wehrle, G. R. Paul, D. C. Betts, G. A. Kuhn and R. Müller. The effect of individualized cyclic mechanical loading on the remodeling phase of fracture healing as assessed by time-lapsed in vivo imaging. Abstracts 28th Joint Meeting SVGO and SBMS, Bern, Switzerland, May 3, 2018.
604. S. Sebastian, G. Marano, Y.-W. W. Lee, T.-P. Lam, R. Müller and P. Christen. Potential of whole body vibration therapy to increase bone strength in adolescents with idiopathic scoliosis. Abstracts 28th Joint Meeting SVGO and SBMS, Bern, Switzerland, May 3, 2018.
605. K. Simon, G. Marano, M. Blauth, R. Arora, R. Müller and P. Christen. Local in vivo assessment of human distal radius fractures by time-lapse HR-pQCT. Abstracts 28th Joint Meeting SVGO and SBMS, Bern, Switzerland, May 3, 2018.
606. E. Wehrle, G. R. Paul, D. C. Betts, G. A. Kuhn and R. Müller. Fracture callus is responsive and adapts to individualized cyclic mechanical loading shown by time-lapsed in vivo imaging. Abstracts 45th Annual European Calcified Tissue Society Congress (ECTS 2018), Valencia, Spain, May 26-29, Calcif. Tiss. Int., 102(S1):P053, 2018.

607. J. Zhang, M. Rubert, E. Wehrle, J. R. Vetsch and R. Müller. The influence of mechanical stiffness of 3D bioprinted hMSCs-laden scaffolds on cell mineralization, proliferation and differentiation. Abstracts 24th Swiss Conference on Biomaterials and Regenerative Medicine (SSB+RM2018), Fribourg, Switzerland, June 6-7, Eur. Cell Mater., Collection 2:15, 2018.
608. R. Müller. Multiscale bone mechanobiology in aging. Abstracts 8th World Congress of Biomechanics, Dublin, Ireland, July 8-12, O0267, 2018.
609. E. Goff, J. P. McKinley, D. C. Betts, P. Christen and R. Müller. A novel histogram-based thresholding approach for accurate segmentation of osteocyte lacunae in micro-CT images of human bone biopsies. Abstracts 8th World Congress of Biomechanics, Dublin, Ireland, July 8-12, O0418, 2018.
610. M. Graß, D. C. Betts, A. Malhotra and R. Müller. Predicting angiogenesis using bone fracture healing outcomes in an in vivo mouse femur defect model. Abstracts 8th World Congress of Biomechanics, Dublin, Ireland, July 8-12, O0475, 2018.
611. N. Ohs, S. Sebastian, B. van Rietbergen, R. Müller and P. Christen. Voxel size-dependency of a load-adaptive bone remodelling algorithm. Abstracts 8th World Congress of Biomechanics, Dublin, Ireland, July 8-12, O0583, 2018.
612. R. Müller. Time-lapsed in vivo imaging of bone adaptation and regeneration. Abstracts 8th World Congress of Biomechanics, Dublin, Ireland, July 8-12, O0622, 2018.
613. A. C. Scheuren, A. Malhotra, G. A. Kuhn, Y. Kameo and R. Müller. Cyclic but not static loading increases bone mass in mouse caudal vertebrae. Abstracts 8th World Congress of Biomechanics, Dublin, Ireland, July 8-12, O0624, 2018.
614. D. C. Betts, M. Graß, N. Ohs, A. Malhotra, P. Christen, E. Wehrle, G. A. Kuhn and R. Müller. A three-dimensional multiscale model of fracture healing in mice: sensitivity of callus microstructure to osteoblast polarization and initial MSC density. Abstracts 8th World Congress of Biomechanics, Dublin, Ireland, July 8-12, O0731, 2018.
615. G. R. Paul, E. Wehrle, D. C. Betts, G. A. Kuhn and R. Müller. Real-time FEA allows homogenization of strain profiles in individual mice for improved fracture healing after cyclic loading. Abstracts 8th World Congress of Biomechanics, Dublin, Ireland, July 8-12, O0734, 2018.
616. A. Malhotra, D. C. Betts, N. Ohs, G. R. Paul and R. Müller. Micro-finite element analysis of a mechanically loaded bone defect model to estimate peak cyclic forces in caudal vertebrae of individual mice. Abstracts 8th World Congress of Biomechanics, Dublin, Ireland, July 8-12, O1295, 2018.
617. E. Wehrle, G. R. Paul, D. C. Betts, G. A. Kuhn and R. Müller. Individualized cyclic mechanical loading improves callus properties in mice during the remodeling phase of fracture healing as assessed from time-lapsed in vivo imaging. Abstracts 8th World Congress of Biomechanics, Dublin, Ireland, July 8-12, O1398, 2018.
618. F. R. Flohr, J. Moeller and R. Müller. A three-dimensional in vitro osteocyte model for mechanobiology: micro-3D printed lacuno-canalicular networks to control osteocyte morphology. Abstracts 8th World Congress of Biomechanics, Dublin, Ireland, July 8-12, O1446, 2018.
619. E. Goff, J. P. McKinley, D. C. Betts, P. Christen and R. Müller. A predictive histogram-based thresholding approach for micro-CT segmenting human osteocyte lacunae. Abstracts 2018 Annual Meeting, Swiss Society for Biomedical Engineering, Biel, Switzerland, August 28, 2018.
620. G. R. Paul, E. Wehrle, D. C. Betts, G. A. Kuhn and R. Müller. Real-time FEA homogenises strain profiles in mice for improved fracture healing after cyclic loading. Abstracts 2018 Annual Meeting, Swiss Society for Biomedical Engineering, Biel, Switzerland, August 28, p. 8, 2018.
621. J. Zhou, M. Rubert, J. Baumgartner, J. Zhang, N. Brogière, M. Zenobi-Wong and R. Müller. Evaluation of the functionality of osteocytic network in 3D culture. Abstracts 5th TERMIS World Congress, Kyoto, Japan, September 4-7, O1-P378, 2018.
622. E. Wehrle, D. C. Betts, G. A. Kuhn, S. Hofmann and R. Müller. Time-lapsed in vivo micro-CT imaging allows longitudinal assessment of biomaterials in a mouse femur defect model. Abstracts 5th TERMIS World Congress, Kyoto, Japan, September 4-7, O3-P010, 2018.
623. J. Zhang, J. R. Vetsch, E. Wehrle, M. Rubert and R. Müller. Mechanical stiffness of 3D bioprinted hMSCs-laden scaffolds influences cell mineralization, proliferation and differentiation in a static bone bioreactor. Abstracts 5th TERMIS World Congress, Kyoto, Japan, September 4-7, O3-P054, 2018.
624. M. M. Martino, Z. Julier, A. J. Park, K. Maruyama, K. Maeda, G. A. Kuhn, R. Müller and S. Akira. Inhibiting IL-1 signaling promotes growth factor-based regeneration. Abstracts 5th TERMIS World Congress, Kyoto, Japan, September 4-7, O3-P332, 2018.
625. A. C. Scheuren, G. A. Kuhn and R. Müller. Combining longitudinal μ CT imaging with frailty assessments in the PolgA mouse. Abstracts MouseAge Annual Meeting 2018, Rome, Italy, September 24-25, 2018.
626. K. Simon, G. Marano, M. Blauth, G. Degenhart, R. Müller, P. Christen and R. Arora. In vivo Untersuchungsprotokoll mittels HR-pQCT erlaubt detailgetreue Beurteilung der knöchernen Heilung bei distalen Radiusfrakturen. Abstracts 54. Jahrestagung der österreichischen Gesellschaft für Unfallchirurgie, Vienna, Austria, October 4-6, 2018.
627. E. Wehrle, G. A. Kuhn, G. Paul, D. Betts and R. Müller. Monitoring bone defect healing by time-lapsed in vivo micro-CT. Abstracts Scanco User Meeting 2018, Appenzell, Switzerland, October 25-27, 2018.

628. A. C. Scheuren, G. A. Kuhn and R. Müller. Longitudinal micro-CT imaging of bone remodeling in a mouse model of accelerated ageing. Abstracts Scanco User Meeting 2018, Appenzell, Switzerland, October 25-27, 2018.
629. F. R. Flohr, N. Derron, J. Moeller and R. Müller. Printed lacuno-canalicular network (pLCN): an engineered 3D environment for multi-modality imaging of osteocyte networks. Abstracts 22nd International Workshop on Quantitative Musculoskeletal Imaging (QMSKI), Lake Louise, Canada, February 24-March 1, 2019.
630. N. Ohs, D. C. Betts, S. Sebastian, B. van Rietbergen, R. Müller and P. Christen. Super-resolution images reduce voxel size effects of a load-adaptive bone remodelling algorithm. 22nd International Workshop on Quantitative Musculoskeletal Imaging (QMSKI), Lake Louise, Canada, February 24-March 1, 2019.
631. A. C. Scheuren, G. A. Kuhn and R. Müller. Coupling longitudinal imaging and frailty assessments: advancing applications in aging mouse studies. 22nd International Workshop on Quantitative Musculoskeletal Imaging (QMSKI), Lake Louise, Canada, February 24-March 1, 2019.
632. E. Wehrle, G. A. Kuhn, A. C. Scheuren and R. Müller. Development of CRISPR/Cas9-based dual-fluorescent reporter mouse models to study in vivo single cell mechanomics of osteoblasts and osteoclasts. Abstracts 46th Annual European Calcified Tissue Society Congress (ECTS 2019), Budapest, Hungary, May 11-14, 2019.
633. A. C. Scheuren, G. D'Hulst, E. Masschelein, G. A. Kuhn, E. Wehrle, K. De Bock and R. Müller. Longitudinal evaluation of the musculoskeletal and frailty phenotype in a mouse model of accelerated aging. Abstracts 46th Annual European Calcified Tissue Society Congress (ECTS 2019), Budapest, Hungary, May 11-14, 2019.
634. R. Müller. Micro-3D printing of osteocyte organoid models. Abstracts TERMIS-EU 2019 Annual Meeting, Rhodes, Greece, May 27-31, p. 766, Eur. Cell Mater., Collection3:229, 2019.
635. J. H. Zhang, M. Rubert, H. Eyisoğlu, H. J. Huang, X. H. Qin and R. Müller. 3D bioprinting of cell-laden bone constructs with advanced bioinks. Abstracts TERMIS-EU 2019 Annual Meeting, Rhodes, Greece, May 27-31, p. 1081, Eur. Cell Mater., Collection3:545, 2019.
636. X. H. Qin and R. Müller. In situ photopatterning of 3d osteocyte microenvironments. Abstracts TERMIS-EU 2019 Annual Meeting, Rhodes, Greece, May 27-31, p. 1386, Eur. Cell Mater., Collection3:850, 2019.
637. D. Akilbekova, H. David, M. Rubert, X. H. Qin and R. Müller. A double-crosslinking approach for high-fidelity 3D bioprinting of cell-laden scaffolds. Abstracts TERMIS-EU 2019 Annual Meeting, Rhodes, Greece, May 27-31, p. 1451, Eur. Cell Mater., Collection3:915, 2019.
638. V. L. Mainardi, M. Rubert, C. Arrigoni, G. Dubini, C. Candrian, M. Moretti and R. Müller. Assessment of fluid dynamic stimulation effects on cell mineralization in bioprinted scaffolds. Abstracts 79th Annual Congress of the Swiss Society of Orthopaedics, Baden, Switzerland, June 26-28, Swiss Med. Wkly., 149(236):74S, 2019.
639. C. Collins, N. Ohs, P. Atkins, L. Horling, M. Blauth, R. Müller and P. Christen. Delayed fracture healing detected in aged distal radius fracture patients using in vivo HR-pQCT-based micro-FE. Abstracts 25th Congress of the European Society of Biomechanics (ESB), Vienna, Austria, July 7-10, p. 10, 2019.
640. P. Atkins, K. Simon, L. Horling, N. Ohs, P. Christen, M. Blauth and R. Müller. In vivo motion artifacts significantly degrade image registration accuracy. Abstracts 25th Congress of the European Society of Biomechanics (ESB), Vienna, Austria, July 7-10, p. 138, 2019.
641. L. Engelhardt, F. Niemeyer, T. Seger, L. Zanotti, P. Christen, R. Müller, K. Simon, M. Blauth, A. Ignatius and U. Simon. Healing simulation of compression fractures in the distal radius. Abstracts 25th Congress of the European Society of Biomechanics (ESB), Vienna, Austria, July 7-10, p. 172, 2019.
642. A. C. Scheuren, P. Vallaster, G. A. Kuhn, A. Malhotra, G. R. Paul, Y. Kameo and R. Müller. Effect of loading frequency on trabecular bone adaptation in mouse caudal vertebrae. Abstracts 25th Congress of the European Society of Biomechanics (ESB), Vienna, Austria, July 7-10, p. 263, 2019.
643. N. Ohs, D. C. Tournelle né Betts, C. M. O'Neill, C. Eskesen, R. Müller and P. Christen. Fully automated contouring of HR-pQCT images of distal radius fractures. Abstracts 25th Congress of the European Society of Biomechanics (ESB), Vienna, Austria, July 7-10, p. 313, 2019.
644. D. Boaretti, D. C. Betts and R. Müller. Studying how the link between mechanical stimulation and cellular activation effects bone microarchitecture. Abstracts 25th Congress of the European Society of Biomechanics (ESB), Vienna, Austria, July 7-10, p. 415, 2019.
645. Y. Kameo, D. J. Cener, A. C. Scheuren, R. Müller and T. Adachi. In silico reproduction of frequency-dependent bone adaptation to cyclic loading. Abstracts 25th Congress of the European Society of Biomechanics (ESB), Vienna, Austria, July 7-10, p. 417, 2019.
646. G. R. Paul, E. Wehrle, J. Zhang, G. A. Kuhn and R. Müller. Early stage habitual loading is correlated with fracture callus stiffness progression in individual mice. Abstracts 25th Congress of the European Society of Biomechanics (ESB), Vienna, Austria, July 7-10, p. 686, 2019.
647. R. Müller. From mechanics to mechanomics: a journey through bone. Abstracts XXVII Congress of the International Society of Biomechanics (ISB 2019), Calgary, Canada, July 31-August 4, 1559834874, 2019.
648. C. M. O'Neill, G. R. Paul, E. Wehrle and R. Müller. High-throughput 3D local in vivo environment (Live) imaging for gene and protein analysis of bone tissue. Abstracts XXVII Congress of the International Society of Biomechanics (ISB 2019), Calgary, Canada, July 31-August 4, 2-1702, 2019.

649. G. R. Paul, E. Wehrle, J. Zhang, G. A. Kuhn and R. Müller. Habitual loading prior to bridging is an indicator of fracture callus stiffness progression in individual mice. Abstracts 2019 Annual Meeting, Swiss Society for Biomedical Engineering, Geneva, Switzerland, August 27, 2019.
650. N. Ohs, D. C. Tourolle né Betts, B. Schroeder, P. Atkins, C. Collins, P. Christen and R. Müller. Contouring radius fractures using active contours. Abstracts 2019 Annual Meeting, Swiss Society for Biomedical Engineering, Geneva, Switzerland, August 27, 2019.
651. J. Griesbach, G. N. Schädli, G. Paul, R. Müller and M. Rubert. Associating local mechanical stimuli and mineral formation in scaffolds under dynamic loading. Abstracts 2019 Annual Meeting, Swiss Society for Biomedical Engineering, Geneva, Switzerland, August 27, 2019.
652. A. C. Scheuren, P. Vallaster, G. A. Kuhn, A. Malhotra, G. R. Paul, Y. Kameo and R. Müller. Loading frequency affects bone adaptation in mouse caudal vertebrae as assessed by longitudinal micro-CT and dynamic in vivo morphometry. Abstracts XIVth Congress of the International Society of Bone Morphometry (ISBM), Orlando, USA, September 23-26, 2019.
653. E. Goff, F. Buccino, C. Bregoli and R. Müller. Ultra-high-resolution micro-CT imaging and high-throughput phenotyping of individual osteocyte lacunae in human bone. Abstracts XIVth Congress of the International Society of Bone Morphometry (ISBM), Orlando, USA, September 23-26, 2019.
654. R. Müller. Synchrotron imaging for bone research. Abstracts 5th Joint Meeting of the Bone Research Society (BRS) and the British Orthopaedic Research Society (BORS), Cardiff, UK, September 4-6, 2019.
655. D. C. Tourolle né Betts, C. Ledoux, D. Boaretti, M. Aguilera, N. Saleem and R. Müller. Denosumab 10 year simulation of bone remodeling in human biopsies. Abstracts ASBMR 2019 Annual Meeting, Orlando, USA, J. Bone Miner. Res., 34(S1):112-113, 2019, available at <https://www.asbmr.org/education/AbstractDetail?aid=f9786c58-2363-4a8d-9aed-ea36abe659bd>.
656. A. C. Scheuren, P. Vallaster, G. A. Kuhn, A. Malhotra, G. R. Paul, Y. Kameo and R. Müller. Bone adaptation to load is controlled by local mechanical signals with net bone changes logarithmically dependent on loading frequency. Abstracts ASBMR 2019 Annual Meeting, Orlando, USA, J. Bone Miner. Res., 34(S1):279, 2019, available at <https://www.asbmr.org/education/AbstractDetail?aid=053f5631-b36e-4217-a5c1-b0cecd0163c>.
657. X.-H. Qin, C. Gehre, O. Marti and R. Müller. 3D-printed mini-bone-organs with living osteocyte networks. Abstracts 3D Cell Culture 2020: Models, Applications & Translation, Freiburg, Germany, May 12-14, cancelled, 2020.
658. J. Zhang, M. Ganeyev, A.-K. Zehnder, M. Rubert and R. Müller. Cyclic mechanical loading enhances bone-like tissue formation and compressive modulus in 3D bioprinted cell-laden scaffolds. Abstracts TERMIS-EU 2020 Annual Meeting, Manchester, UK, May 26-29, Eur. Cell Mater., cancelled, 2020.
659. C. Gehre, X. Sutter, P. Campos, X. Wang, S. Deng, B. Nelson, R. Müller and X.-H. Qin. Subtractive 3D laser microprinting of cell guidance cues in hydrogels. Abstracts MaP Graduate Symposium, The 15th Annual Gathering of Materials & Processes Researchers at ETH Zürich, Zürich, Switzerland, July 1-2, p. 15, 2020.
660. E. Goff, F. Vicentini and R. Müller. A Novel Micro-FE based model to investigate the role of osteocyte lacunae in microcracking of human bone. Abstracts ASBMR 2020 Annual Meeting, Online, J. Bone Miner. Res., 35(1):66, 2020.
661. P. R. Atkins, K. Simon, C. J. Collins, N. Ohs, L. Horling, P. Christen, M. Blauth and R. Müller. Local bone remodeling in distal radius fracture healing is not isolated to the fracture region: a time-lapse HR-pQCT imaging study. Abstracts ASBMR 2020 Annual Meeting, Online, J. Bone Miner. Res., 35(1):67, 2020.
662. J. K. Griesbach, G. N. Schädli, G. R. Paul, R. Müller and M. Rubert. A novel method for associating local strain and mineral formation in applications of bone tissue engineering. Abstracts ASBMR 2020 Annual Meeting, Online, J. Bone Miner. Res., 35(1):143, 2020.
663. M. Walle, F. C. Marques, N. Ohs, R. Müller, and C. J. Collins. 3D physiological load estimation based on time-lapsed HR-pQCT images. Abstracts ASBMR 2020 Annual Meeting, Online, J. Bone Miner. Res., 35(1):143-144, 2020.
664. D. Boaretti, L. Zamboni, D. Tourolle and R. Müller. Improved initialisation of a multiscale in silico model of trabecular bone remodelling using in vivo murine data. Abstracts ASBMR 2020 Annual Meeting, Online, J. Bone Miner. Res., 35(1):144, 2020.
665. D. Yilmaz, Y. Fischer, R. Müller and E. Wehrle. Genotypic and phenotypic characterization of CRISPR/Cas9 mediated fluorescent osteoclast reporter mice. Abstracts ASBMR 2020 Annual Meeting, Online, J. Bone Miner. Res., 35(1):267, 2020.
666. A. M. de Leeuw, J. Zhang, P. J. Lim, M. Rüger, M. Rohrbach, C. Giunta, R. Müller and M. Rubert. Development of a 3D bioprinted human-based bone model using patient-derived cells. Abstracts ASBMR 2020 Annual Meeting, Online, J. Bone Miner. Res., 35(1): 302-303, 2020.
667. D. C. Tourolle, C. Ledoux, D. Boaretti, M. Aguilera, N. Saleem and R. Müller. Denosumab 10 year simulation of bone remodeling in human biopsies. Abstracts 47th Annual European Calcified Tissue Society Congress (ECTS 2020), Online, October 21-24, Bone Rep., 13:100629, 2020.
668. G. R. Paul, E. Wehrle, J. Zhang, G. A. Kuhn and R. Müller. Habitual loading measured in individual mice one week post surgery predicts fracture callus stiffness progression in a femur defect model. Abstracts 47th

Annual European Calcified Tissue Society Congress (ECTS 2020), Online, October 21-24, Bone Rep., 13:100415, 2020.

669. D. Yilmaz, Y. Fischer, S. Zimmermann, G. Hwang, R. Müller and E. Wehrle. CRISPR/Cas9 mediated dual fluorescent reporter mice to study spatial bone genomics of osteoblasts and osteoclasts in the local in vivo environment. Abstracts 48th Annual European Calcified Tissue Society Congress (ECTS 2021), Online, May 6-8, Bone Rep., 14:100871, 2021.
670. M. Walle, F. C. Marques, N. Ohs, M. Blauth, R. Müller and C. J. Collins. Tissue-level mechanical stimuli drive bone formation and resorption in humans and mice. Abstracts 48th Annual European Calcified Tissue Society Congress (ECTS 2021), Online, May 6-8, Bone Rep., 14:101032, 2021.
671. S. Callens, D. Tourolle, R. Müller and A. A. Zadpoor. Fundamental shape analysis of human trabecular bone using surface curvature and Minkowski functionals. Abstracts 26th Congress of the European Society of Biomechanics (ESB), Online, Milan, Italy, July 11-14, 1763, 2021.
672. C. J. Collins, P. R. Atkins, N. Ohs, L. Horling, K. Stock, P. Christen, M. Blauth and R. Müller. Contralateral is not a control: an in vivo HR-pQCT micro-FE study of hand dominance in the healing distal radius. Abstracts 26th Congress of the European Society of Biomechanics (ESB), Online, Milan, Italy, July 11-14, 1542, 2021.
673. F. C. Marques, A. C. Scheuren, E. Wehrle and R. Müller. Mechanostat estimation from time-lapsed in vivo micro-CT mouse data. Abstracts 26th Congress of the European Society of Biomechanics (ESB), Online, Milan, Italy, July 11-14, 1469, 2021.
674. J. K. Griesbach, G. N. Schädli, N. Ohs, G. R. Paul, C. J. Collins, R. Müller and M. Rubert. Linking local mechanical stimuli and mineral formation - a surface strain dilation approach for tissue biomechanics. Abstracts 26th Congress of the European Society of Biomechanics (ESB), Online, Milan, Italy, July 11-14, 1530, 2021.
675. C. Ledoux, D. Boaretti, D. C. Tourolle né Betts, R. Müller and C. J. Collins. In silico trials on osteoporotic human bone fit denosumab withdrawal rebound effect seen in clinical patient data. Abstracts 26th Congress of the European Society of Biomechanics (ESB), Online, Milan, Italy, July 11-14, 1683, 2021.
676. N. Mathavan, E. Wehrle, G. R. Paul, D. Yilmaz, G. A. Kuhn and R. Müller. Individualized cyclic mechanical loading enhances the regenerative response of bone in a mouse model of aging. Abstracts 26th Congress of the European Society of Biomechanics (ESB), Online, Milan, Italy, July 11-14, 1464, 2021.
677. M. Walle, F. C. Marques, N. Ohs, M. Blauth, R. Müller and C. J. Collins. Bone mechanoregulation allows subject-specific in vivo estimation of microstructural tissue loading history. Abstracts 26th Congress of the European Society of Biomechanics (ESB), Online, Milan, Italy, July 11-14, 1394, 2021.
678. D. Boaretti, F. C. Marques, E. Wehrle and R. Müller. Towards validation of an in silico model of trabecular bone remodelling in caudal murine vertebra. Abstracts 26th Congress of the European Society of Biomechanics (ESB), Online, Milan, Italy, July 11-14, 1339, 2021.
679. F. C. Marques, A. C. Scheuren, E. Wehrle and R. Müller. Quantification of mechanoregulation from time-lapsed in vivo micro-CT mouse data. Abstracts 26th Congress of the European Society of Biomechanics (ESB), Online, Milan, Italy, July 11-14, 1472, 2021.
680. D. Eggemann, M. Walle, P. Atkins, K. Stock, R. Müller and C. J. Collins. Operator-independent characterization of image quality in HR-pQCT scans using a fully automated convolutional neural network-based classification method. Abstracts ASBMR 2021 Annual Meeting, San Diego, USA, October 1-4, J. Bone Miner. Res., 37(S1):10-11, 2021.
681. D. Yilmaz, F. C. Marques, E. M. Wehrle, G. A. Kuhn and R. Müller. CRISPR/Cas9 mediated dual fluorescent reporter mice response to in vivo mechanical loading. Abstracts ASBMR 2021 Annual Meeting, San Diego, USA, October 1-4, J. Bone Miner. Res., 37(S1):206-206, 2021.
682. D. Yilmaz, L. Gregorio, C. Gehre, E. M. Wehrle, X.-H. Qin, G. A. Kuhn and R. Müller. Prematurely aging male PolgA mice display structural and cellular hallmarks of senile osteoporosis. Abstracts ASBMR 2021 Annual Meeting, San Diego, USA, October 1-4, J. Bone Miner. Res., 37(S1):209-209, 2021.
683. N. Mathavan, G. R. Paul, F. C. Marques, D. Yilmaz, G. A. Kuhn, E. Wehrle and R. Müller. Individualized cyclic mechanical loading significantly augments the regenerative response of bone in a mouse model of premature aging. Abstracts ASBMR 2021 Annual Meeting, San Diego, USA, October 1-4, J. Bone Miner. Res., 37(S1):339-340, 2021.
684. J. Zhang, M. Ganeyev, A.-K. Zehnder, A. de Leeuw, G. N. Schädli, J. Griesbach, M. Rubert and R. Müller. Long-term mechanical loading is required for the formation of 3D bioprinted functional osteocyte bone organoids. Abstracts 6th World Congress of the Tissue Engineering and Regenerative Medicine International Society (TERMIS-WC 2021), Maastricht, The Netherlands, November 15-19, 1028, 2021.
685. J. Griesbach, J. Zhang, C. J. Collins, M. Rubert and R. Müller. Global and regional analysis of ECM mineralization and tissue density-modulus conversion for 3D bioprinted bone organoids. Abstracts 6th World Congress of the Tissue Engineering and Regenerative Medicine International Society (TERMIS-WC 2021), Maastricht, The Netherlands, November 15-19, 2194, 2021.
686. G. N. Schädli, J. R. Vetsch, R. P. Baumann, A. M. de Leeuw, E. Wehrle, M. Rubert and R. Müller. Time-lapsed microstructural imaging reveals increased bone mineralization in polymer nanocomposite scaffolds cultured under cyclic loading in dynamic compression bioreactors. Abstracts 6th World Congress of the

Tissue Engineering and Regenerative Medicine International Society (TERMIS-WC 2021), Maastricht, The Netherlands, November 15-19, 894, 2021.

687. A. M. de Leeuw, B. Kodiyan, J. Zhang, P. J. Lim, M. Rüger, M. Rohrbach, C. Giunta, R. Müller and M. Rubert. Towards the development of human-based bone organoids for personalized medicine. Abstracts 6th World Congress of the Tissue Engineering and Regenerative Medicine International Society (TERMIS-WC 2021), Maastricht, The Netherlands, November 15-19, 1509, 2021.
688. X.-H. Qin, C. Gehre, X. Sutter, P. Campos and R. Müller. Image-based two-photon biofabrication of bone cell models. Abstracts 6th World Congress of the Tissue Engineering and Regenerative Medicine International Society (TERMIS-WC 2021), Maastricht, The Netherlands, November 15-19, 1487, 2021.
689. C. Gehre, R. Müller and X.-H. Qin. Two-photon micropatterning of 3D bone cell networks in photosensitive hydrogels. Abstracts 6th World Congress of the Tissue Engineering and Regenerative Medicine International Society (TERMIS-WC 2021), Maastricht, The Netherlands, November 15-19, 1532, 2021.
690. W. Qiu, R. Müller and X.-H. Qin. New photocleavable hydrogels for high-resolution subtractive biofabrication. Abstracts 6th World Congress of the Tissue Engineering and Regenerative Medicine International Society (TERMIS-WC 2021), Maastricht, The Netherlands, November 15-19, 1479, 2021.
691. F. C. Marques, P. Schmid, E. Wehrle and R. Müller. Performance comparison of Deep Learning segmentation models on histological sections in a murine bone adaptation and regeneration model. Abstracts IX International Congress on Computational Bioengineering (ICCB 2022), Lisbon, Portugal, April 11-13, [38](#), 2022.
692. M. Walle, D. E. Whittier, R. Müller and C. J. Collins. HR-pQCT measures of bone microarchitecture in type 1 and type 2 diabetes mellitus: systematic review and meta-analysis. Abstracts 49th Annual European Calcified Tissue Society Congress (ECTS 2022), Helsinki, Finland, May 6-10, Bone Rep., 16:101243, 2022.
693. N. Mathavan, L. Gregorio, F. C. Marques, G. A. Kuhn, R. Müller and E. Wehrle. Evaluation of a CRISPR/Cas9-based dual-fluorescent reporter mouse model of premature aging to investigate the mechanobiology of bone regeneration. Abstracts 49th Annual European Calcified Tissue Society Congress (ECTS 2022), Helsinki, Finland, May 6-10, Bone Rep., 16:101349, 2022.
694. D. Yilmaz, L. Gregorio, C. Gehre, D. Whittier, X.-H. Qin, E. M. Wehrle, G. A. Kuhn and R. Müller. Degenerative changes in the osteocyte network in prematurely aging polgA mice. Abstracts 49th Annual European Calcified Tissue Society Congress (ECTS 2022), Helsinki, Finland, May 6-10, Bone Rep., 16: 101406, 2022.
695. W. Qiu, J. Gehlen, M. Bernero, C. Gehre, R. Müller and X.-H. Qin. A synthetic photoresin for ultrafast volumetric bioprinting and 4D photopatterning. Abstract 26th Annual Meeting of the Swiss Society for Biomaterials and Regenerative Medicine (SSB+RM2022), Zürich, Switzerland, June 7-9, 2022.
696. C. Gehre, W. Qiu, R. Müller and X.-H. Qin. Guided cell network formation within two-photon-ablated microchannels. Abstract 26th Annual Meeting of the Swiss Society for Biomaterials and Regenerative Medicine (SSB+RM2022), Zürich, Switzerland, June 7-9, 2022.
697. J. Gehlen, W. Qiu, G. Schädli, R. Müller and X.-H. Qin. Tomographic volumetric bioprinting of living bone-like constructs. Abstract 26th Annual Meeting of the Swiss Society for Biomaterials and Regenerative Medicine (SSB+RM2022), Zürich, Switzerland, June 7-9, 2022.
698. M. Walle, D. E. Whittier, C. Weidlich, D. O. Windisch, P. R. Atkins, P. Christen, M. Blauth, K. Lippuner, R. Müller and C. J. Collins. Time-lapsed HR-pQCT allows monitoring local bone remodelling events at various follow-up timepoints in vivo. Abstracts 23rd International Workshop on Quantitative Musculoskeletal Imaging (QMSKI), Noordwijk, The Netherlands, June 13-17, O83, 2022.
699. D. Boaretti, F. C. Marques, J. J. Kendall, G. A. Kuhn, E. Wehrle, Y. D. Bansod and R. Müller. Micro-FE derived mechanical properties for trabecular bone remodeling and adaptation under loading. Abstracts 27th Congress of the European Society of Biomechanics (ESB), Porto, Portugal, June 26-29, 2027, 2022.
700. C. Ledoux, D. Boaretti, J. J. Kendall, R. Müller and C. J. Collins. Agent-based simulations of bone remodelling including osteomorphs predict rapid bone loss post denosumab. Abstracts 27th Congress of the European Society of Biomechanics (ESB), Porto, Portugal, June 26-29, 2217, 2022.
701. D. E. Whittier, M. Walle, P. Christen, P. R. Atkins, C. Collins, M. Blauth, K. Lippuner and R. Müller. Changes in loading during fracture healing do not impact bone microarchitecture of the unfractured wrist. Abstracts 27th Congress of the European Society of Biomechanics (ESB), Porto, Portugal, June 26-29, 2256, 2022.
702. J. J. Kendall, D. Boaretti, C. Ledoux, F. C. Marques, E. Wehrle and R. Müller. Emergence of bone remodelling behaviour from a multiphysics agent-based model. Abstracts 27th Congress of the European Society of Biomechanics (ESB), Porto, Portugal, June 26-29, 2128, 2022.
703. P. Y. Steiner, M. Walle, M. Rigotti, D. E. Whittier, C. McLennan, P. R. Atkins, R. Müller and C. J. Collins. Correction of motion artefacts in HR-pQCT using cycle-consistent adversarial networks. Abstracts 27th Congress of the European Society of Biomechanics (ESB), Porto, Portugal, June 26-29, 2287, 2022.
704. J. K. Griesbach, A. de Leeuw, T. Minacci, P. J. Lim, M. Rüger, M. Rohrbach, C. Giunta and R. Müller. Patient specific osteogenesis imperfecta bone organoids demonstrate increased tissue mineralization. Abstracts 27th Congress of the European Society of Biomechanics (ESB), Porto, Portugal, June 26-29, 2107, 2022.

705. F. C. Marques, B. Schroeder, D. Yilmaz, E. Wehrle and R. Müller. A correlative multimodal imaging approach for multiscale analysis of bone regeneration and adaptation. Abstracts 27th Congress of the European Society of Biomechanics (ESB), Porto, Portugal, June 26-29, 2112, 2022.
706. F. C. Marques, D. Yilmaz, E. Wehrle and R. Müller. Large-scale quantification of osteocyte morphometry and protein expression from murine bone histology. Abstracts 27th Congress of the European Society of Biomechanics (ESB), Porto, Portugal, June 26-29, 2413, 2022.
707. D. Yilmaz, F. C. Marques, E. Wehrle, G. A. Kuhn and R. Müller. Mechanoregulation of CRISPR/Cas9 mediated bone cell reporter mice under cyclic mechanical loading. Abstracts 27th Congress of the European Society of Biomechanics (ESB), Porto, Portugal, June 26-29, 2085, 2022.
708. X.-H. Qin, C. Gehre, W. Qiu, X. Sutter, P. Atkins and R. Müller. Microengineered 3D bone cell models via image-guided two-photon subtractive lithography. Abstracts TERMIS-EU 2022 Annual Meeting, Krakow, Poland, June 28-July 1, Tissue Eng. Part A, 29(11-12):581, 2022.
709. A. de Leeuw, R. Graf, J. Zhang, P. J. Lim, M. Rüger, M. Rohrbach, C. Giunta, R. Müller and M. Rubert. Increased cell density increases mineral formation rates and stiffness in 3D bioprinted patient-derived bone organoids using dynamic loading. Abstracts TERMIS-EU 2022 Annual Meeting, Krakow, Poland, June 28-July 1, Tissue Eng. Part A, 29(11-12):582, 2022.
710. J. Gehlen, W. Qiu, R. Müller and X.-H. Qin. Tomographic volumetric photofabrication of living in vitro bone models. Abstracts TERMIS-EU 2022 Annual Meeting, Krakow, Poland, June 28-July 1, Tissue Eng. Part A, 29(11-12):1305, 2022.
711. R. Müller. Spatial mechanomics of multiscale bone adaptation and regeneration. Abstracts International Symposium on Biomechanics: Challenges of the Next Decade, Graz, Austria, June 30-July 1, p. 40, 2022.
712. E. Wehrle, D. Günther, K. Kataoka, F. C. Marques, N. Mathavan, D. Yilmaz, F. Minacci, L. Gregorio, A. Singh, G. A. Kuhn and R. Müller. Towards spatial in vivo mechanomics of musculoskeletal regeneration. Abstracts XVth Congress of the International Society of Bone Morphometry (ISBM 2022), Odense, Denmark, July 10-13, submitted, 2022.
713. S. Zanner, E. Goff, C. Ejersted, R. Müller, G. A. Kuhn and M. Frost. Microvascular disease significantly increases osteocyte lacunar volume in type 2 diabetic bone. Abstracts XVth Congress of the International Society of Bone Morphometry (ISBM 2022), Odense, Denmark, July 10-13, submitted, 2022.
714. A. de Leeuw, J. Griesbach, T. Minacci, P. J. Lim, M. Rüger, M. Rohrbach, C. Giunta, M. Rubert and R. Müller. A novel 3D-bioprinted patient-specific bone organoid approach for studying mineral formation and mechanics of type XI osteogenesis imperfecta. Abstracts 14th International Conference on Osteogenesis Imperfecta (OI2022), UK, August 30 - September 2, JBMR Plus, 7(S1):OC15, 2022.
715. J. K. Griesbach, A. de Leeuw, F. A. Schulte, T. Minacci, P. J. Lim, M. Rüger, M. Rohrbach, C. Giunta, M. Rubert and R. Müller. Mechano-regulation of bone formation and mineralization in healthy and type XI osteogenesis imperfecta patient-specific 3D bone organoids. Abstracts 14th International Conference on Osteogenesis Imperfecta (OI2022), UK, August 30 - September 2, JBMR Plus, 7(S1):P11, 2022.
716. C. Gehre, W. Qiu, R. Müller and X.-H. Qin. Sensitized two-photon hydrogel ablation for laser-guided formation of 3D bone cell networks. Abstracts MaP Graduate Symposium 2022, ETH Zürich, Zürich, Switzerland, September 1, p. 12, 2022.
717. M. Bernero, R. Müller and X.-H. Qin. The role of matrix viscoelasticity in 3D osteocyte morphogenesis. Abstracts MaP Graduate Symposium 2022, ETH Zürich, Zürich, Switzerland, September 1, p. 45, 2022.
718. F. A. Schulte, C. Weigt, M. von Salis-Soglio, J. Griesbach, F. Correia Marques, M. Kneissel, P. J. Richards, G. A. Kuhn and R. Müller. Mechanical loading increases trabecular bone response additively or synergistically when combined with parathyroid hormone, bisphosphonate or sclerostin antibody treatment. Abstracts ASBMR 2022 Annual Meeting, Austin, USA, September 9-12, J. Bone Miner. Res., 38(1):197, 2022.
719. D. Yilmaz, L. Gregorio, C. Gehre, D. E. Whittier, X.H. Qin, E. Wehrle, G. A. Kuhn and R. Müller. Prematurely aging PolgA mice display sex-dependent degenerative changes in their osteocyte network. Abstracts ASBMR 2022 Annual Meeting, Austin, USA, September 9-12, J. Bone Miner. Res., 38(1):LB SAT-875, 2022.
720. N. Mathavan, C. McLennan, D. Yilmaz, G. A. Kuhn, E. Wehrle and R. Müller. Analyzing gait adaptations to surgically induced fractures in young and old mice. Abstracts 23rd Annual Alberta Biomedical Engineering Conference, Banff, Canada, October 21-22, p. 99, 2022.
721. A. de Leeuw, G. N. Schädli, C. Steffi, P. J. Lim, M. Rüger, M. Rohrbach, C. Giunta and R. Müller. A novel 3D-bioprinted patient-specific biomimetic bone organoid to model osteogenesis imperfecta. Abstracts TERMIS-EU 2023 Annual Meeting, Manchester, UK, March 28-31, Tissue Eng. Part A, 29:OP-223, 2023.
722. J. Griesbach, A. de Leeuw, T. Minacci, P. J. Lim, M. Rüger, M. Rohrbach, C. Giunta, M. Rubert and R. Müller. A novel 3D-bioprinted patient-specific bone organoid approach for studying mineral formation and mechano-regulation of osteogenesis imperfecta. Abstracts TERMIS-AM 2023 Annual Meeting, Boston, USA, April 11-14, Tissue Eng. Part A, 29:63, 2023.
723. C. Gehre, W. Qiu, P. K. Jäger, J. Griesbach, R. Müller and X.-H. Qin. Guided cell network formation within two-photon-ablated microchannels. Abstracts TERMIS-AM 2023 Annual Meeting, Boston, USA, April 11-14, Tissue Eng. Part A, 29:C3, 2023.

724. N. Mathavan, G. Paul, D. Yilmaz, G. A. Kuhn, R. Müller and E. Wehrle. Assessing the use of the PolgA mouse model of premature aging to investigate the effects of aging on bone fracture healing. Abstracts 50th Annual European Calcified Tissue Society Congress (ECTS 2023), Liverpool, UK, May 15-18, P100, 2023.
725. N. Mathavan, C. McLennan, D. Yilmaz, G. A. Kuhn, R. Müller and E. Wehrle. Investigating the influence of age on gait adaptations to surgically-induced femoral fractures. Abstracts 50th Annual European Calcified Tissue Society Congress (ECTS 2023), Liverpool, UK, May 15-18, P198, 2023.
726. D. Yilmaz, J. Schlatter, F. Correia Marques, C. Gehre, X. H. Qin, E. Wehrle, G. A. Kuhn and R. Müller. Degenerated 3D osteocyte lacuno-canalicular network in a mouse model of premature aging. Abstracts 50th Annual European Calcified Tissue Society Congress (ECTS 2023), Liverpool, UK, May 15-18, P237, 2023.
727. C. Ledoux, A. Sachan, I. Kapnadak, C. J. Collins and R. Müller. Micro-multiphysics agent-based model with sclerostin-dependent RANKL production reproduces pivotal dual action effect of romosozumab found in clinical trials. Abstracts 50th Annual European Calcified Tissue Society Congress (ECTS 2023), Liverpool, UK, May 15-18, P271, 2023.
728. F. C. Marques, D. Yilmaz, G. R. Çakmak, E. Wehrle, G. A. Kuhn and R. Müller. Osteocytes identified with 2D high-resolution confocal images can be positioned in their 3D local mechanical environment and associated with tissue-level remodelling events. Abstracts 50th Annual European Calcified Tissue Society Congress (ECTS 2023), Liverpool, UK, May 15-18, P236, 2023.
729. M. Walle, D.E. Whittier, D. Schenk, M. Blauth, P. Zysset, K. Lippuner, R. Müller and C.J. Collins. In vivo repeatability of bone mechanoregulation assessment using longitudinal high-resolution peripheral quantitative computed tomography. Abstracts 50th Annual European Calcified Tissue Society Congress (ECTS 2023), Liverpool, UK, May 15-18, P087, 2023.
730. F. A. Schulte, J. K. Griesbach, F. C. Marques, C. Weigt, M. von Salis-Soglio, P. J. Richards, M. Kneissel, G. A. Kuhn and R. Müller. Mechanoregulatory changes in trabecular bone when combining bisphosphonate, parathyroid hormone, or sclerostin antibody treatment with mechanical loading in vivo. Abstracts 50th Annual European Calcified Tissue Society Congress (ECTS 2023), Liverpool, UK, May 15-18, COP35, 2023.
731. D. E. Whittier, M. Walle, C. Ledoux, P. Atkins, J. Holtmann, C. Collins, P. Christen, K. Lippuner and R. Müller. Early bone remodelling measured by HR-pQCT and bone turnover markers during fracture healing are determinants of long-term bone mineral density. Abstracts 50th Annual European Calcified Tissue Society Congress (ECTS 2023), Liverpool, UK, May 15-18, P104, 2023.
732. G. N. Schädli, A. Singh, C. Steffi, A. de Leeuw and R. Müller. Mechanoresponsive 3D bioprinted bone organoids from hMSC-laden hydrogels. Abstracts ISSCR 2023 Annual Meeting, Boston, USA, June 14-17, 591, 2023.
733. J. J. Kendall, V. Baumann, N. Mathavan, E. Wehrle and R. Müller. Mechanoregulation of bone formation during non-unions in prematurely ageing mice. Abstracts 28th Congress of the European Society of Biomechanics, Maastricht, The Netherlands, July 9-12, 165, 2023.
734. F. C. Marques, A. Singh, N. Mathavan, D. Günther, E. Wehrle and R. Müller. A correlative multimodal imaging approach for spatial transcriptomics mechanoregulation analysis. Abstracts 28th Congress of the European Society of Biomechanics, Maastricht, The Netherlands, July 9-12, 742, 2023.
735. F. C. Marques, E. Wehrle and R. Müller. Validation of a multimodal 2D-3D registration algorithm using unimodal synthetic experiments. Abstracts 28th Congress of the European Society of Biomechanics, Maastricht, The Netherlands, July 9-12, 749, 2023.
736. D. Yilmaz, T. Parajasingam, L. Gregorio, C. Gehre, F. C. Marques, X.-H. Qin, E. Wehrle, G. A. Kuhn and R. Müller. Prematurely aged PolgA mice exhibit degenerated osteocyte network and mechanosensation. Abstracts 28th Congress of the European Society of Biomechanics, Maastricht, The Netherlands, July 9-12, 772, 2023.
737. C. Ledoux, D. Boaretti, J. J. Kendall, R. Müller and C. J. Collins. Accrual of osteoclast precursors drives bone loss after denosumab discontinuation: a digital twin study. Abstracts 28th Congress of the European Society of Biomechanics, Maastricht, The Netherlands, July 9-12, 966, 2023.
738. R. Müller. From biomechanics to bone mechanobiology. Abstracts 6th Japan-Switzerland Workshop on Biomechanics (JSB2023), Otaru, Hokkaido, Japan, August 29 - September 1, p. 32, 2023.
739. C. Gehre, W. Qiu, P. K. Jaeger, R. Müller and X. H. Qin. Laser-guided bone cell network formation in vitro via two-photon microchannel ablation. Abstracts 33rd Annual Conference of the European Society of Biomaterials (ESB), Davos, Switzerland, September 4-8, S4.7-O2, 2023.
740. M. Bernero, D. Zauchner, R. Müller and X. H. Qin. Interpenetrating network hydrogels for studying the role of matrix viscoelasticity in 3D osteocyte morphogenesis. Abstracts 33rd Annual Conference of the European Society of Biomaterials (ESB), Davos, Switzerland, September 4-8, S6.5-O4, 2023.
741. W. Qiu, J. Gehlen, M. Bernero, C. Gehre, G. N. Schädli, R. Müller and X. H. Qin. A synthetic dynamic photoresin for fast volumetric bioprinting of functional hydrogel constructs. Abstracts 33rd Annual Conference of the European Society of Biomaterials (ESB), Davos, Switzerland, September 4-8, S9.1-O1, 2023.
742. S. Noor Anindita, R. Conti, D. Zauchner, N. Paunović, W. Qiu, M. Green Buzhor, A. Krivitsky, Z. Luo, R. Müller H. Grützmacher, X. H. Qin, J.-C. Leroux and Y. Bao. Bioactive complex PEG hydrogels via heat-

assisted digital light processing. Abstracts 33rd Annual Conference of the European Society of Biomaterials (ESB), Davos, Switzerland, September 4-8, PoA.1.32, 2023.

743. B. W. M. de Wildt, N. A. J. M. Sommerdijk, A. Akiva, R. Müller, K. Ito, S. Hofmann and X. H. Qin. Bioinspired mineralization strategies for advanced in vitro bone models. Abstracts 33rd Annual Conference of the European Society of Biomaterials (ESB), Davos, Switzerland, September 4-8, PoA.12.07, 2023.
744. D. Zauchner, M. Z. Müller, L. Bissig, F. Zhao, S. S. Lee, R. Müller and X. H. Qin. A synthetic void-forming hydrogel for in vitro generation of functional bone cell networks. Abstracts 33rd Annual Conference of the European Society of Biomaterials (ESB), Davos, Switzerland, September 4-8, PoA.15.28, 2023.
745. W. Qiu, R. Müller and X. H. Qin. New photocleavable PEG hydrogels for subtractive two-photon biofabrication. Abstracts 33rd Annual Conference of the European Society of Biomaterials (ESB), Davos, Switzerland, September 4-8, PoB.10.18, 2023.
746. M. Horrer, D. Zauchner, W. Qiu, R. Müller and X. H. Qin. Cell-interactive macroporous PEG hydrogels towards a human bone in vitro model. Abstracts 33rd Annual Conference of the European Society of Biomaterials (ESB), Davos, Switzerland, September 4-8, PoB.10.57, 2023.
747. R. Müller. Micro-multiphysics agent-based modeling for the exploration of bone remodeling mechanisms and mechanoregulation in aging. Abstracts X International Congress on Computational Bioengineering (ICCB 2023), Vienna, Austria, September 20-22, PL1, 2023.
748. D. Yilmaz, T. Parajasingam, L. Gregorio, C. Gehre, F. C. Marques, N. Mathavan, X.-H. Qin, E. Wehrle, G. A. Kuhn and R. Müller. Prematurely aging PolgA mice exhibit sex-specific hallmarks of musculoskeletal aging. Abstracts ASBMR 2023 Annual Meeting, Vancouver, Canada, October 13–16, J. Bone Miner. Res., 38(2):1039, 2023.
749. J. K. Griesbach, F. A. Schulte, C. Weigt, M. von Saglis-Soglio, F. M. Lambers, P. J. Richards, M. Kneissel, G. Kuhn and R. Müller. Effects combining mechanical loading with sclerostin antibody, parathyroid hormone, or bisphosphonate treatment on mechanoregulation in trabecular bone in mice. Abstracts ASBMR 2023 Annual Meeting, Vancouver, Canada, October 13–16, J. Bone Miner. Res., 38(2):1095, 2023.
750. D. Whittier, M. Walle, C. Ledoux, P. Atkins, C. Collins, J. Holtmann, M. Zumstein, P. Christen, K. Lippuner and R. Müller. Fracture healing leads to localized structural bone loss quantified using void space analysis. Abstracts ASBMR 2023 Annual Meeting, Vancouver, Canada, October 13–16, J. Bone Miner. Res., 38(2):FRI-040, 2023.
751. M. Walle, A. Duseja, D. E. Whittier, T. Vilaca, M. Paggiosi, R. Eastell, R. Müller and C. J. Collins. Bone remodelling and responsiveness to mechanical stimuli in type 1 diabetes mellitus: the role of neuropathy. Abstracts ASBMR 2023 Annual Meeting, Vancouver, Canada, October 13–16, J. Bone Miner. Res., 38(2):SUN-562, 2023.
752. C. Steffi, A. de Leeuw, G. N. Schädli, X.-H. Qin, M. Rüger and R. Müller. Bioprinting of a 3D heterocellular human organoid for reproducing physiological bone remodeling. Abstracts ASBMR 2023 Annual Meeting, Vancouver, Canada, October 13–16, J. Bone Miner. Res., 38(2):LB SUN-585, 2023.
753. A. Singh, G. N. Schädli, C. Steffi, A. de Leeuw and R. Müller. Global transcriptome profiling of mechanoresponsive 3D bioprinted bone organoids. Abstracts 2023 TERMIS-AP Conference, Hong Kong, October 16-19, 156, 2023.
754. M. Walle, D. E. Whittier, S. Boyd, R. Müller and C. J. Collins. Investigating the interchangeability of first- and second-generation HR-pQCT systems for measuring bone remodeling in vivo. Abstracts 24th Annual Alberta Biomedical Engineering Conference, Banff, Canada, October 27-28, 2023.
755. R. Müller. Multiscale quantification of spatial bone mechanomics. Abstracts EMBO Workshop on Nuclear Mechano-Genomics, Sardinia, Italy, April 15-20, p. 53, 2024.
756. D. Yilmaz, F. C. Marques, D. Boaretti, G. N. Schädli, D. Whittier, N. Mathavan, A. Singh, E. Wehrle, G. A. Kuhn and R. Müller. Unveiling age- and sex-specific impairments in mechanical adaptation of prematurely aged PolgA mice. Abstracts 51st Annual European Calcified Tissue Society Congress (ECTS 2024), Marseille, France, May 25-28, Bone Rep., accepted, 2024.
757. F. C. Marques, D. Yilmaz, J. Schlatter, C. Gehre, X. H. Qin, E. Wehrle, G. A. Kuhn and R. Müller. An automated image pre-processing pipeline to identify lacunar- canalicular networks from FITC-stained confocal microscopy images. Abstracts 51st Annual European Calcified Tissue Society Congress (ECTS 2024), Marseille, France, May 25-28, Bone Rep., accepted, 2024.
758. F. A. Schulte, J. K. Griesbach, F. C. Marques, C. Weigt, M. von Salis-Soglio, F. M. Lambers, P. J. Richards, M. Kneissel, G. A. Kuhn and R. Müller. Comparative analysis of mechanoregulatory trabecular bone adaptations in response to mechanical loading or sclerostin antibody treatment. Abstracts 51st Annual European Calcified Tissue Society Congress (ECTS 2024), Marseille, France, May 25-28, Bone Rep., accepted, 2024.
759. G. N. Schädli, N. Jacobs, C. Steffi, P. J. Lim, M. Rüger, M. Rohrbach, C. Giunta and R. Müller. Early intermittent parathyroid hormone treatment in patient-specific organotypic rare disease bone models. Abstracts 2024 SBMS Annual Meeting, Bern, Switzerland, June 6, accepted, 2024.
760. W. Qiu, J. Pietrantuono Nepomuceno, C. Gehre, Y. Bao, Z. Li, R. Müller and X. H. Qin. An efficient coumarin-based photodegradable hydrogel for subtractive two-photon biofabrication. Abstracts ESPS 2024, 8th European Symposium of Photopolymer Science, Stresa, Italy, June 17-20, accepted, 2024.

761. M. Bernero, J. Dietz, D. Zauchner, R. Müller and X. H. Qin. An enzymatically cleavable photoresin for volumetric bioprinting of living hydrogel constructs. Abstracts ESPS 2024, 8th European Symposium of Photopolymer Science, Stresa, Italy, June 17-20, accepted, 2024.
762. G. N. Schädli, N. Jacobs, C. Steffi, P. J. Lim, M. Rüger, M. Rohrbach, C. Giunta and R. Müller. Influence of parathyroid hormone 1-34 on integrity of patient-specific osteogenesis imperfecta bone organoids. Abstracts 7th World Congress of the Tissue Engineering and Regenerative Medicine International Society (TERMIS-WC 2024), Seattle, USA, June 25-28, accepted, 2024.
763. A. de Leeuw, C. Steffi, G. N. Schädli, P. J. Lim, M. Rüger, M. Rohrbach, C. Giunta and R. Müller. Effects of combined recombinant protein therapy and mechanical loading on 3d-bioprinted patient-specific biomimetic bone organoids for healthy and osteogenesis imperfecta donors. Abstracts 7th World Congress of the Tissue Engineering and Regenerative Medicine International Society (TERMIS-WC 2024), Seattle, USA, June 25-28, accepted, 2024.
764. C. Steffi, A. de Leeuw, G. N. Schädli, X. Qin, M. Rüger and R. Müller. Human bone organoids with osteoclastic activity: emulating fracture phenotypes in an in vitro model of bone remodeling. Abstracts 7th World Congress of the Tissue Engineering and Regenerative Medicine International Society (TERMIS-WC 2024), Seattle, USA, June 25-28, accepted, 2024.
765. F. C. Marques, A. Singh, N. Mathavan, D. Günther, E. Wehrle and R. Müller. Spatial μ Probe: Unveiling multiscale mechanoregulation in bone fracture healing through correlative imaging. Abstracts 29th Congress of the European Society of Biomechanics, Edinburgh, UK, June 30-July 3, accepted, 2024.
766. F. C. Marques and R. Müller. Accuracy of a multimodal 2D-3D registration algorithm in comparison with gold-standard landmarking registration. Abstracts 29th Congress of the European Society of Biomechanics, Edinburgh, UK, June 30-July 3, accepted, 2024.
767. S. Lindenmann, Z. Li, F. A. Schulte, C. Weigt, F. M. Lambers, G. A. Kuhn, N. Mathavan and R. Müller. Impact of bisphosphonate treatment and mechanical loading on murine osteocyte lacunar morphology. Abstracts 29th Congress of the European Society of Biomechanics, Edinburgh, UK, June 30-July 3, accepted, 2024.
768. C. Steffi, G. N. Schädli, N. Buis, F. Farnhammer, R. Morscher, D. Surdez and R. Müller. Creating mechanically loaded human-derived osteosarcoma organoids for disease modeling and drug testing. Abstracts CABS 2024, Cancer and Bone Society (CABS), Sheffield, UK, July 12-14, accepted, 2024.
769. and R. Müller. Title. Abstracts ASBMR 2024 Annual Meeting, Toronto, Canada, September 27-30, J. Bone Miner. Res., XX:submitted, 2024.
770. and R. Müller. Title. Abstracts ASBMR 2024 Annual Meeting, Toronto, Canada, September 27-30, J. Bone Miner. Res., XX:submitted, 2024.
771. and R. Müller. Title. Abstracts ASBMR 2024 Annual Meeting, Toronto, Canada, September 27-30, J. Bone Miner. Res., XX:submitted, 2024.
772. and R. Müller. Title. Abstracts ISBM 2024, Toronto, Canada, September 30-October 3, accepted, 2024.
773. D. Boaretti, F. C. Marques, G. A. Kuhn, A. Singh, F. A. Schulte and R. Müller. In silico investigation of aging effects on bone mechanobiology: insights from in vivo and computational analysis in aging mice. Abstracts 24th International Workshop on Quantitative Musculoskeletal Imaging (QMSKI), Barossa Valley, Australia, November 3-8, accepted, 2024.
774. F. C. Marques, A. Singh, N. Mathavan, D. Yilmaz, D. Günther, G. A. Kuhn, E. Wehrle and R. Müller. Spatially-resolved gene mechanoregulation analysis during bone fracture healing under mechanical loading. Abstracts 11^o Congresso Nacional de Biomecânica, Sesimbra, Portugal, February 21-22, accepted, 2025.
